Rise Of The International Organisation:

The Rise of the International Organisation James David Armstrong, 1982 **The Rise and Fall of the International Organization of Journalists Based in Prague 1946-2016** Kaarle Nordenstreng ,2021-01-01 This is a unique history of what in the 1980s was the world's largest association in the media field. However, the IOJ was embroiled in the Cold War; the bulk of 300,000 members were in the socialist East and developing South. Hence, the collapse of the Soviet-led communist order in central eastern Europe in 1989-91 precipitated the IOJ's demise. The author, a Finnish journalism educator and media scholar, served as President of the IOJ during its heyday. In addition to a chronological account of the organization, the book includes testimonies by actors inside and outside the IOJ and comprehensive appendices containing unpublished documents.

The Rise of the International Organization David Armstrong, 1989-01-01 **International Organizations and The Rise of ISIL** Daniel Silander, Don Wallace, John Janzekovic, 2016-07-15 This book seeks to understand the obligations of the international community to promote and protect state and human security in situations of international humanitarian crises. In Iraq and Syria, as well as in neighbouring states, the rise of ISIL has raised serious state and human security challenges. This study explores the relationships between the Global Regional Partnership, the United Nations, and nine organizations in their attempt to deal with the challenges presented by ISIL. Each organization is analyzed in terms of how it has responded in the past and how it is now responding to the ISIL threat based on three perspectives: resource capacities, military, political, economic, technological, normative, willingness, and readiness, and impediments to capacity and abilities. The overall aim is to discern what capacities and abilities international organizations have to protect state and human security and prevent civilians from mass atrocities inflicted by ISIL forces. The study addresses the role of international organizations when the UNSC is unable or unwilling to uphold the most fundamental norms and values in the UN Charter. This approach acknowledges that within the international community, there is an overall acceptance on security for a partnership between the UN and regional organizations, but that there is also a contested call for a renegotiated international contract on state and human security. This volume will be of much interest to students of international relations, human rights, peace and conflict studies, terrorism studies, and International Relations.

International Organisation in World Politics David Armstrong, Lorna Lloyd, John Redmond, 2017-03-14 Since the end of the Cold War, international organisations have assumed a greater importance on the world stage. The United Nations has played a key role in all of the major security issues during this period, increasingly called upon to address other global problems such as poverty and international crime, while the European Union has created a single currency and moved towards the adoption of a constitution. The growing significance of the World Trade Organisation and other economic institutions has led some to talk of the emergence of a structure of global governance, and international non-governmental organisations and social movements are now widely seen as forming a kind of global civil society that both challenges and participates in these developments. Building on the success of the previous edition, *Versailles*

to Maastricht International Organisation in the Twentieth Century this book is a valuable introduction to the complex history of modern international organisation David Armstrong Lorna Lloyd and John Redmond Pay close attention to the League of Nations the UN and the EU Offer chapters on the new regionalism global governance and international regimes and global civil society Adopt a thematic and analytical approach to the subject Provide a concise factual account of the rise of the international organisation

A Handbook of International Organisations Sonu Trivedi, 2005 International Organisations Have Affected All Of Us In Our Daily Lives No Matter We Realize It Or Not Hence Every Enlightened Citizen Of His Own Country And Of The World Ought To Have Knowledge Of Their Role Functioning System And Above All Their Relevance In The Modern World The Loss Of Several Million Lives In The First World War Showed The Necessity For An International Organisation So As To Establish Peace In The Entire World With This Aim The League Of Nations Later Succeeded By The United Nations Was Formed Over The Past Few Years There Has Been A Significant Increase In The Efforts Of Developing Countries To Achieve Regional Economic Integration In Various Parts Of The Developing World Existing Regional Arrangements Have Been Revitalised Or Expanded And New Groupings Formed This Book Is Not Intended As A General History Of International Organisations Because Such Histories Are Available In Much Greater Details Than That Could Be Attempted Here It Is Rather A Description And A Brief Overview Of The United Nations System And Other Major International And Regional Organisations Of The World Like The Amnesty International G 77 The International Criminal Court Apec Oecd Opec Nam Nafta The Commonwealth Wco Iom Eu Asean Saarc Interpol Etc This Book Would Be Found Most Useful By The Scholars Of Political Science Public Administration International Relations And Others It Would Also Appeal To The General Readers Keen To Know About The Recent Global Developments And Strategies Adopted By The Various International Organisations Across The World

