Copyright Office, 1976 **20th Century Jewish Religious Thought** Arthur A. Cohen, Paul Mendes-Flohr, 2010-01-01 JPS is proud to reissue Cohen and Mendes Flohr's classic work perhaps the most important comprehensive anthology available on 20th century Jewish thought This outstanding volume presents 140 concise yet authoritative essays by renowned Jewish figures Eugene Borowitz Emil Fackenheim Blu Greenberg Susannah Heschel Jacob Neusner Gershom Scholem Adin Steinsaltz and many others They define and reflect upon such central ideas as charity chosen people death family love myth suffering Torah tradition and more With entries from Aesthetics to Zionism this book provides striking insights into both the Jewish experience and the Judeo Christian tradition Religion 21st Century M. G. Chitkara, 2002 The Ecumenical Review , 1975 Secular Messiahs and the Return of Paul's 'Real' C. Principe, 2015-05-19 This project engages with scholarship on Paul by philosophers psychoanalysts and historians to reveal the assumptions and prejudices that determine the messiah in secularism and its association with the exception **Gandhi for the 21st Century** Mrinal Miri, Bindu Puri, 2023-07-19 This book examines the centrality of ideas such as satya truth ahimsa non violence humility and respect for understanding moral life in the complex milieu of human existence It provides a comprehensive view of how Gandhian ideas have both a temporal and spatial universality significantly different from Western modern philosophy's universality claims The chapters represent different styles of philosophy but with a common purpose offering insights into how the global debates on religion morality and politics are assessed from Gandhi's point of view Written in language accessible to general readers with an interest in Gandhian thinking the book will appeal to academics and philosophers *Encounter* , 1975 Triangulating Religion, Belief, and Faith in the Twenty-First Century Bradford McCall, 2025-01-16 This book gives the reader the ability to make new inroads to understanding how faith belief and religion not only differ but also how they can contribute to comparative theology These three topics broadly covered herein can heighten the understanding of the Sacred by those who study them As to a few preliminaries what is faith Further what is belief Which one comes first in a person's journey toward the Sacred Moreover does religion factor into these two terms and if so where and how Does Augustine's well worn line faith seeking understanding mean anything today If it does would it mean belief comes prior to faith and or religion One can argue both sides of this debate and still be considered orthodox seemingly Perhaps it is the case that belief precedes faith most of the time but not all of the time Perhaps it is the other way around What exactly is the demarcation between belief and faith Many a person believes a thing to be true in their very bones such a stance borders on what is commonly referred to as faith Is religion the combination of belief and faith together into a coherent system of thought or is it emergent from the two existing as a separate mental or spiritual entity Explore these questions and more Psychoanalysis and Religion in the 21st Century David M. Black, 2012-07-26 What can be

gained from a dialogue between psychoanalysis and religion Freud described religion as the universal obsessional neurosis and uncompromisingly rejected it in favour of science Ever since there has been the assumption that psychoanalysts are hostile to religion Yet from the beginning individual analysts have questioned Freud's blanket rejection of religion In this book David Black brings together contributors from a wide range of schools and movements to discuss the issues They bring a fresh perspective to the subject of religion and psychoanalysis answering vital questions such as How do religious stories carry or distort psychological truth How do religions work psychologically What is the nature of religious experience Are there parallels between psychoanalysis and particular religious traditions Psychoanalysis and Religion in the 21st Century will be of great interest to psychoanalysts psychoanalytic therapists psychodynamic counsellors and anyone interested in the issues surrounding psychoanalysis religion theology and spirituality **Religion in the 21st Century** Lisbet

Christoffersen, Margit Warburg, 2016-04-08 In spite of the debate about secularization or de secularization the existential bodily need for religion is basically the same as always What have been changed are the horizons within which religions are interpreted and the relationships within which religions are integrated This book explores how religions continue to challenge secular democracy and science and how religions are themselves being challenged by secular values and practices All traditions whether religious or secular experience a struggle over authority and this struggle seems to intensify with globalization as it has brought people around the world in closer contact with each other In this book internationally leading scholars from sociology law political science religious studies theology and the religion and science debate take stock of the current interdisciplinary research on religion and open new perspectives at the cutting edge of the debate on religion in the 21st century *Pentecostal Theology for the Twenty-First Century* May Ling Tan-Chow, 2016-05-13 In our post 9 11 world where there is a growing religious fundamentalism and when both exclusion and easy tolerance are inadequate options this book offers a creative alternative arguing that Pentecostalism has the potential to be a peaceful harbinger of plurality The potential lies in its spirituality a lively pneumatology and eschatology The eschatological Spirit is seen as orientated towards the other crossing boundaries in redemptive embrace transcending exclusion and easy tolerance This book's non Western perspective and the empirical contextual study of Singapore's multicultural and multi faith context are unique contributions to religion and society This is a book for students pastors teachers and theologians concerned for an approach to mission that is sensitive to their context who want to learn from a creative theological voice from what has been perhaps the largest religious movement in history and who see the immense potential in lively theology by Christians of the Chinese diaspora who can speak to the many millions of ethnic Chinese Christians This book will also appeal to those outside Christianity who are interested in its attempts to engage with a complex multi ethnic and multi religious situation such as that in Singapore
