Lexicography Michael P. Theophilos,2019-11-28 Michael P Theophilos explores the fascinating variety of numismatic contributions to Greek lexicography pertaining to lexicographic studies of the Second Temple period in general and the New Testament in particular Theophilos considers previous scholarly attempts to grapple with and incorporate critical numismatic material into the emerging discipline of Greek lexicography including foundational work by F Preisigke and E Kiessling before outlining his own methodological approach Theophilos then examines the resources available for engaging with the numismatic material and presents a series of specific case studies throughout the New Testament material His carefully annotated images of coins draw readers in to a greater understanding of the material culture of the Greco Roman world and how this impacted upon the Greek language and the New Testament The Wheel Thrown Pottery in Southern Bilad

al-Sham (12th-13th c.): production and consumption. The case-study of Shawbak (Southern Jordan). Part 1. Study Raffaele Ranieri,2024-12-27 The volume investigates the dynamics of pottery production and consumption in southern Bilad al Sham during the 12th and 13th centuries using the archaeological site of Shawbak Castle Jordan as a case study Based on the author s doctoral dissertation the research analyzes several thousand ceramic fragments recovered from stratigraphically reliable contexts through material culture and typological study methods It examines the characteristics of the pottery in relation to the socio economic dynamics of the period spanning the Crusader Ayyubid and Mamluk eras The study provides

critical insights into the role of unglazed wheel thrown pottery in medieval Jordan and enhances the ability to analyze and interpret socio economic and production contexts in the region The archaeological investigations whose data are analyzed in this research were conducted by the Italian Archaeological Mission Medieval Petra Shobak Project with the support of the Italian Ministry of Foreign Affairs and International Cooperation and the University of Florence in collaboration with the Department of Antiquities of Jordan Paul in Contexts Angela Standhartinger ,2025-07-23 **Early Buddhist Architecture in Context** Akira Shimada,2012-11-09 The book provides an updated chronology of the Amara West site and argues its close link with the long term development of urbanization of this region between ca 200 BCE 250 CE based on the latest archaeological art historical and epigraphic evidence Archaeology of Public Estates Giovanna Bianchi,2025-05-15 This study examines public estates in Tuscany's Maremma region from the 9th to 11th centuries identifying material markers of royal properties It explores the role of public lands local aristocracies landscape transformations production exchange and rural economic growth before the 12th century *Coins and Economy in Magdala/Taricheae* Bruno Callegger,2023-08-14 On a monetary basis Magdala must be considered as one of the most important and active settlements between the 1st century BC and most of the 3rd century AD on Lake Kinneret a place of production and trade of supply for military forces certainly in contact with other trading centres probably located on the Mediterranean coast however in a market perspective quite different from our current experience and even from the semantic content of this word often abused with a semantic extension that does not correspond to the experience of the ancients Its monetary decline started on the early 4th century when the economic and monetary strategies of the Constantinian era shifted the flow of money to other routes especially between the great port cities of the Mediterranean The welcome contribution of Callegger's study derives from the new data published which allows us to overcome clichés and a stereotypical view of both the archaeological site and the economy of the Upper Galilee Approaches to Ancient Judaism: Studies in Judaism and Its Greco-Roman Context William S. collaborative research venture between the University of Leicester and the British Museum funded by the AHRC The aim has been to understand the reasons behind the burial and non recovery of these finds A comprehensive online database <https://finds.org.uk/database/> underpins the project which also undertook a comprehensive GIS analysis of all the hoards and field surveys of a sample of them Numismatics and Archaeology Indian Institute of Research in Numismatic Studies,1987 Most with reference to Indic coins **The Radical Jesus, the Bible, and the Great Transformation** Douglas E.

Oakman,2021-01-25 The Radical Jesus offers a companion to the author s previous article collection Jesus and the Peasants Even more than in Jesus and the Peasants these eleven chapters sharpen the focus on the political economic meaning of Jesus then and the deeper values embodied in him that perhaps are still pertinent for now Part One considers his activities and aims within the political economy of first century Galilee Part Two offers perspectives on the critical hermeneutical task of linking the values of Jesus and the Bible to a world that has undergone what Karl Polanyi called the Great Transformation Polanyi argued suavisly in his 1944 book that economy in the pre industrial age was embedded in social relations and served necessary social purposes while society after the Great Transformation became embedded within market capitalist economy to the detriment of social relations This book finds in sustained critical dialog with the Radical Jesus another transforming force and a guiding light toward a more humane economy and society that will serve human need rather than selfish greed
