## **Ritual Human Sacrifice In Mesoamerica A Conference At Dumbarton Oaks October 13th And 14th 1979:**

Ritual Human Sacrifice in Mesoamerica Rubén G. Mendoza, Linda Hansen, 2024-03-01 This edited volume addresses the environmental and cultural underpinnings of the kind of social conflict that spawned the origins and elaboration of ritualized human and animal sacrifice in Mesoamerica. The chapters variously document the place of cultural evolution and social complexity in the origins and elaboration of ritual human sacrifice, cannibalism and trophy taking across a broad spectrum of Mesoamerican cultural and social contexts that first saw the light of day before 2600 BCE and rapidly developed and proliferated across the Mesoamerican world in the centuries to follow. They study the developments in sacrifice rituals through the centuries into the first millennium CE when the Mexica, Aztec and their allies had elevated ritual human sacrifice such that they produced a plethora of sacrificial acts, modes and manners of death and associated deities to articulate the necro cultures and blood tribute of the times. The chapters further study present day rites of Amerindian communities from throughout Mesoamerica that include paying homage to the deities of earth and sky through sacrifice and consumption of animal surrogates. The interdisciplinary effort undertaken by this international cadre of scientists including anthropologists, bioarchaeologists, art historians, ethnohistorians, iconographers and religious studies experts provides a particularly rich forum for launching an interrogation into the role of conflict, environment and social complexity in the emergence and persistence of ritual violence and human sacrifice in the Mesoamerican world.

*Latin American Indigenous Warfare and Ritual Violence* Richard J. Chacon, Rubén G. Mendoza, 2019-04-02 This groundbreaking multidisciplinary book presents significant essays on historical indigenous violence in Latin America from Tierra del Fuego to central Mexico. The collection explores those uniquely human motivations and environmental variables that have led to the native peoples of Latin America engaging in warfare and ritual violence since antiquity. Based on an American Anthropological Association symposium, this book collects twelve contributions from sixteen authors, all of whom are scholars at the forefront of their fields of study. All of the chapters advance our knowledge of the causes, extent and consequences of indigenous violence, including ritualized violence in Latin America. Each major historical cultural group in Latin America is addressed by at least one contributor. Incorporating the results of dozens of years of research, this volume documents evidence of warfare, violent conflict and human sacrifice from the fifteenth century to the twentieth, including incidents that occurred before European contact. Together, the chapters present a convincing argument that warfare and ritual violence have been woven into the fabric of life in Latin America since remote antiquity. For the first time, expert subject area work on indigenous violence, archaeological, osteological, ethnographic, historical and forensic, has been assembled in one volume. Much of this work has heretofore been dispersed across various countries and languages. With its collection into one English language volume, all future writers, regardless of their discipline or point of view, will have a source to consult for further research.
