Rise And Fall Of British Naval Mastery:

The Rise And Fall of British Naval Mastery Paul Kennedy, 2017-01-26 Paul Kennedy's classic naval history now updated with a new introduction by the author. This acclaimed book traces Britain's rise and fall as a sea power from the Tudors to the present day. Challenging the traditional view that the British are natural sons of the waves, he suggests instead that the country's fortunes as a significant maritime force have always been bound up with its economic growth. In doing so, he contributes significantly to the centuries-long debate between continental and maritime schools of strategy over Britain's policy in times of war. Setting British naval history within a framework of national, international, economic, political, and strategic considerations, he offers a fresh approach to one of the central questions in British history. A new introduction extends his analysis into the twenty-first century and reflects on current American and Chinese ambitions for naval mastery. Excellent and stimulating. Correlli Barnett. The first scholar to have set the sweep of British Naval history against the background of economic history. Michael Howard. Sunday Times. By far the best study that has ever been done on the subject. A sparkling and apt quotation on practically every page. Daniel A. Baugh. International History Review. The best single volume study of Britain and her naval past now available to us. Jon Sumida. Journal of Modern History. **The Rise and Fall of British Naval Mastery** Paul M. Kennedy, 2006. First published in 1976, this book is the first detailed examination of the history of British sea power since A. T. Mahan's classic *The Influence of Sea Power on History* published in 1890. In analyzing the reasons for the rise and fall of Great Britain as a predominant maritime nation in the period from the Tudors to the present day, Professor Kennedy sets the Royal Navy within a framework of national, international, economic, political, and strategic considerations. To this new paperback edition, the author has added a new introduction that brings the discussion of naval power up to date with special emphasis on today's enormous U.S. Navy as the prime contemporary example of the use of naval forces to wield global influence. [Rise and Fall of British Naval Mastery](#) Paul M. Kennedy, 1982. **The Rise and Fall of British Naval Mastery** Paul Michael Kennedy, 2001. This volume argues that Britain's naval strength has always been bound up with her economic growth and decline. It offers a fresh approach to the study of British naval history and a challenge to traditional assumptions and historiography about the Navy. **The Ashgate Research Companion to Modern Warfare** Professor John Buckley, Dr George Kassimeris, 2013-03-28. This research collection provides a comprehensive study of important strategic, cultural, ethical, and philosophical aspects of modern warfare. It offers a refreshing analysis of key issues in modern warfare, not only in terms of the conduct of war and the wider complexities and ramifications of modern conflict, but also concepts of war, the crucial shifts in the structure of warfare, and the morality and legality of the use of force in a post-9/11 age. [The Crisis of British Sea Power](#) James Levy, 2024-02-20. This work is a close examination of the conditions surrounding and precipitating the last gasp of British naval hegemony and events that led to its demise. Great Britain undertook a massive naval building program in the late 1930s in order to deter aggression and secure

dominance at sea against her nascent enemies Nazi Germany and Fascist Italy But the failure of the policy of Appeasement to deter war or delay it into the early 1940s left the building program only partially complete and the exigencies of war led to the cancellation of the critical but costly and time consuming Lion class battleships and the slow delivery of the 1940 battlecruiser HMS Vanguard and two vital fleet carriers Adding to these issues the fall of France spurred the USA to initiate her own even larger naval building program and together with the entry of the powerful and capable Imperial Japanese Navy completely overwhelmed Britain's position as the world's premier naval power This book will be of value to those interested in the history of the Second World War British strategy and the British navy

The Pursuit of Dominance Christopher J. Fettweis,2023 In *The Pursuit of Dominance* Christopher J Fettweis examines the grand strategy of previous superpowers to see how they maintained or failed to maintain their status Over the course of six cases from Ancient Rome to the British Empire he seeks guidance from the past for present US policymakers Fettweis is most interested in how these superpowers defined their interests the grand strategies these regimes followed to maintain superiority over their rivals and how the practice of that strategy worked A sweeping history of grand strategy this book looks at the past 2 000 years to highlight what if anything current US strategists can learn from the experience of earlier superpowers

