Stigma Cities Jonathan Foster, 2018-09-27 Growing up in Birmingham Alabama a city that he loved Jonathan Foster was forced to come to grips with its reputation for racial violence In so doing he began to question how other cities dealt with similar kinds of stigmas that resulted from behavior and events that fell outside accepted norms He wanted to know how such stigmas changed over time and how they affected a city's reputation and residents Those questions led to this examination of the role of stigma and history in three very different cities Birmingham San Francisco and Las Vegas In the era of civil rights Birmingham became known as Bombingham a place of constant reactionary and racist violence Las Vegas emerged as the nation's most recognizable Sin City and San Francisco's tolerance of homosexuality made it the perceived capital of Gay America Stigma Cities shows how cultural and political trends influenced perceptions of disrepute in these cities and how in turn their status as sites of vice and violence influenced development decisions from Birmingham's efforts to shed its reputation as racist to San Francisco's transformation of its stigma into a point of pride to Las Vegas's use of gambling to promote tourism and economic growth The first work to investigate the important effects of stigmatized identities on urban places Foster's innovative study suggests that reputation no less than physical and economic forces explains how cities develop and why An absorbing work of history and urban sociology the book illuminates the significance of perceptions in shaping metropolitan history *Yearbook of International Organizations*, 1984-12 **The Planetary**
