The Body of the Group Daniel Anderson, 2021-09-09 The Body in the Group has been structured around the formation of a group analytic concept of sexuality using the archaeology of Michel Foucault to move away from psychoanalytic theory with its association to heteronormativity and pathology on which group analysis has historically relied The failure of group analysis to have its own theory of sexuality is in fact its greatest potential It is a psychosocial theory that is able to contain failure in language and gaps in discourse and furthermore can mobilise its creative potential in relation to the discourse of sexuality Furthermore using queer theory enables the failure of the term homosexual by disrupting its association to heteronormativity and psychopathology that traditional psychoanalysis has emphasised The potential of the group analytic matrix to disrupt and change discourse by conceiving of it using figurations and their associated political radicalism within language and discourse permits a radical conception of space and time Bi logic removes the potentially unhelpful competitive splits in power associated with the politics of sexuality and gender and by doing so enables multiple and contradictory positions of sexuality and gender to be held simultaneously In addition group analysis radically alters typical notions of ethics by being able to

conceive of a psychosocial form of ethics Likewise queer theory raises an awareness for group analysis of the potential violence of its textual representation Finally analytic groups are figurations in action when terms such as group polyphony embodiment discursive gaps and norms or no norms are mobilised alongside spatio temporality and bi logic The group analytic literature so far has delimited sexuality and gender by over reliance on psychoanalysis Daniel Anderson by utilising group analytic theory alongside the archaeology of Foucault and feminist queer and education theory has created an exciting and innovative way of working with sexuality in a group analysis setting

of mutual enactments For the unobtrusive relational analyst the world and idiom of the patient becomes the defining signature of the clinical interaction and process Rather than seeking to bring patients into greater dialogic relatedness the analyst companions the patient in the flow of enactive engagement and into the damaged and constrained landscapes of their inner worlds Being known and companioned in these areas of deep pain shame and fragmentation is the foundation on which psychoanalytic transformation and healing rests In a series of illuminating chapters that include vivid examples drawn from his work with individuals and with groups Robert Grossmark illustrates the work of the unobtrusive relational analyst He reconfigures the role of action and enactment in psychoanalysis and group analysis and expands the understanding of the analyst's subjectivity to embrace receptivity surrender and companioning Offering fresh concepts regarding therapeutic action and psychoanalytic engagement *The Unobtrusive Relational Analyst* will be of great interest to all psychoanalysts and psychoanalytic psychotherapists
