Harold Macmillan Harold Macmillan, 1971 Empires of the Mind Robert Gildea, 2019-02-28 The empires of the future would be the empires of the mind declared Churchill in 1943 envisaging universal empires living in peaceful harmony Robert Gildea exposes instead the brutal realities of decolonisation and neo colonialism which have shaped the postwar world Even after the rush of French and British decolonisation in the 1960s the strings of economic and military power too often remained in the hands of the former colonial powers The more empire appears to have declined and fallen the more a fantasy of empire has been conjured up as a model for projecting power onto the world stage and legitimised colonialist intervention in Afghanistan Iraq and Syria This aggression along with the imposition of colonial hierarchies in metropolitan society has excluded alienated and even radicalised immigrant populations Meanwhile nostalgia for empire has bedevilled relations with Europe and played a large part in explaining Brexit The EOKA Cause Andrew R. Novo, 2020-11-12 This book explores the origins conduct and failure of Greek Cypriot nationalists to achieve the unification of Cyprus with Greece Andrew Novo addresses the anti colonial struggle in the context of the competition for the nationalist narrative in Cyprus between the Left and Right the duelling Greek Cypriot and Turkish Cypriot nationalisms in Cyprus the role of Turkey and Greece in the conflict on the island and the concerns of the British Empire during its retrenchment following the Second World War More than a narrative history of the period an analysis of British policy or a description of counter insurgency operations this book lays out an examination of the underpinnings of the enosis cause and its manifestation in action It argues that the strategic myopia of the enosis movement shackled the cause defined its conduct and was the primary reason for its failure Divided and occupied Cyprus and the world deal with its unresolved legacy to this day **Harold Macmillan and the Berlin Wall**

Crisis, 1958-62 J. Gearson, 1998-01-12 Drawing on newly released government papers John Gearson assesses the development of Harold Macmillan's foreign policy during the Berlin Wall Crisis Tracing the bitter alliance disputes of the crisis Dr Gearson shows how Macmillan's attempts to chart an independent course crucially undermined his standing with his European partners and revealed his confused approach to European security Berlin is placed at the centre of consideration of British foreign policy making this book an important contribution to the historiography of the period The Imperialism of French Decolonisation Ryo Ikeda, 2016-01-12 This book examines French motivations behind the decolonisation of Tunisia and Morocco and the intra Western Alliance relationships It argues that changing French policy towards decolonisation brought about the unexpectedly quick process of independence of dependencies in the post WWII era

The Official History of the UK Strategic Nuclear Deterrent Matthew Jones, 2017-05-12 Volume I of The Official History of the UK Strategic Nuclear Deterrent provides an authoritative and in depth examination of the British Government's strategy towards nuclear deterrent from 1945 to 1964 This volume written with full access to the UK documentary record examines the strategic nuclear policy of British governments after 1945 as they tried to build and then maintain an independent nationally controlled strategic capability while also attempting to forge a close nuclear relationship with the United States This book will be of much interest to students of British politics nuclear proliferation and international relations

Eisenhower's New-Look National Security Policy, 1953-61 S. Dockrill, 1996-05-21 The New Look sought to formulate a more selective and flexible response to Communist challenges The New Look was not simply a bigger bang for a buck nor merely a device for achieving a balanced budget nor did it amount solely to a strategy of massive retaliation as is commonly assumed Dr Dockrill's incisive revisionist analysis of the subject throws new light on US ambitious global strategy during the Eisenhower years

The Middle East Between the Great Powers T. Petersen, 2000-05-26 Anglo American rivalry in Egypt Iran and the Persian Gulf in the period 1952 to 1957 represented the transfer of power in the Middle East from Great Britain to the United States As Britain's influence in Egypt and Iran declined its determination to hold on to the Persian Gulf increased at one point threatening to kill any Americans found in the hotly contested Buraimi oasis The episode is little examined by historians but played a large role in the ensuing Suez crisis

