Rising Sunsets:

Sunrise, Sunset Kim Weiss, 2014-10-14 Much like life the stage changes even when our vantage point doesn't. And so it is with the rising and setting sun no two are ever the same. Every picture tells another color shape and shadow story. The Rising Sunset Kenneth Attiwill, 1957 The author's experiences after his capture by the Japanese in Java in 1942 and later as a captive in Japan. Sunsets, Twilights, and Evening Skies Aden Meinel, Marjorie Meinel, 1991-01-25 Explains what causes color variations in sunsets, tells how volcanic eruptions can change the sun's light and discusses comets, meteors, city lights and the aurora borealis. Skyscapes Fabio Silva, Nicholas Campion, 2015-03-12 Eleven papers extend discussion of the role and importance of the landscape and the wider environment to past societies and to the understanding and interpretation of their material remains into consideration of the significance of the celestial environment, the skyscape. The role of the sky for past societies has been relegated to the fringes of archaeological discourse. Nevertheless, archaeoastronomy has developed a new rigour in the last few decades and the evidence suggests that it can provide insights into the beliefs, practices and cosmologies of past societies. *Skyscapes* explores the current role of archaeoastronomical knowledge in archaeological discourse and how to integrate the two. It shows how it is not only possible but even desirable to look at the skyscape to shed further light on human societies. This is achieved by first exploring the historical relationship between archaeoastronomy and academia in general and with archaeology in particular. The volume continues by presenting case studies that either demonstrate how archaeoastronomical methodologies can add to our current understanding of past societies, their structures and beliefs, or how integrated approaches can raise new questions and even revolutionise current views of the past. **The Month**, 1922 *It's a Sunrise, Not a Sunset* Ann S. Eagle, 2016-02-15 Have you ever wondered why we focus so much on sunsets and not sunrises? Maybe because it's easier to watch a sunset as it happens in a more convenient time of the day. Maybe it's just become a habit to photograph and paint sunsets instead of sunrises. The same can be true in our own lives. We can form habits of focusing on the sunsets in our lives and when we do we can miss the sunrises in them. The sun setting represents the end of the day while the sun rising represents the beginning of the day. In the same way, sunsets in our personal lives can symbolize the end of something or the loss of something while sunrises can symbolize the start of something or the gain of something. When we think the sun is setting on our circumstances, maybe the sun is really rising. God is always turning our circumstances together for good. Is it time for you to proclaim: It's a sunrise, not a sunset. **House Documents, Otherwise Publ. as Executive Documents** United States. Congress.
