Reason And The Christian Religion Essays In Honour Of Richard Swinburne:

Reason and the Christian Religion Alan G. Padgett, 1994 Richard Swinburne is one of the most distinguished philosophers of religion of our day In this volume many notable philosophers in Britain and America unite to honour him and to discuss various topics to which he has contributed significantly These include general topics in the philosophy of religion such as revelation and faith and reason and the specifically Christian doctrines of the Trinity the Incarnation and atonement In the spirit of the movement which Richard Swinburne has spearheaded the essays in this collection use analytic philosophical methods to examine doctrines in particular religious traditions expanding upon traditional discussions of theism

Swinburne's Hell and Hick's Universalism Lindsey Hall, 2017-11-01 This title was first published in 2003 This book seeks to establish whether a Christian position must entail a belief in hell or whether Christians can hold a coherent theory of universal salvation Richard Swinburne's defence of hell depends on the argument that hell is necessary if humans are to be genuinely free It becomes clear that the contemporary discussion of hell and universalism cannot be separated from the issues of human freedom and God's knowledge and so Hall centres the discussion round the question Are we Free to Reject God John Hick argues that although we are free to reject God there will eventually be an universalist outcome Having examined the contrasting arguments of Hick and Swinburne Hall builds on Hick's position to develop an argument for Christian universal salvation which holds in balance our freedom in relation to God and the assurance that all will finally be saved

Comprehensive survey of core Christian doctrines **Faith Has Its Reasons** Kenneth Boa, Robert M. Bowman

Jr., 2012-01-05 A most accessible but thoroughly practical primer on apologetics *A Rational Faith* Joshua

Sijuwade, 2025-03-27 A comprehensive analysis of Richard Swinburne's intellectual journey and philosophical work A

Rational Faith explores the legacy of one of the most influential and rigorous philosophical defenders of theism Across

Swinburne's written career he has displayed a deep commitment to demonstrating the intellectual credibility of the Christian faith facing modern scientific and philosophical challenges and the materialistic worldview of modern intellectualism. Analysing his life and work through in-depth accessible explanations of key issues and their context, Joshua Sijuwade brings together collected criticism of Swinburne's work and explores possible counter arguments alongside a foreword by Richard Swinburne himself. Suitable for any reader interested in Swinburne's philosophy, first approach or those intrigued by a philosophical defence of the Christian faith. *A Rational Faith* reveals Swinburne's life and work as a witness to his belief that belief in the central tenets of the Christian faith is rational. Resurrection, Scripture, and Reformed Apologetics Steven D.

West, 2012-07-26 Apologetic methodology has been the subject of intense debate in Reformed circles. This book argues that we can test Reformed apologetic methods for consistency using two linchpin theological topics: the doctrine of the resurrection and the doctrine of Scripture. Should apologetics move from establishing theism to the resurrection and then to Scripture? Or should theism, the resurrection, and the doctrine of Scripture be accepted on the testimony of the Holy Spirit as basic beliefs? Alternatively, do these doctrines need to be presupposed and incorporated into a transcendental defense of the faith? After analyzing classical apologetics, historical evidentialism, Reformed epistemology, and presuppositionalism for their apologetic cogency, Steven D. West contends that any method used by Reformed apologists should be able to argue successfully for a high view of Scripture, the source of the doctrine of the resurrection. The book will be useful to everyone interested in the relationship between theology, philosophy, and apologetics. **The Predicament of Belief** Philip

