Rebuilding Buddhism The Theravada Movement In 20th Century Nepal:

Rebuilding Buddhism Sarah LeVine, David N. Gellner, 2007-09-30 Rebuilding Buddhism describes in evocative detail the experiences and achievements of Nepalis who have adopted Theravada Buddhism. This form of Buddhism was introduced into Nepal from Burma and Sri Lanka in the 1930s and its adherents have struggled for recognition and acceptance ever since. With its focus on the austere figure of the monk and the biography of the historical Buddha and more recently with its emphasis on individualizing meditation and on gender equality, Theravada Buddhism contrasts sharply with the highly ritualized Tantric Buddhism traditionally practiced in the Kathmandu Valley. Based on extensive fieldwork interviews and historical reconstruction, the book provides a rich portrait of the different ways of being a Nepali Buddhist over the past seventy years. At the same time, it explores the impact of the Theravada movement and what its gradual success has meant for Buddhism for society and for men and women in Nepal.

Buddhism in Indonesia Roberto Rizzo, 2024-04-16 Based on extensive original research, this book explores the history and current revival of Buddhism on the Indonesian island of Java. Beginning by tracing how Buddhism came to Java from India via Southeast Asia, it considers how Buddhism has survived and adapted as Islam and Christianity became dominant. It goes on to report on detailed anthropological research both in a remote highland community, Temanggung, and in Java's main cities, including Jakarta, showing how youth activism and close community cohesion have brought about revival. It includes an examination of the production of Buddhist wayside shrines. Throughout, it shows how Buddhism in Java has fused with local traditional practices, local circumstances, and transnational processes to form a unique Javanese Buddhism.

Meditation in Modern Buddhism Joanna Cook, 2010-08-05 In contemporary Thai Buddhism, the burgeoning popularity of vipassana meditation is dramatically impacting the lives of those most closely involved with its practice: monks and mae chee lay nuns living in monastic communities. For them, meditation becomes a central focus of life and a way to transform the self. This ethnographic account of a thriving Northern Thai monastery examines meditation in

detail and explores the subjective signification of monastic duties and ascetic practices Drawing on fieldwork done both as an analytical observer and as a full participant in the life of the monastery Joanna Cook analyzes the motivation and experience of renouncers and shows what effect meditative practices have on individuals and community organization The particular focus on the status of mae chee part lay part monastic provides a fresh insight into social relationships and gender hierarchy within the context of the monastery

Buddhism after Mao Ji Zhe, Gareth Fisher, André Laliberté, 2020-02-29 With well over 100 million adherents Buddhism emerged from near annihilation during the Cultural Revolution to become the largest religion in China today Despite this Buddhism's rise has received relatively little scholarly

The Barua Buddhists Aparna Chatterjee, 2022-11-28 Where do the Baruas stand in Buddhist religious universe Could they be categorized as Bengali Buddhists Such intriguing questions are addressed headlong here and answers are ferreted out of the troves of history A large swathe of these frankly devout people is now found settled in and around Siliguri town a gateway to the North Eastern hinterland But their antecedents are immensely spectacular yet problematic As settlers how far their religious moorings carry them through the alienated environs of a majoritarian Hindu society How proficient they are in border maintenance and syncretism This ethnographic study of Bengali Barua Buddhists gives the reader a critical insight into everyday sociological practices of these struggling survivors of an ancient religion

Buddhist Nuns and Gendered Practice Nirmala S. Salgado, 2013-11 Based on extensive research in Sri Lanka and interviews with Theravada and Tibetan nuns from around the world Salgado's groundbreaking study urges a rethinking of female renunciation How are

