Buoye,2006-11-02 In this book Thomas Buoye examines the impact of large scale economic change on social conflict in eighteenth century China He draws upon a large body of actual documented homicide cases originating in property disputes to recreate the social tensions of rural China during the Qianlong reign 1736 1795 The development of property rights a process that had begun in the Ming dynasty was accompanied by other changes that fostered disruption and conflict

including an explosion in the population growth and the increasing strain on land and resources and increasing commercialization in agriculture Buoye challenges the markets and moral economy theories of economic behaviour Applying the theories of Douglass North for the first time to this subject he uses an institutional framework to explain seemingly irrational economic choices Buoye examines demographic and technological factors ideology and political and economic institutions in rural China to understand the link between economic and social change

Civil War in China Suzanne Pepper, 1999 Many books have tried to analyze the reasons for the Chinese communist success in China s 1945_1949 civil war but Suzanne Pepper s seminal work was the first and remains the only comprehensive analysis of how the ruling Nationalists lost that war_ not just militarily but by alienating the civilian population through corruption and incompetence Now available in a new edition this authoritative investigation of Kuomintang failure and communist success explores the new research and archival resources available for assessing this pivotal period in contemporary Chinese history Even more relevant today given the contemporary debates in Hong Kong and Taiwan over the terms of reunification with a communist led national government in Beijing this book is essential reading for anyone seeking a nuanced understanding of twentieth century Chinese politics

Sowing the Seeds of Change Paula Harrell, 1992 In the critical decade between the Sino Japanese and Russo Japanese wars perhaps as many as 10 000 Chinese students converged on Tokyo in what was the first large study abroad movement anywhere in the world Following China s defeat by Japan in 1895 sending young Chinese to Japan for schooling seemed wise policy to leaders in both countries To reform minded pragmatists at the helm of Ching government study in Japan meant access to modern ideas and technology that would strengthen the state and their own power To Japan s leaders training thousands of young Chinese fit their objective of creating a strong China under Japanese tutelage together the two countries could form an Asian bulwark against the encroachments of the West But this blueprint for study abroad failed to consider what the students own goals might be for a modernizing China For the Chinese students

exposure to an economically stronger intellectually more open Japan inspired visions of a new China free of Ching mismanagement more broadly representative politically and capable of holding back imperialism in any form Western or Japanese Increasingly alienated from the Ching state Japan educated activists boldly proclaimed their anti authoritarian views and were a key force in the rising tide of dissidence propelling China to revolution in 1911 Among the topics the author considers are the emergence of official and popular support for study in Japan the socio economic background of the students their psychological interaction with the Japanese case studies of student protest movements and the nature of students intellectual and political concerns In developing a new political outlook the students grappled with many of the issues confronting China nearly a century later how far to open the door to Western influence how to relate to an economically strong Japan how much political reform should accompany technological and economic change and above all how to become modern and remain distinctively Chinese
