Reason And Justice:

Reason, Justice and Dignity Peter Leuprecht, 2011-12-23 The term human rights is relatively recent It was first used in the late 18th century in the West However many of the basic ideas behind that concept had long been current in various other cultures and civilizations The book traces those ideas on a journey to some unexplored or insufficiently explored sources of what we now call human rights in three stages ancient China with Confucius and Mencius the golden age of Islam with Avicenna Averroes and Ibn Khaldun and 16th century Spain with Las Casas and de Vitoria The author's conclusion is that human rights and the fundamental concepts of reason justice and dignity which underlie them can be a powerful leavening source of universal human unity

Practical Reasoning in Human Affairs J. L. Golden, J. J. Pilotta, 2012-12-06 This anthology of original essays has been nearly two and one half years in the making and reflects the generous effort of many persons To begin with we thank the contributors to the volume who not only cooperated with regards to their own works but who also provided valuable advice concerning the over all volume One of the contributors was outstanding in his assistance and warrants special mention we thank Professor Michel Meyer for his encouragement counsel and dedication to see this project to completion We would also like to thank Professor Jaakko Hintikka for his encouragement and Mrs Kuipers of Reidel for her patience and understanding along the way A project such as this could never have been completed without the unique assistance of members of the Department of Communication Ohio State University Ms Kimberly Pasi and Mr Charles Mawhirtcr Also special thanks are due to our graduate research assistant Ms Susan Jasko for her proofreading and bibliographic work The pressures of developing a Festschrift are considerable and could not have been met without the cooperation and enthusiasm of Mrs Perelman especially in allowing us to publish Professor Perelman's address to Ohio State University as our introduction

Concepts of Justice David Daiches Raphael, 2001 In Concepts of Justice D D Raphael gives a philosophical survey of the development of the idea of justice While the framework is historical the aim is philosophical analysis and criticism Part I begins with Ancient Roots justice in the Bible in Aeschylus Oresteia in the philosophers Plato and Aristotle and among jurists and theologians in the Middle Ages Part II Modern Shoots deals with philosophers from Hobbes to Rawls and others of the modern age Some of the writings considered will be unfamiliar to many readers who will find that eminence as a political theorist is neither a necessary nor sufficient condition of significant thought about justice Part III Historical Fruits draws some conclusions from the whole survey pinning down the notion of fairness and asking why this notion embraces apparently disparate ideas notably merit and need The developing role of justice and the emergence of novel features during the last three centuries is also discussed Raphael does not assume that the theories of philosophers must reflect the thought and usage of people generally some do while others are idiosyncratic and a number of philosophers neglect the usage of the concept in the context of law While this book is not a comprehensive history it is comprehensive in its scope

Summaries of the Sermons and Discourses of the most eminent British Divines, including those of

Barrow, Beveridge ... Sherlock, Jeremy Taylor, etc. By ... T. S. H. Thomas Smart Hughes, 1834 **Justice** Mark LeBar, 2018-08-01 A blindfolded woman holding a balance and a sword personifies one of our most significant virtues We find Lady Justice in statues and paintings that adorn courts and other institutions of law symbolizing strength and impartiality Yet why do we valorize this virtue primarily as a quality of societies and secondly as one of individual character We can trace the virtue of justice to ancient Greece where virtue ethics began its long evolution There justice was seen as one of the most prominent virtues and arguably the most important of the social virtues With time political philosophy diverted focus to understanding justice as a property of societies and discussion of justice as a virtue of individuals diminished But justice as a virtue of individual character has along with the other virtues reasserted itself not only in philosophy but in social psychology and other empirical fields of study This volume aims to demonstrate the breadth of that thinking and research It comprises new essays solicited from philosophers and political theorists psychologists economists biologists and legal scholars Each contribution focuses on some aspect of what makes people just either by examining the science that explains the development of justice as a virtue by highlighting virtue cultivation within distinctive traditions of empirical or philosophical thought or by adopting a distinctive perspective on justice as an individual trait As the volume shows justice begins with the individual and flows outward to make just laws and just societies *Summaries of the Sermons and Discourses of Sherlock and Jeremy Taylor* Thomas Smart Hughes, Thomas Sherlock, Jeremy Taylor, 1837 **The Christian Messenger and Reformer**, 1845 Justice Fragmented George C. Pavlich, George Pavlich, 1996 Exploring real life experiences of community mediation practices in Canada the author develops some of Foucault's central ideas on governmentality

