suggestion from Jung and Bachelard that the symbolic resonance of the miniature is inversely proportionate to its size We encounter many instances where the miniature characters are a visibly vulnerable other yet often these occur in association with images of the supernatural as the desired or feared object of adult imagination In *The Child That Haunts Us* it is emphasised that the treatment by any society past or present of its smallest and most vulnerable members is truly revealing of the values it really holds This original and sensitive exploration will be of particular interest to undergraduate and postgraduate students as well as academics engaged in Jungian studies children s literature childhood studies and those with an interest in socio cultural constructions of childhood      The Eagle Magazine ,1926      **The Saturday Review of Politics, Literature, Science, Art, and Finance** ,1865
