A wooden cross stands in the center of the frame, with a vibrant red cloth draped over its horizontal beam. The background is a dramatic sky at sunset or sunrise, with warm orange and yellow light rays emanating from behind the cross, creating a halo effect. The overall mood is solemn and spiritual.

## **Rights And Christian Ethics:**

*Rights and Christian Ethics* Kieran Cronin, 1992 Kieran Cronin helps philosophers and theologians to understand each other's perspectives on rights making this book a significant contribution to Christian ethics and moral philosophy *The Cambridge Companion to Christian Ethics* Robin Gill, 2001 Provides a comprehensive introduction to Christian ethics which is both authoritative and up to date *The Global Face of Public Faith* David Hollenbach, 2003-10-09 The Global Face of Public Faith addresses the hotly debated question of the role religion should play in politics in both the American and international contexts It engages the fears that public religion threatens American democracy and could lead to a global clash of civilizations and new wars of religion It analyzes how Christianity can attain common ground with other religious communities thus becoming a force for peace and human rights The separation of church from state need not mean the privatization of religion Religious engagement in public life can strengthen civic life by encouraging active citizen participation that promotes both justice and peace The question of religion and politics should thus become an argument about how faith becomes public not whether it does Religious communities Christianity in particular should be vigorous advocates of human rights democratic governance and economic development worldwide In so doing they will also become peacemakers David Hollenbach is a calm voice of reason in a chaotic world with an eye that sees beyond national horizons to where human needs and human rights converge He is convinced that religious traditions can find common ground through the use of rights and rights language The Global Face of Public Faith reinforces his commitment to confronting such issues as poverty and economic development globalism and interreligious dialogue He focuses here on faith and the Catholic tradition in politics the role of the church in American public life and the wider issues of global challenges and ethics in a search for a common set of moral standards and a international ethic through a commitment to universal human rights While not denying the difficulties of forging such a consensus he nonetheless sees the possibility for justice and reasons for hope And hope is something the world can always use *The Common Good and Christian Ethics* David Hollenbach, 2002-08 The Common Good and Christian Ethics rethinks the ancient tradition of the common good in a way that addresses contemporary social divisions both urban and global David Hollenbach draws on social analysis moral philosophy and theological ethics to chart new directions in both urban life and global society He argues that the division between the middle class and the poor in major cities and the challenges of globalisation require a new commitment to the common good and that both believers and secular people must move towards new forms of solidarity *Economic Compulsion and Christian Ethics* Albino Barrera, 2005-09-08 Markets can often be harsh in compelling people to make unpalatable economic choices any reasonable person would not take under normal conditions Thus workers laid off in mid career accept lower paid jobs that are beneath their professional experience for want of better alternatives Economic migrants leave their families and cross borders legally or illegally in search of a livelihood These are examples of economic compulsion These economic ripple effects have been

virtually ignored in ethical discourse because they are generally accepted to be the very mechanisms that generate the market's much touted allocative efficiency Albino Barrera argues that Christian thought on economic security offers an effective framework within which to address the consequences of economic compulsion *Christian Ethics Introduced* Hans O. Tiefel, 2024-03-11 Christian Ethics Introduced asks why humans count as ends in themselves The biblical answer was that humans have standing inherent worth as creatures in the image of God This traditional answer yielded to seventeenth and eighteenth century enlightenment secularism To these secularists human reason promised to be a surer and more peaceable foundation for a just culture than religion Human rationality the light of human reason would enlighten and improve the human condition Two world wars and more realistic trends in new social sciences created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice It seemed that both traditional religion and enlightened reason fell short of what had been hoped And the cause of failure may not lie in traditional religion or in human irrationality Rather the problem might lie in human conduct Specifically it may lie in the human inclination to favor self over others of the me outranking the we Christian responses to the human failure to live a moral and just life recognize the persistence of immoral conduct acknowledge it in regard to oneself ask for forgiveness and make amends and peace with God and with those wronged **Tensions in Christian Ethics** Malcolm Brown, 2011-01-01 The book draws on the author's teaching of ethics at undergraduate and postgraduate level for the Cambridge Theological Federation since 2000 Its purpose is to introduce the reader to questions in Christian ethics through a careful examination of the fundamental meta ethical questions posed by the state we're in whether understood as a new phase of modernity or as postmodernity Brown draws on sources and authors from a variety of Christian traditions and from Britain the U S A and Europe The book will be of use not only to university departments and denominational and ecumenical teaching institutions but also as a more general exposition of the current state of ethical thinking in the Christian churches [The Environment and Christian Ethics](#) Michael S. Northcott, 1996-09-28 A new approach to environmental ethics from within the Christian tradition

Stephen Long, 2018-08-15 What is the relationship between the command to love one's enemies and the use of violence and or other coercive political means This work examines this question by comparing and contrasting two important contemporary approaches to Christian ethics neoAugustinian and the ecclesial or neoAnabaptist It traces the complicated conversation that has taken place since John Howard Yoder took on Reinhold Niebuhr's interpretation of the Anabaptists in the 1940's It consists of three parts The first part traces the development of the Augustinian Niebuhrian approach to ethics from Niebuhr through those who have advanced his work including Paul Ramsey Timothy Jackson Charles Mathewes Eric Gregory and Jennifer Herdt It also examines the Augustinian ethics of Oliver O'Donovan John Milbank and Nicholas Wolterstorff Along with tracing the Augustinian approach and its trajectories through agapism theology and the interpretation of Augustine it identifies fifteen criticisms that this approach brings against the neoAnabaptists The second part traces the origin of the ecclesial or neoAnabaptist approach and then examines its relationship to and criticism of agapism what theological doctrines are central and its interpretation of Augustine Its purpose is primarily constructive by explaining the role that ecclesiology Christology and eschatology have among the neoAnabaptists The third part addresses the criticisms levied by Augustinians against the neoAnabaptists by drawing on the constructive theology in the second part It intends to show where the Augustinian critics are correct where they have missed key theological teachings and where they misrepresent It also assesses the summons to the nationalist project the Augustinians put to the neoAnabaptists If this work is successful this third part will not be defensive It will instead illumine the reasons for the criticisms and suggest means by which the conversation that began between Yoder and Niebuhr can continue and possibly bear fruit for theological ethics in both its ecclesial and nationalist projects for generations to come
