Rights Of All Our Children:

The Children's Bill of Emotional Rights Eileen Johnson, 2011-11-26 There are approximately 7 billion people in the world and 2 billion of them are children. Children are the last unheard minority, a group whose voice is seldom listened to and whose rights are seldom acknowledged. Children are dependent on adults for their survival and wellbeing and as such are subservient beings. Though the UN recently issued a Charter of the Rights of the Child, an important aspect was neglected: the emotional rights of the child. Children all over the world are routinely bullied, dismissed, and treated as inferior beings. Though a child can survive hunger, cold, and physical trauma, emotional damage in childhood can cause problems that last a lifetime. These problems can have huge repercussions for society when children become teenagers and young adults, from bullying to suicide to mass murder. In every society, individuals are entitled to their human rights. This book outlines the child's emotional rights. The book explains why it is important to respect a child's rights and how it is possible for parents and teachers to make positive changes in the ways they respond to children. Many adults struggle with preconceived notions on how to discipline and control children. Other adults lack the necessary information on how a child thinks or why a child cannot respond in ways expected of him. And all adults struggle with anger and frustration when dealing with emotional expressions they do not understand. This book helps adults to understand why controlling and manipulating children is not the way to create a healthy community. The book provides insights into a child's mind, gives examples of compassionate and patient responses, and guides parents and teachers towards a greater respect for the rights of the child.

Who Cares for our Children? Valerie Polakow, 2007 Valerie Polakow spent a year traveling around the country listening to low-income women from diverse backgrounds tell their stories of struggle, resilience, distress, and occasional success as they encountered ongoing child care crises. The resulting work is both a compelling account of the lived realities of the child care crisis and an incisive critique of public policy that points to the United States as an outlier in the international community. Drawing on historical and international perspectives, Polakow creates a groundbreaking analysis of child care as a human right, persuasively arguing for a universal child care system. *Who Cares for Our Children* is one of the most disturbing books I have read in a long time. It should have a major impact on debates over poverty and social policy. From the Foreword by Barbara Ehrenreich, author of *Nickel and Dimed*. In this beautifully written and provocative volume, Polakow deftly steps aside and lets real mothers struggling against the odds to keep their families safe and sound speak for themselves about what they need. This book delivers a timely message: Child care should be viewed as a human right. Martha F. Davis, Northeastern University School of Law. A collection of moving and often chilling personal narratives. *Who Cares for Our Children* is a powerful and well-documented analysis of the worlds of low-income families. Beth Blue Swadener, Arizona State University. Thoroughly researched and grounded in a heartfelt sympathy for the struggles of families that face such painful choices and dilemmas in meeting the needs of their children. James Garbarino, Loyola University Chicago.

Adrian C. Armstrong, 2016-04-05 This study reviews the many different bases for wanting to preserve the environment By seeing how protagonists approach the same situation from different assumptions some of the origins of environmental conflict may be established and ways of resolving conflict can be identified There are two major issues in environmental ethics The first asks whether the problems can be solved within current approaches or require instead lifestyle changes for the whole of western civilisation The second issue concerns why the environment should be valued This review identifies a series in increasingly stronger valuations that can be identified as 1 Hedonistic we protect the environment because we like it 2 Utilitarian the environment is valuable to us 3 Consequentialist we want to preserve things for other people now or future 4 Intrinsic The environment has virtue in its own right 5 Extrinsic we value the environment because it is of consequence to some thing else theistic a God Thirdly these insights are used to explore potential ways of resolving environmental conflicts notably by the recovery of democratic decision making at the right scale local national or even global

Global Reflections on Children's Rights and the Law Ellen Marrus, Pamela Laufer-Ukeles, 2021-07-22 Thirty years after the adoption of the UN Convention of the Rights of the Child this book provides diverse perspectives from countries and regions across the globe on its implementation critique and potential for reform The book revolves around key issues including progress in implementing the CRC worldwide how to include children in legal proceedings how to uphold children's various civil rights how to best assist children at risk and discussions surrounding children's identity rights in a changing familial order Discussion of the CRC is both compelling and polarizing and the book portrays the enthusiasm around these topics through contrasting and comparative opinions on a range of topics The work provides varying perspectives from many different countries and regions offering a wealth of insight on topics that will be of significant interest to scholars and practitioners working in the areas of children's rights and justice Rights and Wrongs of Children's Work Michael Bourdillon, Deborah Levison, William Myers, Ben White, 2010-11-10 Rights and Wrongs of Children's Work authored by an interdisciplinary team of experts incorporates recent theoretical advances and experiences to explore the place of labor in children's lives and development This groundbreaking book considers international policies governing children's work and the complexity of assessing the various effects of their work The authors question current child labor policies and interventions which even though pursued with the best intentions too often fail to protect children against harm or promote their access to education and other opportunities for decent futures They argue for the need to re think the assumptions that underlie current policies on the basis of empirical evidence and they recommend new approaches to advance working children's well being and guarantee their human rights Rights and Wrongs of Children's Work condemns the exploitation and abuse of child workers and supports the right of all children to the best quality free education that society can afford At the same time the authors recognize the value and sometimes the necessity of work in growing up and the reality that a workless childhood without responsibilities is not good preparation for adult life in any environment Children's Rights Smiljana

presents the results of interdisciplinary research into monitoring to a wider scientific forum Several monitoring issues are tackled with particular emphasis on the reporting system what should be reported the content of the reports and who should report the more formal and procedural aspects of reporting Apart from a suitable monitoring mechanism there is also the self executing force of the Convention making it directly enforceable in national courts Ongoing and dynamic monitoring can be a powerful impetus to making systematic progress in this area The debate on monitoring the Children s Rights Convention may in this way expand into an attractive and exemplary debate on human rights conventions in general This book will therefore not only meet the requirements of all those working in the field of children s rights but can also provide appealing material for all those involved in the field of monitoring human rights

Parliament. Joint Committee on Human Rights, 2004 The Joint Committee on Human Rights examined the implementation of the UN International Covenant on Economic Social and Cultural Rights in the UK Domestic legislation protects many of the economic social and cultural rights with the Covenant itself having little impact in UK domestic law The Committee believes that there is scope for incorporating further protection of rights in the UK by enshrining some of the guarantees contained in the Covenant Further that for the Covenant rights to be effective they should be part of a framework for government policy development and that Government along with the Commission for Equality and Human Rights should develop ways of measuring the progress of these rights The Committee also recommends that explanatory notes to Bills should include discussion of the Bills compatibility with Covenant rights which is a way of enhancing the scrutiny of proposed Government legislation Furthermore the Committee recommends the introduction of an Equality Bill to address the concerns of discrimination faced by ethnic minorities and persons with disabilities in employment housing and education Congressional Record United States.
