Yang, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989 *The Intra-Asian Trade in Japanese Copper by the Dutch East India Company*

during the Eighteenth Century Ryuto Shimada, 2005-12-01 In this definitive study of the intra Asian trade in Japanese copper trade by the Dutch East India Company the author argues that the trade in this commodity reaped high profits Despite the huge imports of British copper by the English East India Company during the eighteenth century the Dutch Company successfully continued to sell Japanese copper in South Asia at higher prices Compared to the capital intensive development of British mines in the age of the Industrial Revolution the copper production in Tokugawa Japan was characterized by a labour intensive revolution which also made a big impact on the local economy *The Intra-Asian Trade in Japanese Copper by the Dutch East India Company During the Eighteenth Century* Ryūto Shimada, 2006 In this definitive study of the intra Asian trade in Japanese copper trade by the Dutch East India Company the author argues that the trade in this commodity reaped high profits Despite the huge imports of British copper by the English East India Company during the eighteenth century the Dutch Company successfully continued to sell Japanese copper in South Asia at higher prices Compared to the capital intensive development of British mines in the age of the Industrial Revolution the copper production in Tokugawa Japan was characterized by a labour intensive revolution which also made a big impact on the local economy **The**

Leopard, the Lion, and the Cock Matthew Stanard, 2019-04-15 Thought provoking reflection on culture colonialism and the remainders of empire in Belgium after 1960 The degree to which the late colonial era affected Europe has been long underappreciated and only recently have European countries started to acknowledge not having come to terms with decolonisation In Belgium the past two decades have witnessed a growing awareness of the controversial episodes in the country's colonial past This volume examines the long term effects and legacies of the colonial era on Belgium after 1960 the year the Congo gained its independence and calls into question memories of the colonial past by focusing on the meaning and place of colonial monuments in public space The book foregrounds the enduring presence of empire in everyday Belgian life in the form of permanent colonial markers in bronze and stone lieux de mémoire of the country's history of overseas expansion By means of photographs and explanations of major pro colonial memorials as well as several obscure ones the

book reveals the surprising degree to which Belgium became infused with a colonialist spirit during the colonial era Another key component of the analysis is an account of the varied ways in which both Dutch and French speaking Belgians approached the colonial past after 1960 treating memorials variously as objects of veneration with indifference or as symbols to be attacked or torn down The book provides a thought provoking reflection on culture colonialism and the remainders of empire in Belgium after 1960

The Quest for the Lost Nation Sebastian Conrad,2010-07-15 Highly praised when published in Germany The Quest for the Lost Nation is a brilliant chronicle of Germany's and Japan's struggles to reclaim a defeated national past Sebastian Conrad compares the ways German and Japanese scholars revised national history after World War II in the shadows of fascism surrender and American occupation Defeat in 1945 marked the death of the national past in both countries yet as Conrad proves historians did not abandon national perspectives during reconstruction Quite the opposite the nation remained hidden at the center of texts as scholars tried to make sense of the past and searched for fragments of the nation they had lost By situating both countries in the Cold War Conrad shows that the focus on the nation can be understood only within a transnational context

New Times in Modern Japan Stefan Tanaka,2009-02-09 New Times in Modern Japan concerns the transformation of time the reckoning of time during Japan's Meiji period specifically from around 1870 to 1900 Time literally changed as the archipelago synchronized with the Western imperialists reckoning of time The solar calendar and clock became standard timekeeping devices and society adapted to the abstractions inherent in modern notions of time This set off a cascade of changes that completely reconfigured how humans interacted with each other and with their environment a process whose analysis carries implications for other non Western societies as well By examining topics ranging from geology ghosts childhood art history and architecture to nature as a whole Stefan Tanaka explores how changing conceptions of time destabilized inherited knowledge and practices and ultimately facilitated the reconfiguration of the archipelago's heterogeneous communities into the liberal capitalist nation state Japan However this revolutionary transformation where in the words of Lewis Mumford the clock not the steam engine is the key mechanism of the industrial age has received little more than a footnote in the history of Japan This book's innovative focus on time not only shifts attention away from debates about the failure or success of modernization toward how individuals interact with the overlay of abstract concepts upon their lives it also illuminates the roles of history as discourse and as practice in this reconfiguration of society In doing so it will influence discussions about modernity well beyond the borders of Japan

Colonization Marc Ferro,2005-08-19 The first comprehensive synthesis and analysis of colonialism from its origins to the present Using a non Eurocentric approach Ferro compares all the European colonial powers as well as Arab Turk and Japanese colonialism

War, Trade and Piracy in the China Seas (1622-1683) Weichung Cheng,2013-05-13 Approaching its demise the Ming imperial administration enlisted members of the Cheng family as mercenaries to help in the defense of the coastal waters of Fukien Under the leadership of Cheng Chih lung also known as Nicolas Iquan and with the help of the local gentry these mercenaries became the backbone of the empire s maritime defense and the protectors of Chinese commercial interests in the East and South China Seas The fall of the Ming allowed Cheng Ch eng kung alias Coxinga and his sons to create a short lived but independent seaborne regime in China s southeastern coastal provinces that competed fiercely if only briefly with Spanish Portuguese Dutch and English merchants during the early stages of globalization

