Open Secrets Israeli Foreign And Nuclear Policies:

Open Secrets Israel Shahak, 1997-02-20 Israel's foreign policy is perceived to be essentially a defensive one by the international community. Why then is it the only nuclear power which refuses to sign the Non Proliferation Treaty? What are its true foreign and nuclear policies? Using the Hebrew press as his main source, veteran human rights campaigner Israel Shahak reveals Israel's strategic foreign policy as presented through its own domestic media, i.e. what other Israeli Jews are told. He argues that the Israeli government with the support of the US Jewish lobby are conducting a global policy aiming to control virtually the whole of the Middle East for their own purposes. **International Law** Wade Mansell, Karen

Openshaw, 2019-08-22 This new edition provides a critical introduction to the concepts, principles and rules of international law through a consideration of contemporary international events. It examines both the possibilities and limitations of the legal method in resolving international disputes and notes the actual effects of international law upon international disagreements. Such an approach remains sceptical rather than cynical and is intended to provide the means by which the role of international law may be evaluated. This entails discussion of the legal quality of international law, the relationship between international law and international relations, the Eurocentricity of international law and the connection between political power and the ability to use or abuse or ignore international law. The new edition explores the impact of the United States' latest direction in foreign policy, arguably an intensification of pre-existing neo-conservative trends, considers in greater depth the issue of economic self-determination in relation to ex-colonial nations, expands the discussion of jurisdiction to cover immunity from jurisdiction and covers recent developments at the International Criminal Court. Underlying the book is the assertion that international law is political in content in the sense of being concerned with the exercise of power, but that it draws much of its effectiveness from its self-portrayal as being apolitical or at least politically neutral. **The GCC**

and the International Relations of the Gulf Matteo Legrenzi, 2015-07-31 The Gulf Cooperation Council (GCC) made up of Saudi Arabia, Bahrain, Kuwait, Oman, Qatar and the United Arab Emirates (UAE) is one of the most resilient sub-regional organizations in the world and the most successful in the Arab world. It has been the forum through which much security cooperation in this volatile sub-region has taken place, as well as the main representative for the UAE's territorial dispute with Iran over the Abu Musa and Tunbs islands. The organization aims to enhance defence cooperation between its member states; it also has significant potential to foster economic integration and to present an alternative form of leverage over the international oil markets. Very little is known, however, about how the organization really works, how decisions are actually taken, as opposed to how this process is formally articulated in its charter, and what the GCC's real impact on member states, the Gulf and international relations is. Drawing on cutting-edge theoretical perspectives as well as unique firsthand access to GCC decision-makers, Matteo Legrenzi explains the mechanisms of Gulf cooperation and its limitations in the context of economic globalization, diplomatic regionalization and the rise of Iran. Combining historical context, primary source

investigations and theoretical analysis this is a comprehensive guide to the GCC and an indispensable resource for anyone concerned with the Gulf and the Middle East *The Palestine Yearbook of International Law, 1996-1997* Academie de Droit International,1998-07-01 When the international legal community seeks definitive information and educated commentary on Palestinian issues it turns to The Palestine Yearbook of International Law The ninth volume contains leading articles on the judicial review in Palestine on water management and on the status of Jerusalem the texts of Palestinian Israeli and U S legislation the texts of several reports on rights and claims of Moslems and Jews in connection with the Wailing Wall a selection of recent book reviews and a detailed bibliography The charged nature of this field heightens the importance of access to quality information The Palestine Yearbook of International Law supplies topical coverage on a wide range of issues in the field making it a key resource for international practitioners and academics *From BCCI to ISI* Abid Ullah Jan,2006-01-01 *Integrated Middle East Regional Approaches to Unconventional Arms Control and Disarmament* Laura Drake,1999-10-12 The topic of biological weapons and the issues of arms control and disarmament are addressed in Middle East regional perspective This requires that the subject be dealt with not as a separate category but within the overall context of the Middle East military balance This taken into consideration the different approaches to unconventional and mixed arms control are addressed in terms of how they affect the national interests of regional states and in what form they are most likely to appear as increasing rather than diminishing their security The US USSR nuclear arms control effort during the Cold War is advocated as a process model for the Middle East It provides a way to disarm the most heavily armed regional powers of their most dangerous weapons without damaging their respective national interests The voluntarism inherent in this approach respects the sovereignty of the region s several states thereby overcoming both the Israeli distrust of international organizations and treaties and the Arab distrust of the partiality of the American superpower The further recommendation to marry the US USSR arms control negotiation model to the Middle East theater and its long history of negotiated military agreements beginning with the Arab Israeli armistice agreements in 1948 49 contains the additional benefit of separating the military requirements of arms control from the political shackles of a declining Middle East peace process Israel s objection is that the Arms Control and Regional Security Committee part of the multilateral track of the peace process does not include states like Iran Iraq Syria and Libya the states by which Israel says it is most threatened The remodeling of Middle East arms control according to Cold War standards enables the inclusion of those proliferating states which are not prepared to enter into political and economic normalization or security cooperation with Israel but whose arms races with Israel and with one another are creating an ever more dangerous regional environment *Activism and Rhetoric* JongHwa Lee,Seth Kahn,2010-10-18 This volume examines the role of rhetoric in today s culture of democratic activism The volume takes on two of the most significant challenges currently facing contemporary rhetorical studies 1 the contested meanings and practices of democracy and civic engagement in global context and 2 the central role of rhetoric in democratic

