Networks of Dissolution Anna Simons, 2019-03-13 In this penetrating and timely book Anna Simons documents Somalia's impending slide toward anarchy How do people react to a failing yet still repressive government What do they do when the banks run out of cash How do they cope with unprecedented uncertainty These are some of the questions Simons addresses as she introduces the reader to Somalia

After Independence Lowell Barrington, 2009-12-18 The majority of the existing work on nationalism has centered on its role in the creation of new states After Independence breaks new ground by examining the changes to nationalism after independence in seven new states This innovative volume challenges scholars and specialists to rethink conventional views of ethnic and civic nationalism and the division between primordial and constructivist understandings of national identity Where do nationalists go once they get what they want We know rather little about how nationalist movements transform themselves into the governments of new states or how they can become opponents of new regimes that in their view have not taken the self-determination drive far enough This stellar collection contributes not only to comparative theorizing on nationalist movements but also deepens our understanding of the contentious politics of nationalism's ultimate product new countries Charles King Chair of the Faculty and Ion Ratiu Associate Professor Georgetown University School of Foreign Service This well-integrated volume analyzes two important variants of nationalism postcolonial and postcommunist in a sober lucid way and will benefit students and scholars alike Zvi Gitelman University of Michigan Lowell W Barrington is Associate Professor of Political Science Marquette University

Peacebuilding in the African Union Abou Jeng, 2012-08-02 Particularly in the context of internal conflicts international law is frequently unable to create and sustain frameworks for peace in Africa In Peacebuilding in the African Union Abou Jeng explores the factors which have prevented such steps forward in the interaction between the international legal order and postcolonial Africa In the first work of its kind Jeng considers whether these limitations necessitate recasting the existing conceptual structure and whether the Constitutive Act of the African

Union provides exactly this opportunity through its integrated peace and security framework Through the case studies of Burundi and Somalia Jeng examines the structures and philosophy of the African Union and assesses the capacity of its practices in peacemaking In so doing this book will be of great practical value to scholars and legal practitioners alike

Sovereignty, State Failure and Human Rights Neil Englehart, 2017-05-08 This book argues that the effectiveness of the state apparatus is one of the crucial variables determining human rights conditions and that state weakness and failure is responsible for much of the human rights abuses we see today Weak states are unable to control their own agents or to police abuses by private actors resulting in less accountability and more abuse By contrast stronger states have greater capacities to protect human rights even strong authoritarian states tend to have better human rights conditions than weak ones The first two chapters of the book develop the theoretical connections between international law sovereignty states and rights and the consequences of state failure for these relationships The empirical chapters Chapters 3 6 test the validity of these theoretical claims employing a multi method approach that combines quantitative and qualitative methods Englehart uses case studies of Afghanistan Burma Myanmar and the Indian state of Bihar to analyze types and patterns of state failure based on analysis of NGO reports archival research primary and secondary texts and interviews and field research Examining what happens to human rights when states fail the book concludes with implications for scholars and activists concerned with human rights This book will be of great use to scholars of international relations comparative politics human rights law and state sovereignty

The Limits of Peacekeeping: Volume 4, The Official History of Australian Peacekeeping, Humanitarian and Post-Cold War Operations Jean Bou, Bob Breen, David Horner, Garth Pratten, Miesje de Vogel, 2018-10-10 The Limits of Peacekeeping highlights the Australian government's peacekeeping efforts in Africa and the Americas from 1992 to 2005 Changing world power structures and increased international cooperation saw a boom in Australia's peacekeeping operations between 1991 and 1995 The initial optimism of this period proved to be misplaced as the limits of the United Nations and the international community to resolve deep seated problems became clear There were also limits on how many missions a middle sized country like Australia could support Restricted by the size of the armed forces and financial and geographic constraints peacekeeping was always a secondary task to ensuring the defence of Australia Faith in the effectiveness of peacekeeping reduced significantly and the election of the Howard Coalition Government in 1996 confined peacekeeping missions to the near region from 1996 2001 This volume is an authoritative and compelling history of Australia's changing attitudes towards peacekeeping

González, 2004-04-01 Anthropologists have a long tradition of prescient diagnoses of world events Possessing a knowledge of culture society and history not always shared by the media's talking heads anthropologists have played a crucial role in educating the general reader on the public debates from World War I to the second Gulf War This anthology collects over fifty commentaries by noted anthropologists such as Margaret Mead Franz Boas and Marshall Sahlins who seek to

Building Sustainable Peace Tom Keating, W. Andy Knight, 2012-07-02 As the world turns its attention to the reconstruction of Afghanistan and Iraq following recent conflicts in these countries the issue of post conflict peacebuilding takes centre stage This collection presents a timely and original overview of the field of peace studies and offers fresh analytical tools which promote a critical reconceptualization of peace and conflict while also making specific reference to peacebuilding strategies employed in recent international conflicts