Clayton, Steven Knapp, 2011-10-27 Does it make sense? Can it make sense for someone who appreciates the explanatory power of modern science to continue believing in a traditional religious account of the ultimate nature and purpose of our universe? This book is intended for those who care about that question and are dissatisfied with the rigid dichotomies that dominate the contemporary debate. The extremists won't be interested: those who assume that science answers all the questions that matter, and those so certain of their religious faith that dialogue with science, philosophy, or other faith traditions seems unnecessary. But far more people today recognize that matters of faith are complex, that doubt is endemic to belief, and that dialogue is indispensable in our day. In eight probing chapters, the authors of *The Predicament of Belief* consider the most urgent reasons for doubting that religious claims, in particular those embedded in the Christian tradition, are likely to be true. They develop a version of Christian faith that preserves the tradition's core insights but also gauges the varying degrees of certainty with which those insights can still be affirmed. Along the way, they address such questions as the ultimate origin of the universe, the existence of innocent suffering, the challenge of religious plurality, and how to understand the extraordinary claim that an ancient teacher rose from the dead. They end with a discussion of what their conclusions imply about the present state and future structure of churches and other communities in which Christian affirmations are made. **The**

and naturalism in accounting for the emergence of consciousness the visual imagination and aesthetic values The authors begin by offering an account of modern scientific practice which gives a central place to the visual imagination and aesthetic values They then move to test the explanatory power of naturalism and theism in accounting for consciousness and the very visual imagination and aesthetic values that lie behind and define modern science Taliaferro and Evans argue that evolutionary biology alone is insufficient to account for consciousness the visual imagination and aesthetic values Insofar as naturalism is compelled to go beyond evolutionary biology it does not fare as well as theism in terms of explanatory power

Divine Contradiction Jc Beall, 2023-04-15 Building on his paradigm shifting work on the incarnation in *The Contradictory Christ* OUP 2021 Jc Beall extends a robust contradictory theology with an account of the trinity Throughout the history of the Christian church heretics apophatics mystics atheists and many others have long proclaimed that the doctrine of the trinity one of the central doctrines of the Christian faith is contradictory In this work Beall agrees however as Beall convincingly argues one needn't abandon orthodoxy play language games inflate one's metaphysics nor abandon the standard faith in the face of such divine contradiction Instead one can accept central axioms of the trinity at face value and with a suitable account of logical entailment accept the contradictory truths thereby entailed With the clarity and precision that only a logician could provide Beall provided theology and the Christian church in general with a very simple and viable and arguably correct model of divine reality Unlike the vast number of theologians and philosophers before him Beall rejects the quest for a logically consistent account of divine reality The triune god viz God is truly and fully described only via contradiction As such attempts to remove the contradiction are attempts to remove truths of God

Among the Creationists Jason Rosenhouse, 2012-04-02 Why does creationism universally reviled by scientists retain such popularity among the public Seeking answers mathematician Jason Rosenhouse became a regular attendee at creationist conferences and other gatherings He tells his story through anecdotes personal reflections and scientific discussion thereby painting a more realistic and human picture of modern creationism

Karl Barth on Theology and Philosophy Kenneth Oakes, 2012-12-06 Karl Barth is often assumed to have been hostile to philosophy wilfully ignorant of it or too indebted to its conclusions for his own theological good These truisms of twentieth century theology are challenged in this original and comprehensive account of Barth's understanding of the relationship between theology and philosophy Drawing upon a range of material from Barth's earliest writings 1909 up until interviews and roundtable discussions that took place shortly before his death 1968 Kenneth Oakes offers a developmental account of Barth's thoughts on philosophy and theology Beginning with the nineteenth century intellectual background to Barth's earliest theology Oakes presents the young and liberal Barth's understanding of the relationship between theology and philosophy and then tracks this understanding throughout the rest of Barth's career While Barth never finally settled on a single fixed account of theology and philosophy there was still a great deal of continuity regarding this topic in Barth's oeuvre Looking through the lens of theology and philosophy Barth's continual indebtedness to

nineteenth century modern theology is clearly seen as well as his attempts and struggles to move beyond it In addition to locating Barth's account of theology and philosophy historically this study also gives attention to the specific doctrines and theological presuppositions that inform Barth's different portrayals of the relationship between theology and philosophy Oakes asks how and why Barth used material from the doctrines under consideration such as revelation theological ethics Christology to talk about theology and philosophy Barth is shown to have been concerned not only with the integrity and independence of theological discourse but also with the idea that theology should not lose its necessary and salutary interactions with philosophy Finally Oakes also considers the reception of Barth's thought in some of the luminary figures of twentieth century philosophy and identifies the three main impressions philosophers have had of Barth's life and work

