personal morality She believes that while the right manages to effectively portray its opponents as socialist slackers it claims a moral superiority it doesn't at all exhibit lacking as she says moral compassion one of the essential moral virtues Provocative inspiring and deeply grounded The Good Life shows that while the moral life is a hard road the more of us who recognize that it is out there to be attempted the better our culture will be Patterns of Supplementary Parenting Marjorie J. Kostelnik, Albert I. Rabin, Lillian A. Phenice, Anne K. Soderman, 2013-12-01 The United Nations designation of 1979 as the International Year of the Child marked the first global effort undertaken to heighten awareness of the special needs of children Activities initiated during this special year were designed to promote purposive and collaborative actions for the benefit of children throughout the world Michigan State University's celebration of the International Year of the Child was held from September 1979 through June 1980 A variety of activities focused attention on the multiplicity of factors affecting the welfare of today's children as well as the children of the future Many people involved with the university were concerned that benefits to children continue beyond the official time allocated to the celebration The series Child Nurturance is one response to this concern The first five volumes of Child Nurturance reflect directly the activities held on the Michigan State University campus and consist of original contributions from guest speakers and invited contributors Subsequent biennial volumes will present original contributions from individuals representing such fields as anthropology biology education human ecology psychology philosophy sociology and medicine We hope the material presented in these volumes will promote greater understanding of children and encourage interdisciplinary inquiry into the individual family societal and cultural variables which influence their welfare and development We would like to express both our thanks and our admiration for Margaret Burritt who not only typed the camera ready copy for each of the volumes but also served as general manager of the entire project **The Shadow of the Second Mother** Prophecy Coles, 2015-02-20 The Shadow of the Second Mother explores why there has been such little interest in psychology social history and biography in the important contribution that second mothers such as wet nurses and nannies have had upon the emotional life of the children they have nursed For the last three thousand years and throughout most civilisations they have nurtured the children of the privileged and kept alive the abandoned and unwanted child and yet there has been a profound silence surrounding the influence they may have had The author explores the lives of several well known people who have been wet nursed such as Michelangelo Rousseau Jack London Nabokov and Klein She speculates that they all were affected emotionally by their second mother and concludes that a universal feature of such delegated mothering seems to be that the bond between mother and child is broken and the child may be left with a life long distrust of close relationships In The Shadow of the Second Mother Coles combines an exploration of attachment theory with neurology making it possible to give an explanation as to why these important figures have lain unnamed and ignored in our social and psychological consciousness This intriguing new approach to an ancient practice will be fascinating reading for psychotherapists psychoanalysts sociologists and students of social history **Recovering**

**Boarding School Trauma Narratives** Christine Jack, 2020-04-28 Recovering Boarding School Trauma Narratives

Christopher Robin Milne as a Psychological Companion on the Journey to Healing is a unique emotive and theorised narrative of a young girl's experience of boarding school in Australia. Christine Jack traces its impact on the emerging identity of the child including sexual development and emotional capacity, the transmission of trauma into adulthood and the long process of recovery. Interweaving her story with the experiences of Christopher Robin Milne, she presents her memoir as an exemplar of how narrative writing can be employed in remembering and recovering from traumatic experiences. Unique and powerfully written, Jack takes the reader on a journey into her childhood in Australian boarding school convents in the 1950s and 1960s. Comparing her experience with Christopher Robin Milne's, she interrogates his memoirs illustrating that boarding school trauma knows no boundaries of time and place. She investigates their emerging individuality before being sent to live an institutional life and traces their feelings of longing and loneliness as well as the impact of the abuse each endured there. As an educational historian, Jack writes in a ground-breaking way from the perspective of an insider and outsider, revealing how trauma remains in the unconscious, wielding power over the life of the adult until the traumatic memories are recovered, emotions released, and associated dysfunctional behaviour changed, restoring well-being. Engaging the lenses of history, life span, and Jungian psychology, feminist and trauma theory, and boarding school trauma research, this book positions narrative writing as a way of reducing the power of trauma over the lives of survivors. Personal and accessible, this book will be essential reading for psychologists and educational historians as well as students and academics of psychology, sociology, trauma studies, ex-boarders, and those interested in the life of Christopher Robin Milne. Royal Education Peter

Gordon, Denis Lawton, 2003. Many people assume that kings and queens have generally received a good education, perhaps the best that money could buy at the time. This book investigates the reality: what is known about the education of British sovereigns from the beginning of the Tudor period to the end of the 20th century. There have been enormous differences in the seriousness with which education was regarded at different points in history. For example, Henry VIII and his children were educated at a high point in the Renaissance when educational ideas were regarded as important as well as exciting. Queen Elizabeth I was by any standards extremely well educated; by contrast, Queen Elizabeth II's education has been described as undemanding because her parents wanted her to have a happy childhood. Peter Gordon and Denis Lawton have traced changes in royal education through the centuries and related them not only to educational ideas and theories but also to changing political, social, and religious contexts. The monarchy itself has changed as an institution from the semi-absolute authority of the Tudors to a much more limited kind of monarchy by the end of the Stuart period, after one king had been executed and another exiled to the constitutional monarchy of the 20th century. To what extent have such changes made any difference to royal education? What is the most appropriate kind of education for future kings and queens in our present-day democracy? In this book, the authors confront these and other such questions and explore some of the answers. Work in the