scholarly accounts complicit in reinscribing imperialist stories about the subjectivity of Buddhist women How do key Buddhist concepts such as dukkha samsara and sila ground female renunciant practice Salgado s provocative analysis questions the secular notion of the higher ordination of nuns as a political movement for freedom against patriarchal norms Arguing that the lives of nuns defy translation into a politics of global sisterhood equal before law she calls for more nuanced readings of nuns everyday renunciant practices *The Oxford Handbook of Caste* ,2023-10-31 Beginning with the 1990s the subject of caste has seen a profound increase in interest among scholars What was until then approached as a fossilized tradition of the ritual obsessed Hindus refusing to see the progressive spirits of the emerging world and studied as a branch of anthropology suddenly began to be seen as a complex reality deeply embedded in a range of institutions and social practices attracting scholars from a wide range of disciplines sociology political science history literature and even economics Underlying this opening of the subject of caste were many factors epistemic empirical and political Caste is no longer approached through the classical binaries of traditional and modern the East and the West or the closed and open systems of stratification With the growing consolidation of caste based identities among those ranked lower down in the hierarchy since the 1990s raising questions of citizenship and dignity the subject has acquired a new salience As the emerging research shows the realities of caste on the ground have always been diverse across regions often contested and ever changing This Handbook presents a wide range of essays written by authors representing diverse academic disciplines and perspectives bringing together the emerging trends in the research imaginations and lived realities of caste **Far Out** Mark Liechty,2017-02-21 Westerners have long imagined the Himalayas as the world s last untouched place and a repository of redemptive power and wisdom Beatniks hippie seekers spiritual tourists mountain climbers diverse groups of people have traveled there over the years searching for their own personal Shangri La In *Far Out* Mark Liechty traces the Western fantasies that captured the imagination of tourists in the decades after World War II asking how the idea of Nepal shaped the everyday cross cultural interactions that it made possible Emerging from centuries of political isolation but eager to engage the world Nepalis struggled to make sense of the hordes of exotic enthusiastic foreigners They quickly embraced the phenomenon however and harnessed it to their own ends by building tourists fantasies into their national image and crafting Nepal as a premier tourist destination Liechty describes three distinct phases the postwar era when the country provided a Raj like throwback experience for rich Americans Nepal s emergence as an exotic outpost of hippie counterculture in the 1960s and its rebranding into a hip adventure destination which began in the 1970s and continues today He shows how Western projections of Nepal as an isolated place inspired creative enterprises and paradoxically allowed locals to participate in the global economy Based on twenty five years of research *Far Out* blends ethnographic analysis a lifelong passion for Nepal and a touch of humor to produce the first comprehensive history of what tourists looked for and found on the road to Kathmandu **Buddhists** Todd Lewis,2014-06-23 *Buddhists* Understanding Buddhism through the Lives of Practitioners

provides a series of case studies of Asian and modern Western Buddhists spanning history gender and class whose lives are representative of the ways in which Buddhists throughout time have embodied the tradition Portrays the foundational principles of Buddhist belief through the lives of believers illustrating how the religion is put into practice in everyday life Takes as its foundation the inherent diversity within Buddhist society rather than focusing on the spiritual and philosophical elite within Buddhism Reveals how individuals have negotiated the choices tensions and rewards of living in a Buddhist society Features carefully chosen case studies which cover a range of Asian and modern Western Buddhists Explores a broad range of possible Buddhist orientations in contemporary and historical contexts **From Comrades to Bodhisattvas**

Gareth Fisher, 2014-08-31 From Comrades to Bodhisattvas is the first book length study of Han Chinese Buddhism in post Mao China Using an ethnographic approach supported by over a decade of field research it provides an intimate portrait of lay Buddhist practitioners in Beijing who have recently embraced a religion that they were once socialized to see as harmful superstition The book focuses on the lively discourses and debates that take place among these new practitioners in an unused courtyard of a Beijing temple In this non monastic space which shrinks each year as the temple authorities expand their commercial activities laypersons gather to distribute and exchange Buddhist themed media listen to the fiery sermons of charismatic preachers and seek solutions to personal moral crises Applying recent theories in the anthropology of morality and ethics Gareth Fisher argues that the practitioners are attracted to the courtyard as a place where they can find ethical resources to re make both themselves and others in a rapidly changing nation that they believe lacks a coherent moral direction Spurred on by the lessons of the preachers and the stories in the media they share these courtyard practitioners inventively combine moral elements from China s recent Maoist past with Buddhist teachings on the workings of karma and the importance of universal compassion Their aim is to articulate a moral antidote to what they see as blind obsession with consumption and wealth accumulation among twenty first century Chinese Often socially marginalized and sidelined from meaningful roles in China s new economy these former communist comrades look to their new moral roles along a bodhisattva path to rebuild their self worth Each chapter focuses on a central trope in the courtyard practitioners projects to form new moral identities The Chinese government s restrictions on the spread of religious teachings in urban areas curtail these practitioners ability to insert their moral visions into an emerging public sphere Nevertheless they succeed at least partially Fisher argues in creating their own discursive space characterized by a morality of concern for fellow humans and animals and a recognition of the organizational abilities and pedagogical talents of its members that are unacknowledged in society at large Moreover as the later chapters of the book discuss by writing copying and distributing Buddhist themed materials the practitioners participate in creating a religious network of fellow Buddhists across the country thereby forming a counter cultural community within contemporary urban China Highly readable and full of engaging descriptions of the real lives of practicing lay Buddhists in contemporary China From Comrades to Bodhisattvas will interest specialists in Chinese
