

Rights Of Animals

Bernard E. Rollin

Rights Of Animals:

Encyclopedia of Animal Rights and Animal Welfare Marc Bekoff, Carron A. Meaney, 2013-12-16 Human beings responsibility to and for their fellow animals has become an increasingly controversial subject This book provides a provocative overview of the many different perspectives on the issues of animal rights and animal welfare in an easy to use encyclopedic format Original contributions from over 125 well known philosophers biologists and psychologists in this field create a well balanced and multi disciplinary work Users will be able to examine critically the varied angles and arguments and gain a better understanding of the history and development of animal rights and animal protectionist movements around the world Outstanding Reference Source Best Reference Source **Animal Rights & Human Morality** Bernard E. Rollin, 2010-12 It s been more than two decades since the first edition of this landmark book garnered public accolades for its sensitive yet honest and forthright approach to the many disquieting questions surrounding the emotional debate over animal rights Is moral concern something owed by human beings only to human beings Drawing upon his philosophical expertise his extensive experience of working with animal issues all over the world and his knowledge of biological science Bernard E Rollin now widely recognized as the father of veterinary ethics develops a compelling analysis of animal rights as it is emerging in society The result is a sound basis for rational discussion and social policy development in this area of rapidly growing concern He believes that society must elevate the moral status of animals and protect their rights as determined by their natures His public speaking and published works have contributed to passage of major federal legislation designed to increase the well being of laboratory animals This new third edition is greatly expanded and includes a new chapter on animal agriculture plus additional discussions of animal law companion animal issues genetic engineering animal pain animal research and many other topics **The Case for Animal Rights** Tom Regan, 2004-09-17 THE argument for animal rights a classic since its appearance in 1983 from the moral philosophical point of view *Animal Rights* Paul Waldau, 2011 This resource offers a survey of the animal rights movement **Interests and Rights** Raymond Gillespie Frey, 1980 This book states the opposing case in present controversies about the nature and existence of moral rights and the moral status of animals and it reaches conclusions which run strongly against contemporary opinion **Animal Rights** Lisa Yount, 2007 Praise for the previous edition an excellent first stop resource for research on animal rights well organized clearly written and a great starting point for research Recommended Choice comprehensive invaluable for reports on a popular current topic VOYA a very complete research guide that will be most useful at the high school and college level American Reference Books Annual The treatment of animals has become a controversial issue over the years with many questioning an animal s fundamental rights For some the issue of animal rights is merely an attempt to improve conditions of animals used for clothing food and other products while others believe animals should be granted the same legal rights afforded to humans Animal Rights Revised Edition provides an overview of the history of the animal rights movement and reactions to it as well

as the issues of animal experimentation conditions on factory farms laboratory animals animals in entertainment hunting and the actions of those involved in the animal rights debate New content includes such documents as the Animal Enterprise Terrorism Act of 2006 and contemporary court cases such as Animal Legal Defense Fund v Glickman These documents provide both past and present perspectives on the issue and plot a course for future debate about animal rights A comprehensive and up to date overview essay capsule biographies a large annotated bibliography a chronology of significant events organization and agency listings and a glossary all combine to make this an ideal first stop reference to animal rights Coverage includes Whether medical testing performed on animals is ethical Whether animals should be banned from circuses and other forms of entertainment How threats against investors in companies that participate in animal drug testing should be handled Zoopolis Sue Donaldson, Will Kymlicka, 2011-11-24 To all of these animals we owe respect for their basic inviolable rights Animal Rights and Human Morality Bernard E. Rollin, 1981 Rollin offers a fully revised discussion of this white hot debate over animal rights Many of Rollin's concerns have taken center stage and his proposed legislation to protect animals in experimentation has become federal law Copyright Libri GmbH All rights reserved *The Animal Rights Movement in America* Lawrence Finsen, Susan Finsen, 1994 And the movement's challenge to rethink the uses of animals is not only directed at those individuals and institutions which exploit animals but at anyone who consumes meat purchases animal tested consumer products or wears fur or leather *Animal Rights* Kim Masters Evans, 2005-10 Contains facts tables charts and statistics that provide current and historical information about animal rights covering wildlife farm and research animals animals in sports service and entertainment animals pets and the history of human animal interaction *Empty Cages* Tom Regan, 2005-07-07 Described by Jeffrey Masson as the single best introduction to animal rights ever written this new book by Tom Regan will structure the animal rights debate for generations to come In a style at once simple and elegant Regan dispels the negative image of animal rights advocates perpetrated by the mass media unmasks the fraudulent rhetoric of humane treatment favored by animal exploiters and explains why existing laws function to legitimize institutional cruelty Written by the leading philosophical spokesperson for animal rights Tom Regan's shocking expos of animal abuse makes an essential and lasting contribution that will significantly impact the history of animal rights advocacy in America **Animal Rights** Tyler Stevenson, 2018-12-15 Animals have alternately been considered pests food workers test subjects and as is becoming increasingly common companions This begs the question What rights should animals have Through engaging text featuring annotated quotes from experts readers learn about the changing role of animals and the ensuing changing attitudes of people toward how animals should be treated Detailed charts engaging sidebars and relevant statistics provide an in depth education regarding the history and ramifications both legal and societal of animal rights Readers are also encouraged to think critically to form an opinion on the actions and tactics of different animal rights organizations *Animal Rights/human Rights* David Alan Nibert, 2002 This accessible and cutting edge work offers a new look at the history of western civilization