Towards Justice and Virtue Onora O'Neill, 1996-08-28 Towards Justice and Virtue challenges the rivalry between those who advocate only abstract universal principles of justice and those who commend only the particularities of virtuous lives Onora O'Neill traces this impasse to defects in underlying conceptions of reasoning about action She proposes and vindicates a modest account of ethical reasoning and a reasoned way of answering the question who counts then uses these to construct linked accounts of principles by which we can move towards just institutions and virtuous lives **The Science of Right in Leibniz's Moral and Political Philosophy** Christopher Johns, 2013-08-15 Studies of Gottfried Leibniz's moral and political philosophy typically focus on metaphysical perfection happiness or love In this new reading of Leibniz Christopher Johns shows that it is based on a science of right Based on the deontic concepts of jus right and obligation this science of right is established in Leibniz's early writings on jurisprudence and depended on throughout several of his major late writings Johns shows that the moral rightness of an action is grounded in the rights and obligations derived from the agent's capacity for freedom This new interpretation of Leibniz's moral philosophy compares Leibniz's positions with Grotius Pufendorf Hobbes Locke and Kant Providing a comprehensive examination of Leibniz's most important writings on natural right John's argues that Leibniz properly understood provides a compelling account of the grounds of morality and of political institutions an

account relevant to present philosophical debates The History of Civilization Guizot (M., François),1856 **Alternative Islamic Discourses and Religious Authority** Susanne Olsson,Carool Kersten,2016-03-23 Like anywhere else the present day Islamic world too is grappling with modernity and postmodernity secularisation and globalisation Muslims are raising questions about religious representations and authority This has given rise to the emergence of alternative Islamic discourses which challenge binary oppositions and dichotomies of orthodoxy and heterodoxy continuity and change state and civil society It also leads to a dispersal of authority a collapse of existing hierarchical structures and gender roles This book further argues that the centre of gravity of many of these alternative Islamic discourses is shifting from the Arabic speaking heartland towards the geographical peripheries of the Muslim world and expatriate Muslims in North America and Europe At the same time in view of recent seismic shifts in the political constellation of the Middle East the trends discussed in this book hold important clues for the possible direction of future developments in that volatile part of the Muslim world

Minnesota Reports Minnesota. Supreme Court,1901 Cases argued and determined in the Supreme Court of Minnesota *Justice and Administrative Law* William Alexander Robson,1928 Studies in History, Economics, and Public Law Robert Perry Shepherd,1903 Reason and Justice Richard Dien Winfield,1988-07-08 This is a finely argued detailed and comprehensive systematic theory of justice brilliantly extending Hegelian ethics much as Rawls s Theory of Justice rehabilitated and extended classical Liberalism Winfield argues that justice like reason must be self grounding and that to achieve this it must be self determined The theory of justice must therefore abandon its appeal to metaphysically given or transcendently constituted norms and instead determine the institutions of freedom In pursuit of this task Winfield offers insightful discussions of property relations morality the family capital and commodity relations economic and social justice and the state In contrast to Liberalism which sees the state as instrumental to non political ends Winfield defends the democratic state as the just realization of freedom Throughout it is argued that justice is defined interactively where one s freedom is determined by how one s interactions respect and foster the institutional freedom of others Although the author s arguments proceed systematically at each stage he deals adroitly with the relevant major thinkers in the Western tradition not only with Hegel but with the ancients the classical liberals Marx and contemporaries such as Rawls *Ethics*

Aristotle,2019-09-25 Reproduction of the original *Ethics* by Aristotle **Intellectual Foundations of the Nicaraguan Revolution** Donald C. Hodges,2014-02-04 In this critical study of the thought of Augusto Cesar Sandino and his followers Donald C Hodges has discovered a coherent ideological thread and political program which he succeeds in tracing to Mexican and Spanish sources Sandino s strong religious inclination in combination with his anarchosyndicalist political ideology established him as a religious seer and moral reformer as well as a political thinker and is the prototype of the curious blend of Marxism and Christianity of the late twentieth century Nicaraguan government the Frente Sandinista de Liberaci n Nacional *Casanova and Enlightenment* David John Thompson,2024-12-30 Giacomo Casanova 1725 1798 was

born the son of a moderately poor acting family at a time when the stage carried enormous social stigma Yet in his own lifetime he achieved celebrity across Europe rubbing shoulders with numerous of the eighteenth century's greatest men and women from Frederick the Great to Catherine the Great from Voltaire to Albrecht von Haller from Pope Benedict XIV to Pope Clement XIII It was a fame that had little to do with his romantic exploits This was to come later following upon the posthumous publication of his magnificent History of My Life An adventurer and a man of learning his was an extraordinary career whose story was intertwined with the story of eighteenth century Europe Casanova's Life and Times the first book of this two volume project concentrates on what it was like to live in the eighteenth century This second book Casanova Enlightenment now turns to Casanova's intellectual development within the context of the Enlightenment proposing a re-evaluation of his status as a philosopher In Search of Gender Justice Jessica Johnson, 2018-11 Focusing on Malawi Johnson proposes a shift in emphasis to gender justice as an alternative to human and women's rights