International Organizations and the Law of the Sea Netherlands Institute for the Law of the Sea (NILOS), 2023-11-27 This Series has been discontinued after publication of Volume 18

International Organizations Clive Archer, 2014-10-24 What is the role of international organizations in the international political system The fourth edition of Clive Archer s widely used textbook continues to provide students with an introduction to international organizations exploring their rise and development and accounts for their significance in the modern international political system International Organizations fourth edition has been fully updated to take into account the considerable developments in the field since the last edition was published in 2001 continues to offer a unique concise yet comprehensive approach offering students an accessible and manageable introduction to this core part of international relations offers an authoritative guide to the literature about international organizations and provides advice on further reading

Remedies against International Organisations Karel Wellens, 2002-03-07 International organizations have become major players on the international scene whose acts and activities affect individuals companies and states Damage to interests or violation of rights sometimes occur such as during peacekeeping operations for example Karel Wellens considers

what remedies are available to potential claimants such as private contractors staff members or indeed anyone suffering damage as a result of their actions Can they turn to an Ombudsman or national courts or do they have to rely on support by their own state Are the remedies provided by international organizations adequate Wellens conclusions include suggestions for alternative remedial options in the future *International Organizations* United States. General Accounting Office,1997

The International Responsibility of International Organisations Moritz P. Moelle,2017-02-02 The International Responsibility of International Organisations addresses the joint responsibility of organisations for violations of international law committed during the deployment of peacekeeping operations More specifically it inquires if and under which circumstances in terms of the notion of control international organisations can be jointly responsible The author analyses the practice of international organisations the United Nations NATO the European Union the African Union and the Economic Community of West African States on an inter institutional level as well as in the field in the form of five case studies The likelihood and distribution of responsibility between international organisations engaged in peacekeeping operations is affected by the different layers of applicable primary norms Security Council mandates internal law of the organisations international humanitarian and human rights law Although external pressure may contribute to enhancing the effectiveness of holding international organisations jointly responsible any substantial measures and mechanisms can only be implemented with the participation of states and international organisations *International Organizations and Development, 1945-1990* M. Frey,S. Kunkel,C. R. Unger,2014-08-19 This volume explores how international organizations became involved in the making of global development policy and looks at the driving forces and dynamics behind that process critically assessing the consequences their policies have had around the world *Evolution and International Organization* Volker Rittberger,2013-03-13 phase two spanned the time from the late 1930 s to about 1950 Sohn s period III and Yalem s periods II and III The literature produced during these years revealed an ambivalent reaction toward the apparent inability of international organizations particularly the League of Nations to control violence or contribute to the solution of conflicts among major powers The advocates of a world state saw vindicated their position that an even stronger universal supranational authority was required to assure the repression or deterrence of international aggression However the realist position laying claim to greater scientific validity argued the importance of political and ideological conflicts as barriers to international cooperation Yalem 1966 2 The excellent analysis by Ronald Rogowski 1968 shows how the twin positions of idealism and realism proceed from an identical paradigm of world politics a nation state system with little or no integrative superstructure They differ however in their epistemological outlook The realists display a positivistic standpoint taking the international system and its premise power politics as unalterable givens they inquire into the feasibility of international organization under these circumstances The idealists adopt what one might call a critical approach toward social analysis they do not deny the positive validity of the realists findings but they reject the notion that power politics is an unalterable