Global Geostrategy Brian Blouet,2020-09-23 This is a new examination of Halford Mackinder's seminal global geostrategic work from the perspective of geography diplomatic history political science international relations imperial history and the space age Mackinder was a man ahead of his time He foresaw many of the key strategic issues that came to dominate the twentieth century Until the disintegration of the Soviet Union western defence strategists feared that one power or alliance might come to dominate Eurasia Admiral Mahan discussed this issue in *The Problem of Asia* 1900 but Mackinder made the most authoritative statement in *The Geographical Pivot of History* 1904 He argued that in the closed Heart Land of Euroasia was a strategically placed region with great resources that if controlled by one force could be the

basis of a World Empire James Kurth in Foreign Affairs has commented that it has taken two World Wars and the Cold War to prevent Mackinder's prophecy becoming reality In World War I and World War II Germany achieved huge territorial gains at the expense of the Russian empire and the Soviet Union In the former conflict the Russian empire was defeated by Germany but the western powers insisted that the territorial gains made by Germany at the treaty of Brest Litovsk be given up In World War II Britain and the US gave material support to Stalin's totalitarian regime to prevent Nazi Germany gaining control of the territory and resources that might have been a basis for world domination The west highly conscious of Mackinder's dictum 1919 that Who rules East Europe commands the Heartland quickly adopted policies to contain the Soviet Union History has therefore proved Mackinder's work to be of vital importance to generations of strategic thinking and he remains a key influence in the new millennium This book will be of great interest to all students and scholars of strategic studies and military history and of geopolitics in particular

China's Global Engagement Jacques deLisle, Avery Goldstein, 2017-05-30 Assessing China's rapidly changing role on the international stage China is again undergoing a period of significant transition Internally China's leaders are addressing challenges to the economy and other domestic issues after three decades of dramatic growth and reforms President Xi Jinping and other leaders also are refashioning foreign policy to better fit what they see as China's place in the world This has included a more proactive approach to trade and related international economic affairs a more vigorous approach to security matters and a more focused engagement on international cultural and educational affairs In this volume China specialists from around the world explore key issues raised by a changing China's interaction with a changing world They chronicle China's emergence as a more capable actor whose engagement is reshaping international affairs in many dimensions These include global currency and trading systems patterns of cooperation and competition in technological innovation economic and political trends in the developing world the American led security order in the Asia Pacific region the practice of international military and humanitarian intervention the use of naval power the role of international law in persistent territorial and maritime disputes in the East and South China Seas the international human rights regime the circulation of Chinese talent trained abroad a more globalized film industry and programs to reshape global cultural awareness about China through educational initiatives Across these diverse areas China's capacity and desire to influence events and outcomes have risen markedly The results so far are mixed and the future trajectory remains uncertain But across the wide range of issues addressed in this book China has become a major and likely an enduring participant

Grand Strategies in War and Peace Paul M. Kennedy, 1991-01-01 Examines how the US the Soviet Union and various European powers have developed their grand Strategies how they have

integrated their political economic and military goals in order to preserve their long term interests in times of war and peace

The Navy in the Post-Cold War World Colin S. Gray,2010-11 The Navy in the Post Cold War World is the first book to invite the reader to think strategically explores the strategic relationship among sea land and air power with particular attention to the course of a conflict viewed as a whole and ventures boldly into the region of the meaning of space strategy for maritime power and the relevance of that power in the still emerging post Cold War security environment The Navy in the Post Cold War World is unusual because it is written by an internationally recognized general strategic theorist and analyst rather than by a long standing naval writer Gray is thus better able to view naval issues in proper perspective Gray delves deeply into the role of sea power as an enabling agent and team player in the overall enterprise of national and international security He provides the most current assessment of what sea and space power mean for each other as well as envisioning the future of maritime oriented defense

Dubious Battles John Arquilla,2017-09-29 Why do leaders initiate wars they are destined to lose This study shows that imperfect understanding of land sea wars was at the root of defeats for leaders from Louis XIV to Saddam Hussein

Millett,Williamson Murray,2010-08-09 This three volume study examines the questions raised by the performance of the military institutions of France Germany Russia the United States Great Britain Japan and Italy in the period from 1914 to 1945 Leading military historians deal with the different national approaches to war and military power at the tactical operational strategic and political levels They form the basis for a fundamental re examination of how military organizations have performed in the first half of the twentieth century Volume 2 covers the interwar period Volumes 1 and 3 address World War I and World War II respectively Now in a new edition with a new introduction by the editors these classic volumes will remain invaluable for military historians and social scientists in their examination of national security and military issues They will also be essential reading for future military leaders at Staff and War Colleges

