Urofsky, Philip E. Urofsky, 2020-11-25 First Published in 1996 The key issue in all right to die matters is who decides Who will decide whether life support should be terminated Who will decide if a person is competent to make life and death decisions The law is quite clear that in cases of conscious competent adults the individual

is free to make all decisions relating to his or her care and future This volume is a collection of writings and case studies around the topics of personal choice AIDS and informed consent due process and the right to die **The Right to Die** Howard Ball,2017-01-26 This book provides a comprehensive and contemporary examination of the right to die issues facing society now that vast improvements in public health care and medicine have resulted in people not only living longer but taking much longer to die often in great pain and suffering In 1900 the average age at which people died in America was 47 years of age the primary causes of death were tuberculosis and other respiratory illnesses In the 21st century as a result of better health care and working conditions as well as advances in medical technology we live much longer as of 2016 about 80 years A much larger proportion of Americans now die from chronic diseases that generally appear at an advanced age such as heart disease cancer or chronic obstructive pulmonary disease COPD Should this fundamental change in human lifespan alter how society and government view right to die legislation What are the pros and cons of giving a mentally competent person who is terminally ill and in great pain the right to end his or her life The Right to Die A Reference Handbook provides a complete examination of right to die issues in the United States that dissects the complex arguments for and against a person's liberty to receive a physician's assistance to hasten death It covers the legal aspects and the politics of the right to die controversy analyzes the battles over the right to die in state and federal courts and supplies primary source documents that illustrate the political medical legal religious and ethical landscape of the right to die Additionally the book examines how members of our society typically die has changed in the past 150 years and how the practice of medicine has evolved over that time explains why the right to die is strongly opposed by many religious groups as well as members of the medical profession considers the slippery slope argument against doctor assisted suicide and identifies the reasons that the disabled the poor the elderly and infirm and some members of ethnic racial and religious minority groups typically fear physician assisted death **The Right to Die** Rebecca Stefoff,2009 Argues both sides of the debate on assisted suicide and euthanasia **The Right to Die** Anne Wallace Sharp,Robert Taylor,2009-04-03 Doctor assisted suicide is legal in Oregon Washington Colorado California Washington D C and Vermont As of January 2016 991 patients have died by taking legally backed drugs under supervision in Oregon according to CNN This timely edition examines issues surrounding the right to die The book takes a critical look at topics such as euthanasia assisted suicide the refusal of medical treatment and life sustaining treatment **The Right to Die** Margaret C. Jasper,2000 Publisher Description Dying Right Daniel Hillyard,John Dombrink,2002-06-01 Dying Right provides an overview of the Death With Dignity movement a history of how and why Oregon legalized physician assisted suicide and an analysis of the future of physician assisted suicide Engaging the question of how to balance a patient's sense about the right way to die a physician's role as a healer and the state's interest in preventing killing Dying Right captures the ethical legal moral and medical complexities involved in this ongoing debate Right to Die with Dignity Raphael Cohen-Almagor,2008-05-01 Few issues are more divisive than the right to die One

camp upholds death with dignity regarding the terminally ill as autonomous beings capable of forming their own judgment on the timing process of dying The other camp advocates sanctity of life regarding life as intrinsically valuable believes that it should be sustained for as long as possible Is there a right answer Here is a balanced approach viewing the dispute from public policy international perspectives Offers a compelling interdisciplinary study in med law religion ethics Delineates a distinction between active passive euthanasia discusses legal measures that have been invoked in the U S abroad Makes a plea for voluntary physician assisted suicide Illus The Good Euthanasia Guide Derek Humphry,2005 The Good Euthanasia Guide is a where to and why book which complements the how to of Final Exit It contains an annotated list of every right to die group in the world and a unique account of the assisted suicide laws in almost every country a filmography and a bibliography Dr Jack Kevorkian s life and work are reported in three chapters **Euthanasia and the "right to Die"** Renée C. Rebman,2002 An objective examination of both sides of the issue of euthanasia **The Right to Die** Alan Meisel,1995

The Right to Die? Mark Blocher,1999 The Right to Die challenges us to accept that there is no disgrace in human mortality that human dignity can be cared for and respected in the midst of life s worst experiences Mark suggests that Christians must become proactive in providing alternatives to assisted suicide and euthanasia while offering at least three promises to the terminally ill person to the best of our ability we will not allow you to die in pain we will not allow you to die alone you will not be a burden to anyone **Life, Death, and the Law** Maureen Harrison,Steve Gilbert,1997 Contains plain English versions of the original legal texts of nine right to die decisions reached in America s courts beginning with the landmark case of Karen Quinlan in 1976 which established the right to refuse or withdraw life sustaining treatment and continuing through the U S Supreme Court s 1997 determination on two right to physician assisted suicide cases The Right to Die Derek Humphry,Ann Wickett,1986 **Voluntary Euthanasia and the Common Law** Margaret Otlowski,1997 Margaret Otlowski investigates the complex and controversial issue of active voluntary euthanasia She critically examines the criminal law prohibition of medically administered active voluntary euthanasia in common law jurisdictions and carefully looks at the situation as handled in practice The evidence of patient demands for active euthanasia and the willingness of some doctors to respond to patients requests is explored and an argument for reform of the law is made with reference to the position in the Netherlands where active voluntary euthanasia is now openly practiced
