### **Labor Market Distortions, Rural-Urban Inequality, and the Opening of the People's Republic of China**

**Economy** Thomas Hertel, 2008-05 Evaluates the impact of some key factor market reforms on rural urban inequality income distribution using a household disaggregated recursive dynamic computable general equilibrium model of the People's Republic of China It also explores how these factor market reforms interact with product market reforms currently under way as part of the country's World Trade Org WTO accession process The simulation results show that reforms in the rural land rental market hukou system as well as increasing off farm labor mobility would reduce the urban rural income ratio dramatically Furthermore the combination of WTO accession factor market reforms improves both efficiency equality significantly Charts tables graphs

**The Economies of Southeast Asia** Teofilo C. Daquila, 2005 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally this book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies

Practices of Poverty Measurement and Poverty Profile of Nepal Devendra Chhetry, 2009-03

Reviews the poverty measuring practices available measures of poverty and economic growth figures of Nepal The poverty rates for FY 1976 77 1984 85 and 1995 96 are found to be not comparable due to change in methodology over time The three poverty rates average 40% Nepal has experienced high economic growth during the 7th 1985 86 to 1989 90 and 8th 1992 93 to 1996 97 Plan periods with no strong evidences of poverty reduction This incompatible result is partially explained by comparing growth of the agricultural sector with the role of the sector in providing employment and income generation at the household level and by comparing social indicators particularly literacy rate with the growth of the nonagricultural sector

*New Paradigm in Macroeconomics* R. Werner, 2005-03-21 Modern mainstream economics is attracting an increasing number of critics of its high degree of abstraction and lack of relevance to economic reality Economists are calling for a better reflection of the reality of imperfect information the role of banks and credit markets the mechanisms of

economic growth the role of institutions and the possibility that markets may not clear While it is one thing to find flaws in current mainstream economics it is another to offer an alternative paradigm which can explain as much as the old but can also account for the many anomalies That is what this book attempts Since one of the biggest empirical challenges to the old paradigm has been raised by the second largest economy in the world Japan this book puts the proposed new paradigm to the severe test of the Japanese macroeconomic reality *Banking in China* V. Cousin, 2007-02-21 China's banking system is central to their development This text offers detailed analysis of the Chinese banking sector its challenges reasons for the present form and the implications for reform The book interrogates the industry's critical issues such as financial intermediation capital and credit risk management and corporate governance

**Designing Financial Systems for East Asia and Japan** Joseph Fan, Masaharu Hanazaki, Juro Teranishi, 2004-08-02 This collection discusses the role of financial institutions and markets in East Asian and Japan corporate governance and new technology and how to redesign the East Asian and Japanese financial systems

**The Transformation of Southeast Asian Economies** Teofilo C. Daquila, 2007 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally the book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies

Developing Asian Bondmarkets Takatoshi Ito, Yung Chul Park, 2014-01-10 The absence of vibrant bondmarkets in East Asia was a significant contributor to the 1997-98 financial crisis Ever since the development of local bondmarkets has been a major objective of financial reforms in many East Asian economies This effort has been frustrated by the inability to reach a consensus on whether Asian bondmarkets are truly needed in East Asia whether they can be made viable in the competitive environment of the global economy how they should be created and what role intergovernmental cooperation should play in their definition and creation *Developing Asian Bondmarkets* helps build this consensus proposing how to develop robust and efficient bondmarkets in East Asia This book the first of its kind comes from the Finance Forum of the Pacific Economic Cooperation Council

**Princes of the Yen** Richard Werner, 2015-03-04 This eye opening book offers a disturbing new look at Japan's post war economy and the key factors that shaped it It gives special emphasis to the 1980s and 1990s when Japan's economy experienced vast swings in activity According to the author

the most recent upheaval in the Japanese economy is the result of the policies of a central bank less concerned with stimulating the economy than with its own turf battles and its ideological agenda to change Japan's economic structure. The book combines new historical research with an in-depth behind-the-scenes account of the bureaucratic competition between Japan's most important institutions: the Ministry of Finance and the Bank of Japan. Drawing on new economic data and first-hand eyewitness accounts, it reveals little-known monetary policy tools at the core of Japan's business cycle, identifies the key figures behind Japan's economy and discusses their agenda. The book also highlights the implications for the rest of the world and raises important questions about the concentration of power within central banks.

Rising to the Challenge in Asia: People's Republic of China Asian Development Bank, 1999      **From Monobank to Commercial Banking** Jens Kovsted, John Rand, Finn Tarp, Institute of Southeast Asian Studies, 2005. This study analyzes the difficulties and problems encountered in transforming the Vietnamese financial sector from one subordinate to government objectives and goals to an autonomous sector guided by market forces and competitive pressures. Here the history of financial sector liberalization is traced and close attention paid to the activities and autonomy of the State Bank of Vietnam, the institution responsible for the supervision and regulation of the financial sector in Vietnam.

Rising to the Challenge in Asia: Pakistan Asian Development Bank, 1999      Rising to the Challenge in Asia: Philippines Asian Development Bank, 1999      **Quantitative Exchange Rate Economics in Developing Countries** M. Rusydi, S. Islam, 2007-07-12. This book examines the options for adopting an appropriate model of the exchange rate determination and its associated regime suitable for developing countries. It shows that a credible exchange rate regime and policy may mitigate the flight to currency from broad money and ensure stability and certainty for private sectors.

Rising to the Challenge in Asia: India Asian Development Bank, 1999      Making Financial Globalization Clara Park, 2024-10-29. In *Making Financial Globalization* Clara Park challenges the conventional wisdom that finance has always been global. Drawing on original datasets of financial trade restrictions and domestic financial regulations in over 100 countries, archival research of international negotiations and case studies of the US and China, Park details how financial firms used multilateral lobbying strategies to create an international framework for financial service liberalization. As she shows, the powerful coalition across industries and countries exerted considerable pressure on national governments who had to weigh the costs and benefits of liberalization and facilitated international negotiations. A novel political economic explanation for financial globalization, this timely book challenges state-centric views in international relations and emphasizes the interplay of firms and politics as a central factor shaping financial globalization.

Financial Crisis and Institutional Change in East Asia Jikun Lai, 2012-06-19. In light of the Asian financial crisis of 1997, Lai examines whether East Asian economies converged onto the liberal market model by studying the evolution of the financial sectors of Korea, Malaysia, and Thailand. This includes sectoral diversification, the nature of competition, and the regulatory and supervisory frameworks.