Cooperation among Democracies Thomas Risse-Kappen, 2020-12-08 In exploring the special

nature of alliances among democracies Thomas Risse Kappen argues that the West European and Canadian allies exerted greater influence on American foreign policy during the Cold War than most analysts assume In so doing he challenges traditional alliance theories that emphasize strategic interactions and power based bargaining processes For a better understanding of the transatlantic relationship the author proposes that we instead turn to liberal theories of international affairs Accordingly liberal democracies are likely to form the pacific federations described by Immanuel Kant or pluralistic security communities as Karl W Deutsch suggested Through detailed case studies Risse Kappen shows that the Europeans affected security decisions concerning vital U S interest during the 1950 1953 Korean war the 1958 1963 test ban negotiations and the 1962 Cuban missile crisis all during a span of time in which the U S enjoyed undisputed economic and military supremacy in the alliance He situates these case studies within a theoretical framework demonstrating that the European influence on decision making processes in Washington worked through three mechanisms norms prescribing timely consultations among the allies use of domestic pressures for leverage in transatlantic interactions and transnational and transgovernmental coalitions among societal and bureaucratic actors The book s findings have important repercussions for the post Cold War era in that they suggest the transatlantic security community is likely to survive the end of the Soviet threat

Anglo-American Relations in the Twentieth Century Ritchie Owendale, 1998-10-30 A critique of Anglo American relations in the twentieth century in the light of the most recent research It challenges many existing interpretations and argues that the basis of the Anglo American special relationship was laid by Roosevelt and Chamberlain that Roosevelt preferred Stalin to Churchill and that the origins of the Cold War should be seen as a British education of the Americans to the Soviet threat Suez is reassessed following the recent release of material in the Eisenhower Library There is a consideration of the relationship of mutual interdependence and why Wilson and Heath chose to move instead towards the European connection as well as Mrs Thatcher s reasons for preferring the Atlantic alliance *British Railways 1948-73* T. R. Gourvish, N. Blake, 1986 Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board s extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial performance investment and commercial policies of the British Transport Commission 1948 2 Railway Executive 1948 53 and British Railways Board 1963 73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948 73 This business history thus represents a major contribution not only to the debate about the role of the railways in a modern economy but also to that concerning the nationalised industries which have proved to be one of the most enduring problems of the British economy since the war *Having it So Good* Peter Hennessy, 2007-05-03 Winner of the Orwell Prize for Political Writing Peter Hennessy s *Having it So Good* Britain in the Fifties captures Britain in an extraordinary decade emerging from the

shadow of war into growing affluence The 1950s was the decade in which Roger Bannister ran the four minute mile Bill Haley released Rock Around the Clock rationing ended and Britain embarked on the traumatic disastrous Suez War In this highly enjoyable original book Peter Hennessy takes his readers into front rooms classrooms cabinet rooms and the new high street coffee bars of Britain to recapture as no previous history has the feel the flavour and the politics of this extraordinary time of change Utterly engaging a treat It breathes exhilaration Libby Purves The Times If the Gods gossip this is how it would sound Philip Ziegler Spectator Books of the Year A particular treat fine wise and meticulously researched Andrew Marr Stands clear of the field as our best narrative history of this decisive decade Peter Clarke Sunday Times A compelling narrative Hennessy s love of the flesh and blood of politics breathes on every page Tim Gardam Observer The late Ben Pimlott once described Hennessy as something of a national institution You can forget the first two of those five words Guardian

Nehru B. N. Pandey,1976-06-18 India s first prime minister s rise to power and his attempts to give life to his visions of a new world order

Makarios Demetris Assos,2018-08-30 When Mikhail Makarios became head of the Church of Cyprus in 1950 Greek Cypriots presumed that he would lead the struggle for union with Greece partly because the Church was perceived to be the custodian of this nationalist tradition And though Archbishop Makarios III pursued this objective energetically by 1959 he had signed the agreements that established an independent Cyprus republic ending the dream of enosis and setting the scene for today s struggles to bring peace to the island In this first English language biography of one of the most important figures in Cypriot modern history Demetris Assos shows how Makarios oscillated between his personal nationalist romantic idealism and the management of hard political realities on the ground and argues a nuanced understanding of this ambivalence is crucial to contextualise and explain his actions Assos shows how by the 1950s the political authority of Makarios position became intertwined with his spiritual power He also unpicks the influence of the Orthodox Church on modern Cypriot history A new analysis of the Cyprus experience this is an essential addition to our understanding of the Cyprus problem and a new portrait of one of the great Cypriots

The Promise of Alliance Ian Q.R. Thomas,1997-08-28 The nature and function of the North Atlantic Treaty Organization NATO are uncertain now that the alliance has accomplished its primary objective of defending Western Europe from the perceived Soviet threat Despite uncertainty about NATO s role in the post Cold War world its political and military leaders agree that it

can continue to play a vital part in enhancing European security and maintaining international stability This superb analysis explores the evolving functions and future directions of this unique organization paying particular attention to the political cultures and goals of its member states The Promise of Alliance is important reading for students and scholars of international relations foreign affairs and political theory
