Baudelaire and the Aesthetics of Bad Faith Susan Blood, 1997-04-01 This is a study of Baudelaire s canonization in

the critical debates of the twentieth century focusing particularly on his role in the development of a modernist consciousness Much recent work on Baudelaire assumes his modernism by emphasizing his relationship to current critical preoccupations by sounding him out on issues of race and gender for example or by correcting his politics The author begins from the premise that this updating of Baudelaire mistakenly takes him for our contemporary Instead she attempts to treat modernism as a historical problem by seeing Baudelaire as engaged in a more difficult dialogue with twentieth century critics The book concentrates on two key moments in the literary history of the twentieth century the periods following each world war At these junctures French intellectuals intensely reconsidered their cultural patrimony and articulated something like a modernist consciousness Baudelaire stood at the center of this process becoming a sacred figure of modernism and his poetry contributed to a radical reorienting of aesthetic sensibilities For the post World War I period the author focuses on Paul Valéry's essay Baudelaire's Situation for post World War II on the virulent debate between Jean Paul Sartre and Georges Bataille over the question of Baudelaire's bad faith She argues that Sartre's resistance to the sacralization of Baudelaire and to the continuing formulation of a modernist ideology actually suggests a valuable way of rethinking Baudelaire's poetry and critiquing the modern consciousness She attempts to show that something like an aesthetics of bad faith exists and that it is a useful concept for understanding modernism in relationship to its own history Throughout Baudelaire's poetry is examined in detail with a focus on its relationship to his writings on caricature on the problem of the secret architecture and on the place of allegory in a symbolist poetics In the closing chapter the author analyzes Baudelaire's denunciation of photography which reveals the various tensions or bad faith implicit in the modernist consciousness

Works for Works, Book 1 Gavin Keeney, 2022 Works for Works Book 1 Useless Beauty tackles legacy issues of intellectual property rights IPR in artistic production and academic scholarship and proposes a category or class of works that has no relation to IPR nor to proprietary regimes of copyright and academic privilege Keeney's book is a structuralist argument for establishing new forms of artistic scholarship that operate in direct opposition to established norms in both the art world and neoliberal academia and is also rigorously contextualized within past and present day arguments for and against patrimonial and paternalistic avant-garde and normative forms of

censure and conformity across cultural production Works for Works Book 1 Useless Beauty privileges an iterative generative and aleatory methodology for artistic scholarship with transmedia proposed as a tutelary form of editioning works against the dictates of the art academic complex This focus on generativity also invokes the dialectical operations historically associated with past avant gardes as they have negotiated an elective nihilism as an avenue for exiting established and authorized forms of conceptual and intellectual inquiry in the Arts and Humanities Gavin Keeney is Director of Agence X founded in New York New York in 2007 He completed a research doctorate in Architecture at Deakin University Australia in 2014 on the subject of Visual Agency in Art and Architecture His publications include Dossier Chris Marker The Suffering Image Cambridge Scholars Publishing 2012 Knowledge Spirit Law Book 1 Radical Scholarship punctum 2015 and Knowledge Spirit Law Book 2 The Anti capitalist Sublime punctum 2017 He has taught and lectured in architecture schools in the US England Slovenia Australia and India

MEDINFO 2021: One World, One Health — Global Partnership for Digital Innovation P. Otero,P. Scott,S.Z. Martin,2022-08-05 The World Health Organization defines health as a state of complete physical mental and social well being and not merely the absence of disease or infirmity and its constitution also asserts that health for all people is dependent on the fullest co operation of individuals and States The ongoing pandemic has highlighted the power of both healthy and unhealthy information so while healthcare and public health services have depended upon timely and accurate data and continually updated knowledge social media has shown how unhealthy misinformation can be spread and amplified reinforcing existing prejudices conspiracy theories and political biases This book presents the proceedings of MedInfo 2021 the 18th World Congress of Medical and Health Informatics held as a virtual event from 2 4 October 2021 with pre recorded presentations for all accepted submissions The theme of the conference was One World One Health Global Partnership for Digital Innovation and submissions were requested under 5 themes information and knowledge management quality safety and outcomes health data science human organizational and social aspects and global health informatics The Programme Committee received 352 submissions from 41 countries across all IMIA regions and 147 full papers 60 student papers and 79 posters were accepted for presentation after review and are included in these proceedings Providing an overview of current work in the field over a wide range of disciplines the book will be of interest to all those whose work involves some aspect of medical or health informatics Authenticity and Legitimacy in Minority Theatre Patrice Brasseur,Madelena Gonzalez,2010-04-16 Contemporary theatre is one of the best ways for ethno cultural minorities to express themselves