one that brings into focus the interrelated suffering of oppressed humans and other animals Nibert argues persuasively that throughout history the exploitation of other animals has gone hand in hand with the oppression of women people of color and other oppressed groups He maintains that the oppression both of humans and of other species of animals is inextricably tangled within the structure of social arrangements Nibert asserts that human use and mistreatment of other animals are not natural and do little to further the human condition Nibert's analysis emphasizes the economic and elite driven character of prejudice discrimination and institutionalized repression of humans and other animals His examination of the economic entanglements of the oppression of human and other animals is supplemented with an analysis of ideological forces and the use of state power in this sociological expose of the grotesque uses of the oppressed past and present Nibert suggests that the liberation of devalued groups of humans is unlikely in a world that uses other animals as fodder for the continual growth and expansion of transnational corporations and conversely that animal liberation cannot take place when humans continue to be exploited and oppressed

Rain Without Thunder Gary Francione, 2010-06-17 A powerful re examination of the animal rights movement and its shortcomings

Our Common Kin: Unlocking the Rights of Animals Pasquale De Marco, 2025-07-13 In this groundbreaking and thought provoking book we challenge the traditional view of animals as mere property arguing instead that they are sentient beings who deserve moral consideration and legal protection Drawing on the latest scientific evidence we make a compelling case for the moral and legal rights of animals exploring the implications of this new understanding for our own behavior our relationships with animals and the future of our planet With clarity and compassion we examine the scientific evidence for animal sentience and consciousness revealing the remarkable cognitive and emotional capacities of animals We explore the different arguments for animal rights from the utilitarian argument to the rights based argument and we address the challenges of granting legal rights to animals We also delve into the history of animal advocacy from the early pioneers of the animal rights movement to the modern day activists who are fighting for a more just and compassionate world for all animals We discuss the different strategies for promoting animal welfare from legislative advocacy to public education and we highlight the importance of individual action in creating lasting change This book is essential reading for anyone who cares about animals the environment and the future of our planet It is a call to action urging us to rethink our relationship with animals and to work together to create a more just and sustainable world for all If you like this book write a review

Introduction to Animal Rights Gary Francione, 2001 Two thirds of Americans polled by the Associated Press agree with the following statement An animal's right to live free of suffering should be just as important as a person's right to live free of suffering More than 50 percent of Americans believe that it is wrong to kill animals to make fur coats or to hunt them for sport But these same Americans eat hamburgers take their children to circuses and rodeos and use products developed with animal testing How do we justify our inconsistency In this easy to read introduction animal rights advocate Gary Francione looks at our conventional moral thinking about animals Using examples

analogies and thought experiments he reveals the dramatic inconsistency between what we say we believe about animals and how we actually treat them Introduction to Animal Rights Your Child or the Dog provides a guidebook to examining our social and personal ethical beliefs It takes us through concepts of property and equal consideration to arrive at the basic contention of animal rights that everyone human and non human has the right not to be treated as a means to an end Along the way it illuminates concepts and theories that all of us use but few of us understand the nature of rights and interests for example and the theories of Locke Descartes and Bentham Filled with fascinating information and cogent arguments this is a book that you may love or hate but that will not fail to inform enlighten and educate **Christianity and the Rights of Animals**