Imperial Meridian C. A. Bayly,2016-09-17 In this impressive and ambitious survey Dr Bayly studies the rise apogee and decline of what has come to be called the Second British Empire the great expansion of British dominion overseas particularly in Asia and the Middle East during the French Revolutionary and Napoleonic era that coming between the loss of America and the subsequent partition of Africa constitutes the central phase of British imperial history

The Meaning Of Freedom Frank McGlynn,Seymour Drescher,1992-05-15 In this interdisciplinary study scholars consider the aftermath of slavery focusing on Caribbean societies and the southern United States What was the nature and impact of slave emancipation Did the change in legal status conceal underlying continuities in American plantation societies Was there a common postemancipation pattern of economic development How did emancipation affect the politics and culture of race and class This comparative study addresses precisely these types of questions as it makes a significant contribution to a new a growing field

Across Cultural Borders Eckhardt Fuchs,Benedikt Stuchtey,2002 This innovative work offers the first comprehensive transcultural history of historiography The contributors transcend a Eurocentric approach not only in terms of the individual historiographies they assess but also in the methodologies they use for comparative analysis Moving beyond the traditional national focus of historiography the book offers a genuinely comparative consideration of the commonalities and differences in writing history Distinguishing among distinct cultural identities the contributors consider the ways and means of intellectual transfers and assess the strength of local historiographical traditions as they are challenged from outside The essays explore the question of the utility and the limits of conceptions of modernism that apply Western theories of development to non Western cultures Warning against the dominant tendency in recent historiographies of non Western societies to define these predominantly in relation to Western

thought the authors show the extent to which indigenous traditions have been overlooked The key question is how the triad of industrialization modernization and the historicization process which was decisive in the development of modern academic historiography also is valid beyond Europe Illustrating just how deeply suffused history writing is with European models the book offers a broad theoretical platform for exploring the value and necessity of a world historiography beyond Eurocentrism

British Imperialism P.J. Cain,A. G. Hopkins,2016-03-02 A milestone in the understanding of British history and imperialism this ground breaking book radically reinterprets the course of modern economic development and the causes of overseas expansion during the past three centuries Employing their concept of gentlemanly capitalism the authors draw imperial and domestic British history together to show how the shape of the nation and its economy depended on international and imperial ties and how these ties were undone to produce the post colonial world of today Containing a significantly expanded and updated Foreword and Afterword this third edition assesses the development of the debate since the book s original publication discusses the imperial era in the context of the controversy over globalization and shows how the study of the age of empires remains relevant to understanding the post colonial world Covering the full extent of the British empire from China to South America and taking a broad chronological view from the seventeenth century to post imperial Britain today *British Imperialism 1688 2015* is the perfect read for all students of imperial and global history

Portuguese Merchants and Missionaries in Feudal Japan, 1543-1640 C.R. Boxer,2024-12-11 The relationship between God and Mammon forms a recurring theme in this volume the third collection of Professor Boxer s articles to be published by Variorum The previous two traced the Portuguese expansion through the Indian Ocean to South East Asia and in this one he moves on further to the Far East to deal with the China Japan trade based on the cities of Macao and Nagasaki Yet there as elsewhere commerce was not disassociated from religion not only were the missionaries so enthusiastically despatched to convert the Japanese dependant on the merchants for shipping but the Jesuits the principal of those missionaries themselves played an active part in the trade and the fortunes of both merchants and missionaries proved inextricably linked In these articles the author describes the successes and tragedies of the Portuguese during the period when they dominated European activity in the Far East and assesses their influence in what has come to be called the Christian century in Japan

Distant Lands and Diverse Cultures Glenn J. Ames,Ronald S. Love,2003-07-30 Utilizing contemporary accounts of India China Siam and the Levant this study provides rich detail about these exotic lands and explores the priorities that shaped and motivated these bold envoys and chroniclers Ames and Love offer a fascinating look at the symbiotic nature of cross cultural interaction between France and the major trading regions of the Indian Ocean basin during the 17th century During this period of intense French interest in the rich trade and cultures of the region Louis XIV and his minister Jean Baptiste Colbert in particular were concerned with encouraging French travelers both clerical and lay to explore and document these lands Among the accounts included here are those of Fran ois Bernier Jean Baptiste Tavernier

and François Pyrard Because these accounts reflect as much about the structures and priorities of France as they do about the cultures they describe Ames and Love hope their analysis bridges the gap between studies on early modern France and those on the major Asiatic countries of the same period Their findings challenge the current thinking in the study of early modern France by demonstrating that overseas expansion to Asia was of considerable importance and interest to all segments of French society Specialists in traditional internal French history will find much in this study of European expansion to complement and supplement their research

Censorship of Historical Thought Antoon De Baets, 2001-12-30 History is an important dangerous and fragile subject Historical thought can be censored in widely diverging political and historiographical contexts as historians are well aware Yet the problems of censorship often thought to be obvious are rarely studied Filling a significant void this guide supplies information on the censorship of historical thought and the fate of persecuted historians in over 130 countries from Afghanistan to Zimbabwe and from 1945 to 2000 With each entry providing a chronological overview of cases and giving a full listing of sources the book is the first systematic effort to overview the repression of historical thought Aiming to encompass all countries in which censorship and persecution have taken place De Baets sketches a world map of repression that goes beyond the well known and well studied cases It assembles scattered data from three types of sources the works of censors and censored historical and biographical dictionaries and historiographical surveys and reports from international human rights organizations Showing the universality of historical censorship and its infinite variety in amount and degree the book also provides a basis for further comparative research