impediment **International Organizations and Military Affairs** Hylke Dijkstra, 2016-02-05 From the UN Department of Peacekeeping Operations to the NATO International Staff and the European External Action Service international bureaucrats make decisions that affect life and death In carrying out their functions these officials not only facilitate the work of the member states but also pursue their own distinct agendas This book analyzes how states seek to control secretariats when it comes to military operations by international organizations It introduces an innovative theoretical framework that identifies different types of control mechanisms The book presents six empirical chapters on the UN NATO and EU secretariats It provides new data from a unique dataset and in depth interviews It shows that member states employ a wide range of control mechanisms to reduce the potential loss of influence They frequently forfeit the gains of delegation to avoid becoming dependent on the work of secretariats Yet while states invest heavily in control this book also argues that they cannot benefit from the services of secretariats and keep full control over outcomes in international organizations In their delegation and control decisions states face trade offs and have to weigh different cost categories the costs of policy administrative capacity and agency loss This book will be of interest to scholars postgraduates and officials in international organizations and national governments dealing with questions of international political economy security studies and military affairs **International Law** Jan Wouters, Cedric Ryngaert, Tom Ruys, Geert De Baere, 2018-12-13 This textbook offers for the first time a comprehensive analysis of the classic doctrines and main areas of international law from a European perspective meeting the needs of the many European law schools teaching public international law in English Special attention is devoted to the practice of the European Union the Council of Europe and European States both civil law and common law countries with regard to international law In particular the book analyses the interplay between international law EU law and national law in the case law of the Court of Justice of the EU the European Court of Human Rights and national jurisdictions in Europe It provides the reader with insights into how the international legal practice of the EU and its Member States impacts the development of international law both in terms of doctrines such as treaty making and customary law the exercise of extraterritorial jurisdiction state responsibility and the settlement of disputes as well as particular sub fields of international law such as human rights law and international economic law In addition the book covers other important areas such as the use of force and collective security the law of armed conflict and global and regional international organisations It provides European perspectives on all these issues and will be of great value to students scholars and practitioners [International Organizations and the Law of the Sea 1991](#) Netherlands Institute for the Law of the Sea, 1993-10-01 **International Organizations and Environmental Protection** Wolfram

Kaiser, Jan-Henrik Meyer, 2016-12-01 Pollution resource depletion habitat management and climate change are all issues that necessarily transcend national boundaries Accordingly they and other environmental concerns have been a particular focus for international organizations from before the First World War to the present day This volume is the first to comprehensively

explore the environmental activities of professional communities NGOs regional bodies the United Nations and other international organizations during the twentieth century It follows their efforts to shape debates about environmental degradation develop binding intergovernmental commitments and following the seminal 1972 Conference on the Human Environment implement and enforce actual international policies

Diplomacy, Trade, and South Korea's Rise to International Influence Dennis Patterson,Jangsup Choi,2019-07-31 This volume details how the diplomatic successes of South Korean presidents removed the country from the international isolation it experienced in the aftermath of the Korean War and also provided the necessary international connections for the expansions of international trade it experienced Patterson and Choi explain how diplomacy then was the primary process that allowed for the successful implementation of South Korea's export led economic development strategy which in turn led to the rapid growth that allowed it to eventually the internationally influential actor it is today

The Rise of China and International Law Congyan Cai,2019-09-10 The rise of China signals a new chapter in international relations How China interacts with the international legal order namely how China utilizes international law to facilitate and justify its rise and how international law is relied upon to engage a rising China has invited growing debate among academics and those in policy circles Two recent events the South China Sea Arbitration and the US China trade war have deepened tensions This book for the first time provides a systematic and critical elaboration of the interplay between a rising China and international law Several crucial questions are broached These include How has China adjusted its international legal policies as China's state identity changes over time especially as it becomes a formidable power Which methodologies has China adopted to comply with international law and in particular to achieve its new legal strategy of norm entrepreneurship How does China organize its domestic institutions to engage international law in order to further its ascendance How does China use international law at a national level in the Chinese courts and at an international level for example lawfare in international dispute settlement And finally how should Chinese exceptionalism be understood This book contributes significantly to the burgeoning and highly relevant scholarship on China and international law