Andrew Linzey, 2016-03-03 Christian concern about how we treat animals has increased strikingly in recent years More and more Christians are deciding that our attitudes toward animals must change Here is a book that presents for the first time a comprehensive and well argued theological case for the rights of animals and offers a challenging critique of our existing insensitivity toward animal life Everyone who cares about the rights of animals particularly clergy and ministers who are constantly being asked for answers on the issue will welcome this new and important book Animal Rights, Human Wrongs Tom Regan, 2003 What gives an animal rights What makes product testing on animals wrong In Animal Rights Human Wrongs prominent activist and philosopher Tom Regan skillfully puts forth the argument for animal rights through the exploration of two questions central to moral theory What makes an act right What makes an act wrong Taking into consideration moral theories such as contractarianism utilitarianism and Kantian ethics Regan provides the theoretical framework that grounds a responsible pro animal rights perspective and ultimately explores how asking moral questions about other animals can lead to a better understanding of ourselves The necessity of making a transition from moral theory to moral practice becomes startlingly clear as Reagan examines the commonplace everyday choices that would be affected by believing in a moral theory that affirms the rights of animals For the many people who have ever wondered what difference does it make if animals have rights Animal Rights Humans Wrongs provides a provocative and intriguing answer For a discussion of animal rights tailored to a more general audience see Empty Cages Facing the Challenge of Animal Rights Rowman Littlefield 2003 **Animal Rights and Wrongs** Roger Scruton, 1998 A revised and improved edition of a book in continuing demand Do animals have rights If not do we have duties towards them If so what duties These are myriad other issues are discussed in this brilliantly argued book published in association with the leading think tank Demos Why are animal rights groups so keen to protect the rights of badgers and foxes but not of rats mice or even humans How can we bridge the growing gap between rural producers and urban consumers Why is raising animals for fur more heinous than raising them for their meat Are we as human beings driving other species either to extinction or to a state of dependency This paperback edition is fully updated with new chapters on the livestock crisis fishing and BSE and a layman's guide introduction to philosophical concepts the book presents a radical response to the defenders of animal rights and a

challenge to those who think that because they are kind to their pets they are therefore good news for animals **The Moral Rights of Animals** Mylan Engel Jr., Gary Lynn Comstock, 2016-03-16 Edited by Mylan Engel Jr and Gary Lynn Comstock this book employs different ethical lenses including classical deontology libertarianism commonsense morality virtue ethics utilitarianism and the capabilities approach to explore the philosophical basis for the strong animal rights view which holds that animals have moral rights equal in strength to the rights of humans while also addressing what are undoubtedly the most serious challenges to the strong animal rights stance including the challenges posed by rights nihilism the kind argument against animal rights the problem of predation and the comparative value of lives In addition contributors explore the practical import of animal rights both from a social policy standpoint and from the standpoint of personal ethical decisions concerning what to eat and whether to hunt animals Unlike other volumes on animal rights which focus primarily on the legal rights of animals and unlike other anthologies on animal ethics which tend to cover a wide variety of topics but only devote a few articles to each topic this volume focuses exclusively on the question of whether animals have moral rights and the practical import of such rights The Moral Rights of Animals will be an indispensable resource for scholars teachers and students in the fields of animal ethics applied ethics ethical theory and human animal studies as well as animal rights advocates and policy makers interested in improving the treatment of animals

This book delves into Rights Of Animals. Rights Of Animals is an essential topic that needs to be grasped by everyone, ranging from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Rights Of Animals, encompassing both the fundamentals and more intricate discussions.
