**Al-Muzzammil, Surah Muddaththir** Nasoha Bin Saabin, I have written many books and articles on various topics but since 2013 I have devoted myself fully in writing the interpretation of the Holy Quran in English and with the grace of Allah I have completed the whole Quran on 29th October 2020 with 84 books I believe there is a great need in the whole world for the correct interpretation of the Holy Quran to be written in English Currently there is a great misunderstanding about Islam

among Muslims and non Muslims globally The misunderstanding of the meaning of the Holy Quran among Muslims will lead to the wrong practice of Islam which leads to the wrong actions of Muslims The wrong actions of Muslims will lead to misunderstandings about Islam among Muslims and non Muslims The wrong actions of the Muslims have led to many miseries and wars among Muslims The wrong actions of Muslims have also led to many wars and clashes between Muslims and non Muslims In order to avoid miseries wars and clashes from taking place between the whole mankind in the whole world the whole mankind in the whole world need to understand the true teaching of Islam There is no other way for the whole mankind to understand the true teaching of Islam unless the whole mankind is able to read and understand the correct interpretation of the Holy Quran The whole mankind is only able to read and understand the correct interpretation of the Holy Quran when it is written in the universal language of the world English For this very reason I have written the interpretation of the Holy Quran in English Prof Nasoha Bin Saabin      *Sourcebook for Sundays, Seasons, and Weekdays* 2024 Kathryn Ball-Boruff, Jessie Bazan, Mary A. Feuer,1987-01-01 In this classic work the author undertakes to show how Spinoza s philosophical ideas particularly his political ideas were influenced by his underlying emotional responses to the conflicts of his time It thus differs form most professional philosophical analyses of the philosophy of Spinoza The author identifies and discusses three periods in the development of Spinoza s thought and shows how they were reactions to the religious political and economic developments in the Netherlands at the time In his first period Spinoza reacted very strongly to the competitive capitalism of the Amsterdam Jews whose values were so thoroughly pervaded by an economic ethics that decrees the stock exchange approached in dignity the decrees of God and of the ruling classes of Amsterdam and was led out only to give up his business activities but also to throw in his lot with the Utopian groups of the day In his second period Spinoza developed serious doubts about the practicality of such idealistic movements and became a mature political partisan of Dutch liberal republicanism The collapse of republicanism and the victory of the royalist party brought further disillusionment Having become more reserved concerning democratic processes and having decided that every form of government could be made consistent with the life of free men Spinoza devoted his time and efforts to deciding what was essential to any form of government which would make such a life possible In his carefully crafted introduction to this new edition Lewis Feuer responds to his critics and reviews Spinoza s worldview in the light of the work of later scientists sympathetic to this own basic standpoint He reviews Spinoza s arguments for the ethical and political contributions of the principle of determinism and examines how these have guided and at times frustrated students and scholars of the social and physical sciences who have sought to understand and advance these disciplines