activist practices In presenting a variety of political and rhetorical struggles in their specific contexts editors Seth Kahn and JongHwa Lee allow contributors to reflect on and elaborate possibilities for both activist approaches to rhetorical studies and rhetorical approaches to activist projects facilitating better understanding the socio political consequences of this work With contributors from widely known scholars in communication and composition studies the collection offers practical cases that highlight how rhetoric mediates constitutes and or intervenes in democratic principles and practices It also considers theoretical questions that acknowledge profound voids in the rhetorical tradition e g Western neo Aristotelian liberal and expand the horizon of traditional rhetorical perspectives It advocates new knowledge and practices that further promote civic engagement social change and democracy in the global context Activism and Rhetoric will be appropriate for scholars and students across disciplines including rhetoric composition communication studies political science cultural studies and women s studies

The Democrats Lance Selfa, 2012-08-07 An assessment of the state of the Democratic Party in the new millennium the betrayal of progressive ideals and how real change can happen The 2006 elections put the Democrats in the majority in both houses of Congress yet those hoping for change were deeply disappointed Likewise the striking victory of Barack Obama and the Democrats in 2008 created a wave of optimism but the promise would not be fulfilled In this book Lance Selfa looks at the Democrats in a broad historical perspective showing that today s betrayals stem from the Democratic Party s role as one of the two parties serving the interests of the US establishment not of the broader public or its base of women African Americans trade union members and working and poor people Many other books on the Democrats have seen the party s recent history as a departure from its storied past as the party of the people Selfa s book is one of the few written for a popular audience to challenge this myth and to put today s legitimacy crisis in the Democratic Party in a historical perspective encouraging us to think beyond the next election cycle Worthy reading for anyone who is interested in social change MediaMouse With a new duly deserved chapter on the Obama Era Lance Selfa s *The Democrats* reveals the many ways in which the establishment Democratic Party has not just dashed progressive hopes over centuries but served as a distraction from the desperately needed business of making real change in this country Writing dismal history like this is dirty work but somebody s got to do it and Selfa s straight talk actually lifts ones spirits Laura Flanders host of *The Laura Flanders Show*

Out of Bounds Matthew Abraham, 2014-01-02 Academic freedom is a key element of the academic enterprise in the U S However it does not seem to exist when scholars seek to advocate on behalf of Palestinian self determination This unique work examines how the knowledge power nexus is shaping the discourse around the Israel Palestine conflict and restricting academic freedom Beginning with a discussion of American Zionism the work proceeds to explain why scholars working on the question of Palestine are often denied standard academic freedom This is supported by prominent cases such as Norman G Finkelstein s denial of tenure the Middle East Studies Department at Columbia University and Mearsheimer and Walt s book *The Israel Lobby* The work of Edward Said and Noam Chomsky are also discussed and the

