Rising To The Challenge In Asia:

Rising to the Challenge in Asia: People's Republic of China, 1999 *The Economies of Southeast Asia* Teofilo C. Daquila, 2005 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally this book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies **Rising to the Challenge in Asia: An overview**, 1999

Rising to the Challenge in Asia: Special issues, 1999 **Shaping U.S. Military Forces for the Asia-Pacific** Michael R. Kraig, 2014-06-04 The first twenty years of post Cold War US defense and diplomatic policies toward Asia have looked a good deal like the previous 50 namely continued deterrence based upon overwhelming offensive military predominance In East Asia all powers harbor common and divergent interests based on fragmented nationalist identities and complex economic interdependence In this multipolar Asian system new Chinese military capabilities could support both the wish to secure its own interests as well as a more expansive vision for regional leadership which might harbor a destabilizing geopolitical agenda How the United States addresses this reality via military procurements and employment concepts for the Asian theater could either detract from or enhance crisis stability The US defense establishment must reorient its force posture to save money manage conflicts of interest and prevent future interstate crises This analysis provides a framework for how the United States should ideally structure and use military power so as to best support the diplomatic resolution of conflicting interests without resorting to full scale warfare It also critiques the usual Western military focus on offensive strategic predominance in force postures itself often fuelled by the unrealistic pursuit of the opponent's complete submission via victory in decisive battles **Energy, Trade and Finance in Asia** Tai Wei Lim, 2015-10-06 This study offers a vital reappraisal of the trade relationship between north east Asia and the Gulf Writing from a non western standpoint Dargin and Lim make a compelling case for how these regions became economically integrated in the wake of the 1973 oil crisis

Rising to the Challenge in Asia: Republic of Korea, 1999 **Rising to the challenge in Asia** Asian Development Bank, 1999 *The United States and Asia* Robert G. Sutter, 2019-10-17. Now in a fully revised and updated edition, this cogent book provides an overview of the historical context and enduring patterns of U.S. relations with Asia. Noted scholar Robert G. Sutter offers a balanced analysis of post-Cold War dynamics in Asia, which involve interrelated questions of security, economics, national identity, and regional institution building. He demonstrates how these critical concerns manifest a complex mix of realist, liberal, and constructivist tendencies that define the regional order. He describes how the United States has responded to Asia's growing strength and importance while at the same time trying to maintain its leading position as an Asian power despite China's rising influence. Considering the most important transition in American policy toward Asia since the end of the Cold War, Sutter assesses the growing U.S.-China rivalry that now dominates both regional dynamics in the Asia Pacific and U.S. policy in the region.
