Picture Magazine ,1896 **Anaphora and Semantic Interpretation** Tanya Reinhart,2016-11-25 First published in 1983 this book examines anaphora a central issue in linguistic theory as it lies at the crossroads of several major problems On the one hand it is believed that the same conditions that govern the interpretation of anaphora also govern syntactic movement rules but on the other while anaphora is known to interact with various discourse and semantic considerations it also provides a clear instance of the dependency of the semantic interpretation of sentences upon semantic properties of natural language This book has two major goals the first is a comprehensive analysis of sentence level anaphora that addresses the questions posed above and the second is an examination of the broader issues of the relations between the structural properties of sentences and their semantic interpretation within the hypotheses of the autonomy of syntax and of interpretative semantics shown by Chomsky **Life Is Like Riding a Bicycle** René Guerra,2017-07-12 Ren has done an

The Dynamics of Focus Structure

Nomi Erteschik-Shir,1997 In this book Nomi Erteschik Shir develops a new theory of focus structure integrating insights from syntax semantics phonology and pragmatics She explores the role of focus structure in grammar examining the interface between focus structure and syntax the semantics of focus structure and the intonation associated with it Dr Shir defines a grammatical level of f structure focus structure which is an annotated s structure in which topic and focus constituents are marked F structure feeds both PF Phonological Form and semantics and is sensitive to lexical information Dr Shir argues that f structure and not LF Logical Form is the input to a semantic rule of predication One of the major results of Dr Shir s analysis is that wh movement turns out to be subject to the same constraint which accounts for anaphora and other subject object asymmetries