Sacrifice Imagined Douglas Hedley, 2011-09-08 Sacrifice Imagined is an original exploration of the idea of sacrifice by one of the world's preeminent philosophers of religion Despisers of religion have poured scorn upon the idea of sacrifice as an index of the irrational and wicked in religious practice Nor does its secularised form seem much more appealing One need only think of the appalling cult of sacrifice in numerous totalitarian regimes of the twentieth century Yet sacrifice remains a part of our cultural and intellectual imaginary Hedley proposes good reasons to think that issues of global conflict and the ecological crisis highlight the continuing relevance of the topic of sacrifice for contemporary culture The subject of sacrifice has been decisively influenced by two books Girard's *The Violence and the Sacred* and Burkert's *Homo Necans* Both of these are theories of sacrifice as violence Hedley's book challenges both of these highly influential theories and presents a theory of sacrifice as renunciation of the will His guiding influences in this are the much misunderstood Joseph de Maistre and the Cambridge Platonists

Inerrancy and the Spiritual Formation of Younger Evangelicals Carlos R. Bovell, 2007-03-01 In *Inerrancy and the Spiritual Formation of Younger Evangelicals* readers are urged to pastorally consider their own spiritual responsibilities toward students by taking more seriously six representative critical discoveries that students tend to make during the course of their higher education By doing this it is hoped that leaders and teachers might become more sensitive to the reality that younger evangelicals are not generally already convinced of the Bible's inerrancy and may even be secretly and frantically searching for existentially workable bibliological alternatives It behooves evangelical leaders as responsible shepherds of God's people to give their students the social and spiritual room they need to breathe by offering them

acceptably orthodox alternatives for understanding the inspiration and authority of the Bible

Becoming Divine Grace Jantzen, 1999 The book's contribution to feminist philosophy of religion is substantial and original It brings the continental and Anglo American traditions into substantive and productive conversation with each other Ellen Armour To what extent has the emergence of the study of religion in Western culture been gendered In this exciting book Grace Jantzen proposes a new philosophy of religion from a feminist perspective Hers is a vital and significant contribution which will be essential reading in the study of religion

Transcending Fictionalism Jessica Eastwood,2024-05-16 Exploring alternative conceptions of the divine Jessica Eastwood considers the ways of believing in God that are authentic and sincere moving beyond traditional metaphysical structures that many find difficult to accept In this study she examines a unique branch of religious non realism known as religious fictionalism making the case for its ability to resonate on an intellectual and emotional level Considering the extent to which fictionalism allows us to make sense of the role of religion in our spiritual lives she presents its limitations on adhering to what might be an attractive contemporary model for philosophy of religion called the humane turn Articulating an alternative conception of God that we can relate to in an intellectual emotional and spiritual way Eastwood sheds light on a minimalist form of religious realism which preserves the reality of God without committing the theist to a host of additional religious beliefs

Grains of Wheat Eleonore Stump,2025-02-20 There is a kind of knowledge that is non propositional one variety of it can be acquired in second person experience of another person but it can also be transmitted through narratives This narratively mediated kind of knowledge can be significant for philosophical and theological reflection Biblical narratives have prompted detailed reflection for so many centuries because they offer profound insights into the nature of the human condition and human flourishing This book brings together detailed examinations of narratives in the Hebrew Bible and the New Testament to yield one large emergent story which has something to teach that can be missed when the stories are taken in isolation from one another These are the stories of Job Samson Abraham Mary of Bethany the temptations of Christ the passion of Christ and the story from the book of Ecclesiastes Taken together these narratives depict a possible world in which there is a good for suffering human beings that outweighs their suffering and that could not be gotten without the suffering not even in a world without the Fall On this emergent larger story human suffering is defeated and peace and joy in human life are possible
