Nature Of Things 5:

The Nature of Things Anthony M. Quinton, 2019-03-07 Originally published in 1973 In this systematic treatise Anthony Quinton examines the concept of substance a philosophical refinement of the everyday notion of a thing Four distinct but not unconnected problems about substance are identified what accounts for the individuality of a thing what confers identity on a thing what is the relation between a thing and its appearances and what kind of thing is fundamental in the sense that its existence is logically independent of that of any other kind of thing In Part 1 the first two problems are discussed while in Part 2 the third and fourth are considered Part 3 examines four kinds of thing that have been commonly held to be in some way non material abstract entities the un observable entities of scientific theory minds and their states and finally values The author argues that theoretical entities and mental states are in fact material He gives a linguistic account of universals and necessary truths and advances a naturalistic theory of value The Nature of Things William A. Magee, 2000-05-02 Nature is a topic in many Indian and Tibetan philosophical texts although its meaning varies considerably in both Hindu and Buddhist scriptures The discussion of nature pursued in this book begins with Nagarjuna first century founder of the Middle Way School who refuted a fabricated nature in his Treatise on the Middle In that seminal text he puts forth the three basic criteria for nature it must be something that is non fabricated independent and immutable This book presents Dzong ka ba s discussion of the overly narrow object in his Great Exposition and relates that discussion to Nagarjuna s verses in Treatise on the Middle When combined with an understanding of an overly broad object to be negated this topic brings the Middle Way practitioner to a precise identification of the nonexistent object of negation nature as being a thing s establishment by way of its own entity This book also presents Dzong ka ba s more mainstream commentary on the subject in the Ocean of Reasoning sections which are translated in Part Two It also describes Dzong ka ba s strong reaction to the positive and independent nature asserted by Tibet s greatest synthesist Dol bo Shay rap gyel tsen fourteenth century *On the Nature of Things* Titus Lucretius Carus, William Ellery Leonard, 2004-01-01 The Roman philosopher s didactic poem in 6 parts De Rerum Natura On the Nature of Things theorizes that natural causes are the forces behind earthly phenomena and dismisses divine intervention Derived from the philosophical materialism of the Greeks Lucretius work remains the primary source for contemporary knowledge of Epicurean thought Lucretius On the Nature of Things Titus Lucretius Carus, 1851 **The Nature of Things** Graham Buxton, Norman C.