The Long War - Insurgency, Counterinsurgency and Collapsing States Mark T. Berger, Douglas A. Borer, 2013-09-13 The rise and fall of the Cold War coincided with the universalization and consolidation of the modern nation state as the key unit of the wider international system A key characteristic of the post Cold War era in which the US has emerged as the sole superpower is the growing number of collapsing or collapsed states A growing number of states are or have become mired in conflict or civil war the antecedents of which are often to be found in the late colonial and Cold War era At the same time US foreign policy and the actions of other organizations such as the United Nations may well be compounding state failure in the context of the post 9 11 Global War on Terror GWOT or what is also increasingly referred to as the Long War The Long War is often represented as a new era in warfare and geopolitics This book acknowledges that the Long War is new in important respects but it also emphasizes that the Long War bears many similarities to the Cold War A key similarity is the way in which insurgency and counterinsurgency were and continue to be seen primarily in the context of inter state rivalry in which the critical local or regional dynamics of revolution and counter revolution are marginalized or neglected In this context American policy makers and their allies have again erroneously applied a grand strategy that suits the imperatives of conventional military and geo political thinking rather than engaging with what are a much more variegated array of problems facing the changing global order This book provides a collection of well integrated studies that shed light on the history and future of insurgency counterinsurgency and collapsing states in the context of the Long War This book was previously published as a special issue of Third World Quarterly

Transnationalism

And Civic Engagement Abdulkadir Osman Farah, 2012-10-25 The question of population migration and Diaspora transnationalism in the age of globalization is an area of social sciences deserving much more attention than it has received This book deals with the advent of new ideological currents based on an assumed Clash of Civilizations increasingly popular in social economic and political discourses In this regard applicable oriental literature on migration and Diaspora formation is comparatively older than what has been produced in the west in recent years thus deserving careful consideration For instance when dealing with transnational communities the concept of qabiil kinship allegiance as a central organizational factor dominates western scholarship Instead this book favors taking both western and non western approaches into consideration in order to achieve deeper and richer understanding of the transnational global Diaspora condition In order to surmount the dichotomy of essentialist versus non essentialist frames the epistemological approach instrumentalized in this work follows an emancipatory method critically engaging both approaches Furthermore the book proposes a theoretical framework analytically connecting western and non western social inquiry Hence we should note Emile Durkheim's scheme of modern society transformation from mechanical to organic solidarity was preceded by Ibn Khaldun's binary scheme distinguishing badawa primitive or pre modern i e symbolizing nomadism loyalty and tribalism from hadara civilization or modern i e symbolizing modernity urbanization and individualism Finally this book empirically examines how a host country's mobilizing political and structural opportunities or lack of them influence transnational Diasporas civic engagement that often include the application of combined formal and informal social economic and political capital in addressing multifaceted challenges emanating from host and homeland environments

Operations and Restorative Justice Peter Reddy,2016-05-13 With a bold vision and a distinctive message Reddy stipulates that international peacekeeping can be designed and implemented using the principles of restorative justice To prove this Reddy discusses the congruence of crime armed conflict and violent disorder critiquing restorative justice and its nuanced character as a suitable application to complex civil wars This book provides a comprehensive survey of peace operations and then focuses on the cases of Somalia and Bougainville The comparison between their societal contexts their conflicts peace operations and final outcomes are crucial to this argument Furthermore this shows how the constraining maximising and emergent values of restorative justice can be applied in a peacekeeping setting from the overall command level through to the behaviours of deployed peacekeepers with direct contemporary application This sharp study makes for evocative reading as it introduces the new concept of regeneration as key to any restoratively arranged peace operation Military police NGO and civilian peacekeeper practitioners as well as academic theorists can use this unique work to produce better and more lasting results for conflict ridden communities **The Skull Beneath The Skin** Mark Huband,2019-05-20 In The Skull

Beneath the Skin Africa After the Cold War award winning journalist Mark Huband argues that foreign involvement in Africa has been the single most destructive element in the continent s history He argues that the catastrophes that have erupted since the end of the Cold War are a legacy of that long foreign involvement and that stab *Asia Traveller's Guide* David Jenkins,1975 *Captured at Sea* Jatin Dua,2019-12-10 How is it possible for six men to take a Liberian flagged oil tanker hostage and negotiate a huge pay out for the return of its crew and 2 2 million barrels of crude oil In his gripping new book Jatin Dua answers this question by exploring the unprecedented upsurge in maritime piracy off the coast of Somalia in the

twenty first century Taking the reader inside pirate communities in Somalia onboard multinational container ships and within insurance offices in London Dua connects modern day pirates to longer histories of trade and disputes over protection In our increasingly technological world maritime piracy represents not only an interruption but an attempt to insert oneself within the world of oceanic trade Captured at Sea moves beyond the binaries of legal and illegal to illustrate how the seas continue to be key sites of global regulation connectivity and commerce today
