Children of the Series and how They Grew, Or, A Century of Heroines and Heroes, Romantic, Comic, Moral Faye Riter Kensinger, 1987 Children's series fiction comprises tales incorporating innocence and hard reality along with romance, wit, and character. Heavy streaks of morality diminished as the entertainment element increased. Heroes performed in a wide range of adventures but restrictions often kept heroines close to home. Series fiction peaked then waned but such writers as Beverly Cleary and Madeleine L. Engle carried on the style.

Disjointed Perspectives on Motherhood Catalina Florina Florescu, 2013-10-29 *Disjointed Perspectives on Motherhood* presents the accounts of mothers who have suffered a major physical and/or psychically traumatic accident and as a consequence their minds and bodies have been drastically changed. They live under the pressure of having discovered the alter ego of their traumatized personality and now distressed cannot embrace their unconditional maternal love. Instead, they enter into a phase where they face the challenge of revealing who they are as persons before accepting or motivating themselves as mothers. The mothers presented in this volume also seem to have another thing in common: their transnational fluid female identity as they enter into an imaginary dialog that transcends geographical and temporal perspectives on womanhood and motherhood. This collection introduces and analyzes recurrent words that define a woman's body and mind today: fear, competition, motherhood, and career, rights, selfishness, ambition, destruction, distance, and identity. By using unprecedented comparative critical approaches such as phenomenological, medical, feminist, and re-enchantment theories and by analyzing works from literature, cinema, and visual arts, this collection attempts to reestablish and redefine a canonical concept with the intention to revitalize an otherwise taken-for-granted image and role.

In *Consumerism and American Girls' Literature*, Peter Stoneley looks at how women fictionalized for the girl reader the ways of achieving a powerful social and cultural presence. He explores why and how a scenario of buying into womanhood became, between 1860 and 1940, one of the nation's central allegories, one of its favourite means of negotiating social change.
