Frank Schnelle,1997 *Ridley Scott's Blade Runner* Jan Schill,Brigid James,2012 *Blade Runner 2* K. W. Jeter,2000-10-10

In 1982 the brilliant science fiction movie Blade Runner was released and a phenomenon was born Set in the steel and microchip jungle of twenty first century Los Angeles this masterpiece re created our vision of the future telling the story of Rick Deckard a blade runner who tracks down and executes renegade androids Now for the millions of fans of the movie as well as those coming to the saga for the first time K W Jeter's stylish and sophisticated new novel reenters that seedy high

tech world and opens a new chapter of thrilling nonstop futuristic suspense This time Deckard himself becomes both hunter and hunted in a race to prove his own humanity by tracking down the most elusive and dangerous android of all *Blade Runner 2049 and Philosophy* Robin Bunce, Trip McCrossin, 2019-08-20 Blade Runner 2049 is a 2017 sequel to the 1982 movie Blade Runner about a world in which some human looking replicants have become dangerous so that other human looking replicants as well as humans have the job of hunting down the dangerous models and retiring destroying them Both films have been widely hailed as among the greatest science fiction movies of all time and Ridley Scott director of the original Blade Runner has announced that there will be a third Blade Runner movie Blade Runner 2049 and Philosophy is a collection of entertaining articles on both Blade Runner movies and on the spin off short films and Blade Runner novels by twenty philosophers representing diverse backgrounds and philosophical perspectives Among the issues addressed in the book What does Blade Runner 2049 tell us about the interactions of state power and corporate power Can machines ever become truly conscious or will they always lack some essential human qualities The most popular theory of personhood says that a person is defined by their memories so what happens when memories can be manufactured and inserted at will We already interact with non human decision makers via the Internet When embodied AI becomes reality how can we know what is human and what is simulation Does it matter Do AI endowed human looking replicants have civil and political rights or can they be destroyed whenever real humans decide they are inconvenient The blade runner Deckard Harrison Ford appears in both movies and is generally assumed to be human but some claim he may be a replicant What s the evidence on both sides Is Niander Wallace the mad scientist cum evil corporate CEO in Blade Runner 2049 himself a replicant What motivates him What are the impacts of decision making AI entities on the world of business Both Blade Runner and Blade Runner 2049 have been praised for their hauntingly beautiful depictions of a bleak future but the two futures are very different and the 2019 future imagined in the original Blade Runner is considerably different from the actual world of 2019 How have our expectations and visions of the future changed between the two movies The dream maker character Ana Stelline in Blade Runner 2049 has a small but pivotal role What are the implications of a person whose dedicated mission and task is to invent and install false memories What are the social and psychological implications of human AI sexual relations Blade Runner Scott Bukatman, 2017-10-26 Ridley Scott s dystopian classic Blade Runner an adaptation of Philip K Dick s novel Do Androids Dream of Electric Sheep combines noir with science fiction to create a groundbreaking cyberpunk vision of urban life in the twenty first century With replicants on the run the rain drenched Los Angeles which Blade Runner imagines is a city of oppression and enclosure but a city in which transgression and disorder can always erupt Graced by stunning sets lighting effects costumes and photography Blade Runner succeeds brilliantly in depicting a world at once uncannily familiar and startlingly new In his innovative and nuanced reading Scott Bukatman details the making of Blade Runner and its steadily improving fortunes following its release in 1982 He situates the film in terms of debates about postmodernism which have

informed much of the criticism devoted to it but argues that its tensions derive also from the quintessentially twentieth century modernist experience of the city as a space both imprisoning and liberating In his foreword to this special edition published to celebrate the 20th anniversary of the BFI Film Classics series Bukatman suggests that Blade Runner's visual complexity allows it to translate successfully to the world of high definition and on demand home cinema He looks back to the science fiction tradition of the early 1980s and on to the key changes in the final version of the film in 2007 which risk diminishing the sense of instability created in the original Blade Runner: The Inside Story Don Shay,2003-06-01 A reprint of the 1982 extended issue of Cinefex magazine devoted to the design and special effects of Ridley Scott's sci fi masterpiece
