Microvariation in Syntactic Doubling Sjef Barbiers,Olaf Koenenman,Marika Lekakou,Margreet van der Ham,2008-10-17 Syntactic doubling is the phenomenon in which a constituent i e a morphosyntactic feature morpheme word or phrase is expressed two or more times within a clause Since such duplicates are often redundant in that they do not contribute to semantic interpretation the question arises as to why they are possible or necessary This theoretical question becomes even more urgent in view of the fact that closely related language varieties such as the dialects of one dialect family often differ with respect to the possibility of doubling This book puts together seventeen papers on microvariation in syntactic doubling that deal with such theoretical issues They provide a rich overview

of the syntactic doubling phenomena attested so far and of the theoretical analyses that are currently available The syntactic doubling phenomena discussed include among others subject pronoun doubling WH pronoun doubling possessive pronoun doubling clitic doubling expletive subjects tense mood and aspect doubling auxiliary doubling preposition doubling and negation doubling Language varieties discussed in this book include Afrikaans Alemannic Bavarian Tyrolean German dialects of Dutch dialects of Swedish Norwegian Danish and Faroese colloquial Icelandic colloquial Finnish colloquial European and Brazilian Portuguese Catalan Argentinian Spanish dialects of Italian Rumanian Albanian Bulgarian Serbo Croatian Pontic Macedonian and Modern Greek

Before the Light: The Secret History of Water and Creation (Daoist Cosmology Series) Laing Z. Matthews, 2025-11-08 Before there was form there was Water Before the first light there was a reflection waiting to be seen Before the Light The Secret History of Water and Creation is a luminous exploration of how consciousness becomes world Drawing from ancient Daoist cosmology early creation hymns and modern physics Laing Z Matthews reveals the forgotten lineage of the Great One the primordial intelligence that gives birth to Water and through it to Heaven Earth and time itself Across history sages have said the same thing in different tongues The Great One gives birth to Water The Bible calls it Spirit moving upon the deep Egyptian hymns call it the flood before the sun Daoist texts call it the pulse of the Dao Matthews unites these visions into one coherent cosmology showing that Water in its deepest sense is not a physical element but the first act of awareness It is consciousness made visible Through poetic prose and lucid metaphysical structure Before the Light reinterprets classical creation as a living process within each of us The Great One is not a distant god but the stillness behind our own thought Water is not mere substance but the mirror of mind When awareness looks upon itself the first ripple of time begins and the universe unfolds as reflection rhythm and return Each chapter traces one stage in this unfolding The Great One Gives Birth to Water stillness overflowing into movement Water Before Heaven and Earth how reflection becomes direction and polarity Heaven and Earth Assist Each Other the marriage of expansion and containment Divine Radiance consciousness awakening within form The Year the circular respiration of time itself Matthews blends classical Daoist texts Taiyi Sheng Shui Daodejing Huangting Jing with modern insights from quantum field theory and biophysics revealing a single truth that spans both mysticism and science that everything which exists is the Dao breathing through Water Even the brain the tides and the human heart echo this same cosmic rhythm The pulse of creation is still alive within the bloodstream within the stars and within awareness itself Written with the elegance of spiritual poetry and the precision of natural philosophy Before the Light speaks equally to seekers scientists and mystics It dissolves the false boundary between spirit and matter showing that the universe did not arise from chaos but from coherence the quiet intelligence that moves through all living water This is not a

book of doctrine but of remembrance It calls the reader to experience creation directly not as a myth of the past but as a living event in the present moment To read it is to stand again at the edge of the cosmic sea before the first dawn and to witness the Great One give birth to Water inside your own consciousness For those drawn to the meeting of cosmology mysticism and modern science Before the Light restores an ancient truth that life began not with violence but with reflection that the world was not built but dreamed into being by the stillness that loved itself enough to move **The Nan Chronicle**

David K. Wyatt, 2018-05-31 A new translation of the 1894 chronicle by a high ranking official from the Nan kingdom a once powerful principality whose territory encompassed all of what is now northwestern Laos and neighboring portions of China in addition to the present province of Nan in Thailand It details the history of the principality the legendary origins of the Nan River Valley the rituals and customs of the Nan the moral duties of the ruler and royal genealogy A fascinating portrait of Thai history and culture **A History of the Reformation: The reformation in Germany from its beginning to the religious peace of Augsburg** Thomas Martin Lindsay, 1910 **The I.B.Tauris History of Monasticism** G.R.

Evans, 2015-12-22 From the earliest centuries of the church asceticism and the contemplative life have been profoundly important aspects of western Christianity And in assessing the glories of western civilization perhaps the best place to start is within medieval monastic institutions not outside of them For while monasteries withdrew from the main currents of their societies until the rise of universities in the 12th century they provided fertile soil and sanctuary to the liberal arts and sciences as well as those who wanted to spend their lives focused upon God They became the driving cultural forces of Europe nurturing education music manuscript illumination art and history agriculture animal husbandry all in addition to spiritual guidance In this first general history of monasticism since 1900 Andrea Dickens explores the cloistered communities and individuals who have aspired to the ascetic ideal in their religious life assessing the impact they have made on the wider church and its practices She discusses some of the best known names in Christian history including Cuthbert Columba Hilda of Whitby Peter Abelard and Thomas Merton and traces the monastic impulse from its beginnings in the Egyptian desert through the Rule of St Benedict Cluny's foundation in 910 the austerity of the Cistercians the legacy of women's houses the critique of Luther and Calvin Trappists and Catholic reform up to the present day ecumenical Taizé community Offering a lively and informed overview of western monasticism the book will be essential reading for students of history and religion as well as the lay reader
