Selfless Offspring Keith N. Knapp, 2005-09-30 Both Western and Chinese intellectuals have long derided filial piety tales as an absurd and grotesque variety of children s literature Selfless Offspring offers a fresh perspective on the genre revealing the rich historical worth of these stories by examining them in their original context the tumultuous and politically fragmented early medieval era A D 100 600 At a time when no Confucian virtue was more prized than filial piety adults were moved and inspired by tales of filial children The emotional impact of even the most outlandish actions portrayed in the stories was profound a measure of the directness with which they spoke to major concerns of the early medieval Chinese elite In a period of weak central government and powerful local clans the key to preserving a household s privileged status was maintaining a cohesive extended family Keith Knapp begins this far ranging and persuasive study by describing two related historical trends that account for the narrative s popularity the growth of extended families and the rapid incursion of Confucianism among China s learned elite Extended families were better at maintaining their status and power so patriarchs found it expedient to embrace Confucianism to keep their large fragile households intact Knapp then focuses on the filial piety stories themselves their structure historicity origin function and transmission and argues that most stem from the oral culture of these elite extended families After examining collections of

filial piety tales known as Accounts of Filial Children he shifts from text to motif exploring the most common theme the reverent care and mourning of parents In the final chapter Knapp looks at the relative burden that filiality placed on men and women and concludes that although women largely performed the same filial acts as men they had to go to greater extremes to prove their sincerity

Destruction Rites Mona Hadler,2017-01-30 In the early sixties crowds gathered to watch rites of destruction from the demolition derby where makeshift cars crashed into each other for sport to concerts where musicians destroyed their instruments to performances of self destructing machines staged by contemporary artists Destruction in both its playful and fearsome aspects was ubiquitous in the new Atomic Age This complicated subjectivity was not just a way for people to find catharsis amid the fears of annihilation and postwar trauma but also a complex instantiation of ideological crisis in a time with some seriously conflicted political myths Destruction Rites explores the ephemeral visual culture of destruction in the postwar era and its links to contemporary art It examines the demolition derby games and toys based on warfare playgrounds situated in bomb sites and the rise of garage sales where goods designed for obsolescence and destined for the garbage heap are reclaimed and repurposed by local communities Mona Hadler looks at artists such as Jean Tinguely Niki de Saint Phalle Martha Rosler and Vito Acconci to expose how the 1960s saw destruction construction and the everyday collide as never before During the Atomic age whether in the public sphere or art museums destruction could be transformed into a constructive force and art objects and performances often oscillated between the two

Research in Education,1974 *Rites of Way* Mark Kingwell,Patrick Turmel,2011-04-07 There are many ways to approach the subject of public space the threats posed to it by surveillance and visual pollution the joys it offers of stimulation and excitement of anonymity and transformation its importance to urban variety or democratic politics But public space remains an evanescent and multidimensional concept that too often escapes scrutiny The essays in *Rites of Way* The Politics and Poetics of Public Space open up multiple dimensions of the concept from architectural political philosophical and technological points of view There is some historical analysis here but the contributors are more focused on the future of public space under conditions of growing urbanization and democratic confusion The added interest offered by non academic work visual art fiction poetry and drama is in part an admission that this is a topic too important to be left only to theorists It also makes an implicit argument for the crucial role that art not just public art plays in a thriving public realm Throughout this work contributors are guided by the conviction not pious but steely that healthy public space is one of the best living parts of a just society The paths of desire we follow in public trace and speak our convictions and needs our interests and foibles They are the vectors and walkways of the social the public dimension of life lying at the heart of all politics
