E. Sjrup, Hilda Rømer Christensen, 2009 Taking up the challenge of Saba Mahmood to feminist studies in religion that there is a liberalist understanding of agency and a tendency to mix the feminist political project with the analytical the authors of this anthology discuss the relations between pieties and politics pieties and methodologies virtuous masculinities and symbolic gender representations Several articles discuss highly controversial questions Muslim piety religion in the European Union between the Vatican and the Muslim populations the religiously motivated abstinence policies of the US Furthermore there is an interesting section about religious masculinities in a historical and contemporary perspective      **Divine Flesh, Embodied Word** Anne-Claire Mulder, 2006 What has Luce Irigaray's statement that women need a God to do with her thoughts on the relation between body and mind or the sensible and the intelligible Using the theological notion incarnation as a hermeneutical key Anne Claire Mulder brings together and illuminates the interrelations between these different themes in Luce Irigaray's work Seesawing between Luce Irigaray's critique of philosophical discourse and her constructive philosophy Mulder elucidates Irigaray's thoughts on the relations between becoming woman and becoming divine She shows that Luce Irigaray's restaging of the relation between the sensible and the intelligible between flesh and Word is key to her reinterpretation of the relation between woman and God In and through her interpretation of Luce Irigaray's thoughts on the flesh she argues that the relation between flesh and Word must be seen as a dialectical one instead of as a dualistic relation This means that incarnation is no longer seen as a one way process of Word becoming flesh but as a continuing process of flesh becoming word and word becoming flesh For all images and thoughts including those of God are produced by the flesh divine in its creativity inexhaustibility in response to the touch of the other And these images thoughts words in turn become embodied by touching and moving the flesh of the subject      *The Encyclopedia of Modern Witchcraft and Neo-Paganism* Shelley Rabinovitch, James Lewis, 2004 A comprehensive guide to the world of magick this book includes definitions straightforward thorough explanations biographies of all of the important figures in Wiccan and Pagan cultures and descriptions of the various traditions of Wicca as well as offering a detailed history of the pagan tradition With essays from authorities such as Lois Bourne and Marian Green on topics ranging from Jungian Psychology and Neo Paganism to Buffy the

**Mary Magdalene from the New Testament to the New Age and Beyond** Edmondo F. Lupieri, 2019-10-14 An international team of twenty scholars under Edmondo F. Lupieri's direction produced *Mary Magdalene from the New Testament to the New Age and Beyond*. While the historical figure of the Magdalene may be lost forever, the construction of her literary images and their transformations and adaptations over the centuries are a lively testimony to human creativity and faith. Different pictures of Mary travelled through time and space from history to legend and mythology, crossed religious boundaries going beyond the various Christianities to become a sign of contradiction for many. This book describes a special case of biblical reception history: that of the New Testament figure of a woman whose presence at the side of Jesus has been disturbing for some but proves to be inspiring for others.

This unique encyclopedia of over thousands of figures of feminine divinity describes the myths and attributes of goddesses and female spiritual powers from around the world. The two-volume set is organized by culture and religion, exploring the role of women in each culture's religious life and introducing readers to the background of each pantheon as well as the individual figures who peopled it. Alternative names for important divinities are offered, as are lists of minor goddesses and their attributes. Interest in women's spirituality has grown significantly over the last 30 years, both among those who remain in traditional religions and those who explore spirituality outside those confines. This work speaks to them all.

Marini explores the full range of American sacred music and demonstrates how an understanding of the meanings and functions of this musical expression can contribute to a greater understanding of religious culture. Marini examines the role of sacred song across the United States, from the musical traditions of Native Americans and the Hispanic peoples of the Southwest to the Sacred Harp singers of the rural South and the Jewish music revival to the music of the Mormon, Catholic, and Black churches.
