Revising Fiction, Fact, and Faith Nathaniel Goldberg, Chris Gavalier, 2020-07-01 This book addresses how our revisionary practices account for relations between texts and how they are read It offers an overarching philosophy of revision concerning works of fiction fact and faith revealing unexpected insights about the philosophy of language the metaphysics of fact and fiction and the history and philosophy of science and religion Using the novels of J R R Tolkien as exemplars the authors introduce a fundamental distinction between the purely physical and the linguistic aspects of texts They then demonstrate how two competing theories of reference descriptivism and referentialism are instead constitutive of a single semantic account needed to explain all kinds of revision The authors also propose their own metaphysical foundations of fiction and fact The next part of the book brings the authors philosophy of revision into dialogue with Thomas Kuhn s famous analysis of factual and specifically scientific change It also discusses a complex episode in the history of paleontology demonstrating how scientific and popular texts can diverge over time Finally the authors expand their philosophy of revision to religious texts arguing that rather than being distinct such texts are always

read as other kinds that faith tends to be more important as evidence for religious texts than for others and that the latter explains why religious communities tend to have remarkable historical longevity

Revising Fiction Fact and Faith offers a unique and comprehensive account of the philosophy of revision It will be of interest to a wide range of scholars and advanced students working in philosophy of language metaphysics philosophy of literature literary theory and criticism and history and philosophy of science and religion

Connell, 2020-08-25 Contributions by Daniel J Connell Esther De Dauw Craig Haslop Drew Murphy Richard Reynolds Janne Salminen Karen Sugrue and James C Taylor The superhero permeates popular culture from comic books to film and television to internet memes merchandise and street art *Toxic Masculinity Mapping the Monstrous in Our Heroes* asks what kind of men these heroes are and if they are worthy of the unbalanced amount of attention Contributors to the volume investigate how the super hero in popular culture conveys messages about heroism and masculinity considering the social implications of this narrative within a cultural re production of dominant hegemonic values and the possibility of subaltern ideas norms and values to be imagined within that re production Divided into three sections the volume takes an interdisciplinary approach positioning the impact of hypermasculinity on toxic masculinity and the vilification of other identities through such mediums as film TV and print comic book literature The first part *Understanding Super Men* analyzes hegemonic masculinity and the spectrum of hypermasculinity through comics television and film while the second part *The Monstrous Other* focuses on queer identity and femininity in these same mediums The final section *Strategies of Resistance* offers criticism and solutions to the existing lack of diversity through targeted studies on the performance of gender Ultimately the volume identifies the ways in which superhero narratives have promulgated and glorified toxic masculinity and offers alternative strategies to consider how characters can resist the hegemonic model and productively demonstrate new masculinities **Storytelling Across Worlds** Tom Dowd, 2015-01-30 Don't restrict your creative property to one media channel Make the essential leap to transmedia From film to television to games and beyond *Storytelling Across Worlds* gives you the tools to weave a narrative universe across multiple platforms and meet the insatiable demand of today's audience for its favorite creative property This the first primer in the field for both producers and writers teaches you how to Employ film television games novels comics and the web to build rich and immersive transmedia narratives Create writing and production bibles for transmedia property Monetize your stories across separate media channels Manage transmedia brands marketing and rights Work effectively with writers and producers in different areas of production Engage audiences with transmedia storytelling Up to date examples of current transmedia and cross media properties accompany each chapter and highlight this hot but sure to be enduring topic in modern media **Urban Slums and Circular Economy Synergies in the Global South** Seth Asare Okyere, Matthew Abunyewah, Michael Odei Erdiaw-Kwasie, Festival Godwin Boateng, 2024-04-15 This book takes a theoretical and empirical distance from urban slums low income settlements as a threat to environmental sustainability and recast them as places where environmentally rehabilitative and circular practices occur drawing on the theoretical lens of the circular economy CE CE is defined as regenerative system that minimizes waste emission and energy leakage by slowing closing and narrowing material and energy loops In principle CE departs from the traditional linear model of take make use dispose As conceived in urban contexts circular cities offer possibilities to regenerate natural systems

design out waste and keep products in use While the CE key principles of reduce repair and reuse are essential to the sustainable and inclusive interventions in urban slums there is lack of case studies exploring the role of place and agency especially the slum living CE nexus in global south contexts In inequitable urban transitions a nuanced understanding of the synergies between urban slums and the circular economy is not only theoretically relevant for reconceptualizing the slum in urban sustainability discourses but also exert policy and practice ramifications to decidedly figure out how the urban slum phenomenon can foster the sustainable and inclusive development of marginal areas through contextual and people centered initiatives
