Traditional Magic Spells for Protection and Healing Claude Lecouteux, 2017-11-07 An in depth collection of ancient spells and magic practices drawn from rare and newly discovered texts Presents more than 600 magical prescriptions for healing and protection from both pagan and Christian sources Examines the practice of diagnosing illness through magic and explores ancient beliefs about curses and other evil spells and about devils demons and ghosts Includes spells from the heavily guarded gypsy tradition of magic and healing drawn from newly discovered materials Since the beginning of history people have sought remedies for the many ills that have beset them from illnesses afflicting the body to threats posed by evil and hostile individuals In many folk healing and pagan traditions it was believed that one must gain the assistance of the guardian spirit of a healing plant or substance through prayers or offerings before its chemical properties would be effective The Church decried these spells and practices as pagan superstition but did not seek to exterminate these beliefs instead transferring the responsibility for their healing powers to the apostles and saints Drawing on his extensive knowledge of ancient texts Claude Lecouteux presents more than 600 magical prescriptions from both pagan and Christian sources from the last 2 000 years covering everything from abscesses and shingles to curses and healing animals He examines the practice of diagnosing illness through magic and looks at the origins of disease according to the evolving beliefs of magic practitioners over the centuries He explores ancient beliefs about curses and about devils demons and ghosts and provides an in depth look at protection magic including protection of health animals and cultivated land protection against curses witchcraft bad weather and beasts protection of a home and protection while traveling He includes spells from the heavily guarded gypsy tradition of magic and healing drawn from newly discovered materials collected by two Romanian ethnologists who lived and traveled with gypsies in Transylvania in the mid 19th century The author also reproduces rare texts on magic healing from the 14th and 15th centuries Revealing the vitality of these practices in the remoter areas of Eastern Europe Lecouteux shows how the influence of this pagan worldview is still detectable in the work of modern folk healers in France and Scandinavia He also shows how the condemnation of unorthodox methods of healing has not vanished

from the contemporary world the medieval legislation against healing by wizards and bonesetters is echoed in modern health codes that challenge the authority of naturopaths and faith healers **Healing Magic** Levanah Shell Bdolak,2010-06-30

The End of Magic Ariel Glucklich,1997-03-06 Throughout history magic has been as widely and passionately practiced as religion But while religion continues to flourish magic stumbles towards extinction What is magic What does it do Why do people believe in magic Ariel Glucklich finds the answers to these questions in the streets of Banaras India s most sacred city where hundreds of magicians still practice ancient traditions treating thousands of Hindu and Muslim patients of every caste and sect Through study and

interpretation of the Banarsi magical rites and those who partake in them the author presents fascinating living examples of magical practice and contrasts his findings with the major theories that have explained or explained away magic over the last century These theories he argues ignore an essential sensory phenomenon which he calls magical experience an extraordinary though perfectly natural state of awareness through which magicians and their clients perceive the effects of magic rituals Healing Myths, Healing Magic Donald M. Epstein, 2011-07-08 The myths we accept without question have a powerful magically suggestive effect on the way we interpret our symptoms the way we heal and the quality of life we experience In this breakthrough book Dr Epstein contends that unless we question the myths that control our lives we will continue to make the same healing choices we have been conditioned to make even if those choices are killing us Epstein examines the deeply ingrained stories or myths we commonly hold about how our bodies heal myths that can actually inhibit healing The healing myths are divided into four categories Social Biomedical Religious and New Age He exposes each myth individually then suggests an alternative statement or Healing Magic to help us reclaim our body's natural ability to heal