whether they be of indigenous origin or immigrants It is often used to denounce social injustice and discrimination and more generally it helps to air questions debated in the wider community It may also express itself thanks to the staging of collective memory for it constitutes a privileged space for the exploration of the trauma of the past colonial for example as well as providing a means of effecting the reconfiguration of a new identity or of articulating an uneasiness about that identity Should minority theatre increase its visibility in relation to the mainstream or on the contrary remain on the margins and assert its specificity This question is at the centre of French Canadian experience for example but also applies to other postcolonial societies in Europe and elsewhere In order to maintain its cultural authenticity should this type of theatre distinguish itself from a multiculturalism that runs the risk of political and social recuperation If it is unable to resist the model proposed by globalization and widespread cultural dissemination will it lose its legitimacy Can and should there be a form of popular art at the service of the community The term minority raises questions that will be examined by the articles collected in this volume What is the definition of a minority Does this term refer to experimental and avant garde art forms as well as to ethno cultural drama Contemporary theatre is characterized by an aesthetics of hybridity in what measure is this the case for theatre outside the mainstream The exploration of this kind of theatre necessitates an examination of the very concept of theatre per se Since the development of the electronic media as the privileged vector of culture has not the theatrical genre itself become a minority art form These are some of the pressing questions that this volume will try to address thanks to a cross cultural multidisciplinary approach that aims to reveal the rich diversity of the field under study

Chemical news and Journal of physical science, 1867 *Signs, Language, and Culture: The Semograms of the Pyramid Texts between Iconicity and Referential Reality* Josep Cervelló Autuori, Marc Orriols-Llonch, 2025-04-17 The signs of Egyptian hieroglyphic writing are pictograms i e images that represent beings and objects of reality The main characteristic of pictograms is their iconicity An icon conveys meaning through the image which distinctly refers to a real referent by depicting several of its defining features This volume focuses on semograms which are lexical or semantic pictograms meaning the image itself participates directly in the encoding of the linguistic message The Pyramid Texts of the late 3rd millennium BCE constitute the oldest corpus of funerary texts in Egyptian and human history Their semograms iconically reflect cultural realities of Old Kingdom Egypt and perhaps earlier The studies you will find in

this book are devoted to the dialectics between text sign iconicity and referential reality Nancy, Blanchot Leslie Hill, 2018-09-30 The concept of community is one of the most frequently used and abused of recent philosophical or socio political concepts In the 1980s faced with the imminent collapse of communism and the unchecked supremacy of free market capitalism the philosopher Jean Luc Nancy in *The Inoperative Community* and the writer Maurice Blanchot in *The Unavowable Community* both thought it essential to rethink the fundamental basis of community as such More recently Nancy has renewed the debate by unexpectedly attacking Blanchot's account of community claiming that it embodies a dangerously nostalgic desire for mythic and religious communion This book examines the history and implications of this controversy It analyses in forensic detail Nancy's and Blanchot's contrasting interpretations of German Romanticism and the work of Heidegger Bataille and Marguerite Duras and examines closely their divergent approaches to the contradictory legacy of Christianity At a time when politics are increasingly inseparable from a deep seated sense of crisis it provides an incisive account of what in the concept of community is thought yet crucially still remains unthought