English Novel Ruth Danon, 2020-01-08 Originally published in 1985 this book traces the development of an ideal of work in English writing which runs parallel to that of the Protestant work ethic The author has called this the myth of vocation work is seen as the primary source of self definition psychic integration and fulfilment The root and the purest form of the idea is to be found in Robinson Crusoe This work so seminal in many ways presents a prototypical middle class hero caught in a conflict between the impulse to adventure and that to create and make profits The conflicts articulated in this work are picked up more or less explicitly by more than one of the great Victorian novelists This book treats in detail several paradigmatic examples deriving its terms of reference from modern sociological treatments of work and its effects on persons The gospel of work need not result in capitalistic or protestant attitudes but is compatible also with communistic ideas This study serves to revalue the concept of work as a humanistic activity as well as offering a subtle reading of major works of literature

**Silent Sisterhood** Patricia Branca, 2013-06-26 This perceptive book studies the Victorian woman in the home and in the family One of the central purposes is to rescue Victorian woman from the realm of myth where her life was spent in frivolous trifles and instead to show how she had a major part to play in the practical management of the home The author makes judicious use of domestic manuals and other material written specifically for middle class women With statistical data to quantify the image as well this book presents a better understanding of what it was like to be a middle class woman in nineteenth century England Looking at the middle class woman's problems as mistress of the house her problems with domestics her problems as mother and her problems as woman we can begin not merely to characterise the middle class woman but to define her as an element of British social history and as a silent but significant agent of change The book was first published in 1975

The State and Working Women Mary Ruggie, 2014-07-14 Mary Ruggie's controversial study of British and Swedish labor market anti discrimination and child care programs argues that gender based policy alone cannot substantially raise the economic status of women workers Rather policies for women must be developed within the context of more general economic and social policies Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Children of the Raj** Vyvyen Brendon,2015-04-30 Vyvyen Brendon s evocative at times heart tugging book runs from the 18th century and the East India Company through the Afghan wars the Indian mutiny and the more settled era of the Queen Empress and culminates in the conflict leading to Britain s hurried exit in 1947 Its subject is the young progeny of traders soldiers civil servants missionaries planters engineers and what should be done with them Until the coming of air travel these children often only saw their parents every few years Then there were the children born of Anglo Indian marriages and affairs Sent back to Britain they were often reviled as darkies a touch of the tar brush And then there were the children educated in India Brendon reveals appalling stories of abuse at the hands of servants What frequently unites Brendon s wildly different subjects is their loneliness drawing on letters diaries memoirs and interviews she portrays children who had to discipline themselves to adapt often ingeniously to unfamiliar cultures far away from family and forced to spend termtime in boarding schools and holidays with unfamiliar families

**Samuel Coleridge-Taylor, a Musical Life** Jeffrey Green,2015-10-06 Green s study is more than a biography of an Anglo African composer The first comprehensive study of Coleridge Taylor s life for almost a century it reveals how class ridden Britain could embrace even the most unlikely of cultural icons

**Women in Magazines** Rachel Ritchie,Sue Hawkins,Nicola Phillips,S. Jay Kleinberg,2016-02-19 Women have been important contributors to and readers of magazines since the development of the periodical press in the nineteenth century By the mid twentieth century millions of women read the weeklies and monthlies that focused on supposedly feminine concerns of the home family and appearance In the decades that followed feminist scholars criticized such publications as at best conservative and at worst regressive in their treatment of gender norms and ideals However this perspective obscures the heterogeneity of the magazine industry itself and women s experiences of it both as readers and as journalists This collection explores such diversity highlighting the differing and at times contradictory images and understandings of women in a range of magazines and women s contributions to magazines in a number of

contexts from late nineteenth century publications to twenty first century titles in Britain North America continental Europe and Australia      *The Child, the State and the Victorian Novel* Laura C. Berry, *The Child the State and the Victorian Novel* traces the the story of victimized childhood to its origins in nineteenth century Britain Almost as soon as childhood became a distinct category Laura C Berry contends stories of children in danger were circulated as part of larger debates about child welfare and the role of the family in society Berry examines the nineteenth century fascination with victimized children to show how novels and reform writings reorganize ideas of self and society as narratives of childhood distress Focusing on classic childhood stories such as *Oliver Twist* and novels that are not conventionally associated with particular social problems such as Dickens s *Dombey and Son* the Bront sisters *Wuthering Heights* and *The Tenant of Wildfell Hall* and George Eliot s *Adam Bede* Berry shows the ways in which fiction that purports to deal with private life particularly the domain of the family nevertheless intervenes in public and social debates At the same time she examines medical legal charitable and social relief writings to show how these documents provide crucial sources in the development of social welfare and modern representations of the family