book concludes with recommendations for protecting intellectual freedom to those seeking to critically pursue the question of Palestine This scholarly study will appeal to a broad audience of faculty students and readers who seek to understand the importance of academic freedom and the thorny debates surrounding the Israel Palestine conflict Behind the War on Terror Nafeez Mosaddeq Ahmed,2003-01-01 Using official sources Ahmed investigates U S and British claims about Iraq s WMD programs and in the process reveals the hidden motives behind the 2003 invasion and the grand strategy of which it is a part He shows that the true goals of U S British policy in the Middle East are camouflaged by spin P R declarations and seemingly noble words The reality can only be comprehended through knowledge of the history of Western intervention in the region Ahmed demonstrates that such intervention has been dictated ruthlessly by economic and political interests with little regard for human rights He traces events of the past decades beginning with the West s support for the highly repressive Shah of Iran his subsequent usurpation by the Ayatollah s Islamist regime and the West s resultant backing of Saddam Hussein **Body Horror** John Taylor,1998-09 What compels us to look at shocking photographs or alternatively to look away Should the media use disturbing images to inform at the risk of offending How is our sense of politics morality and culture affected when we are exposed to gruesome images of accidents and disasters murder and execution grief and death In **Body Horror** John Taylor addresses these questions by examining how the media presents unsettling pictures especially those of dead and injured foreigners Drawing on recent experiences in the Gulf Bosnia and Rwanda Taylor argues that documentary photography for all the horror it reproduces ultimately defines a democracy Fully aware of the voyeuristic aspects of photojournalism Taylor probes the difficulty of applying moral imperatives when separating the utility of showing images of suffering and violence from the risk of either insulting or gratifying public sensibilities A compelling documentary of photography s cultural and political power **Body Horror** analyzes the moral responsibility attached to publishing and bearing witness to photographs of violence and the historical amnesia that arises when such imagery remains unseen

Jews against Zionism: Voices for justice Ayoub Issa Ayoub Abu Dayyeh,2025-04-13 In this biography of Jewish and Israeli humanists who are engaged in literature history journalism philosophy theology politics economics law education and the natural and applied sciences we tend to believe that they represent a group of 67 people who enjoy a humanist global way of thinking that is not intolerant of religion sect gender race or class but rather advocate of empathy humanity justice fairness compassion self determination human rights and the decent way of life for all We chose the title of the book **Voices for Justice** because justice transcends peace in that peace may be conditional on circumstances that may not achieve justice

Eye on the Diamonds Terry Crawford-Browne,2012-09-28 In 2007 Terry Crawford Browne published the explosive *Eye On The Money* It was primarily an account of the international banking sanctions campaign against apartheid during the 1980s but also dealt with the early stages of the now well documented South African arms deal scandal *Eye On The Diamonds* is a sequel to the earlier book and provides updated information on the uncovering of the scandal Its purpose is to

keep the arms deal saga and the venality of the war business in public focus In 2008 Crawford Browne was asked to lead a public interest application to the South African Constitutional Court after huge volumes of evidence confirmed how BAE and other arms companies paid massive bribes to politically well connected members of the African National Congress the so called black diamonds to secure their contracts His application forced President Jacob Zuma s reluctant appointment in October 2011 of a judicial commission of inquiry to investigate the scandal Eye On The Diamonds focus on diamonds links the colonial and apartheid histories of South Africa with the close histories of Israel and Palestine It demonstrates how De Beers the South African originated company which dominated the diamond cartel for more than a century is fast losing control to far more ruthless Israeli players Crawford Browne suggests that the diamond trade which is critical to the twenty first century war business makes every diamond a blood diamond Blood diamonds provide the ultimate money laundering opportunity for organised crime while the Israeli war business thwarts efforts at peaceful resolution of conflict Israel itself has become a promised land for organised crime where assassinations money laundering and other criminal activities are justified in the national interest Crawford Browne shows in this well researched and hard hitting book that the international war business and the corruption it unleashes is completely out of control

The Dark Side of Zionism Baylis Thomas, 2011-01-01 The thesis of The Dark Side of Zionism arising from new histories neglected by the media is that both the early Zionists and the Israelis sought their security through military domination of the indigenous Arab population of Palestine This strategy required avoiding negotiations with the Palestinians as well as demonstrating Israeli military might through wars initiated against Arab states opposed to an Israeli takeover of Palestine

Qumsiyeh, 2004-06-20 There is no more compelling and dramatic unfolding story with more profound international ramifications than the conflict in the Middle East Sharing the Land of Canaan is a critical examination of the core issues of the conflict that dares to put forward a radical but logical solution that a shared state is the best way to achieve justice and peace for Israelis and Palestinians Mazin B Qumsiyeh offers an overview of the issues at stake and outlines his vision for a lasting peace based on upholding the principles of human rights for all Tackling taboo subjects myths and obstacles he