Capitalism and the Sea Liam Campling,Alejandro Colas,2021-01-05 What keeps capitalism afloat The global ocean has through the centuries served as a trade route strategic space fish bank and supply chain for the modern capitalist economy While sea beds are drilled for their fossil fuels and minerals and coastlines developed for real estate and leisure the oceans continue to absorb the toxic discharges of our carbon civilization warming expanding and acidifying the blue water part of the planet in ways that will bring unpredictable but irreversible consequences for the rest of the biosphere In this bold and radical new book Campling and Col s analyze these and other sea related phenomena through a historical and geographical lens In successive chapters dealing with the political economy ecology and geopolitics of the sea the authors argue that the earth s geographical separation into land and sea has significant consequences for capitalist development The distinctive features of this mode of production continuously

seek to transcend the land sea binary in an incessant quest for profit engendering new alignments of sovereignty exploitation and appropriation in the capture and coding of maritime spaces and resources

The Genesis of a Policy Honae Cuffe, 2021-11-16 The years 1921-57 marked a period of immense upheaval for Australia as the nation navigated economic crises the threat of aggressive Japanese expansion and shifting power distributions with the world transitioning from British leadership to that of the US This book offers a reassessment of Australia's foreign policy origins and maturation during these tumultuous years Successive Australian governments carefully observed these global and regional forces The policy that developed in response was an integrated one that is one that sought to balance Australia's particular geopolitical circumstances with great power relationships and in assessing the value of these relationships ensure that the nation's trade security and diplomatic interests were served Amid the economic and strategic uncertainty of the interwar years the Australian government acknowledged the shifting power distributions in the global and Asia Pacific orders and that neither the policies of Britain nor the US completely served the national interest The nation accordingly sought to intervene within the policies of the great powers to ensure its particular interests were secured This geopolitically informed interventionist approach which had its genesis in the 1930s is traced throughout the 1940s and 1950s highlighting Australia's gradual and uneven transition from the British world order to that of the US and the frank assessments made about which relationship best served Australia's interests The Genesis of a Policy identifies a comprehensive and pragmatic approach albeit not always effectively executed in Australian foreign policy tradition that has not been previously examined

Maritime Fiction J. Peck, 2001-03-08 In this important new study John Peck examines the cultural significance of maritime novels from Defoe through to Conrad Focusing in particular on the image of the body he illustrates how these works are built around the disparity between the masculine and often brutal regime of the ship and the civilised values of those who remain on the shore The first comprehensive discussion of its subject Maritime Fiction is an original exploration of the relationship between national identity fiction and the sea

The Seabound Coast William Johnston, William G.P. Rawling, Richard H. Gimblett, John MacFarlane, 2011-01-14 Commended for the 2011 Keith Matthews Award From its creation in 1910 the Royal Canadian Navy was marked by political debate over the country's need for a naval service The Seabound Coast Volume I of a three volume official history of the RCN traces the story of the navy's first three decades from its beginnings as Prime Minister Sir Wilfrid Laurier's tinpot navy of two obsolescent British cruisers to the force of six modern destroyers and four minesweepers with which it began the Second World War The previously published Volume II of this history Part 1 No Higher Purpose and Part 2 A Blue Water Navy has already told the story of the RCN during the 1939-1945 conflict Based on extensive archival research The Seabound Coast recounts the acrimonious debates that eventually led to the RCN's establishment in 1910 its tenuous existence following the Laurier government's sudden replacement by that of Robert Borden one year later and the navy's struggles during the First World War when it was forced to defend Canadian waters with only a

handful of resources From the effects of the devastating Halifax explosion in December 1917 to the U boat campaign off Canadas East Coast in 1918 the volume examines how the RCNs task was made more difficult by the often inconsistent advice Ottawa received from the British Admiralty in London In its final section this important and well illustrated history relates the RCNs experience during the interwar years when anti war sentiment and an economic depression threatened the services very survival
