Caring for the Vulnerable:

Perspectives in Nursing Theory, Practice, and Research Barbara Anderson, 2008 Organized into seven units concepts nursing theories research practice programs teaching learning and policy this text offers a broad focus on vulnerability and vulnerable populations in addition to extending nurses thinking on the theoretical formulations that guide practice It is a timely and necessary response to the culturally diverse vulnerable populations for whom nurses must provide appropriate and precise care

FNP Led Mobile Health Services for the Homeless Population Tenzin D. Lama, 2015 A small percentage of the U S population uses the greatest portion of the healthcare services Homeless people are often such a group of super utilizers of the healthcare system Due to multiple medical and psychosocial conditions people experiencing homelessness face numerous barriers to accessing healthcare thus leading increased utilization of hospitals and emergency departments EDs services Many of these events are preventable through improved primary care interventions The literature on Respite Recuperative Care Transitional Care and Mobile Health interventions have shown effectiveness in providing safe and quality care to homeless individuals during the critical transitional period post hospital discharge while also reducing the readmission rates to hospitals and EDs The goal of this DNP project was to establish a Mobile Health Services program and function as a part of a larger Recuperative Care pilot program for Marin County s homeless population The partnership between the University of San Francisco School of Nursing and Health Professions USF SONHP and local organizations in

Marin endeavored to improve the quality of care for the homeless population and reduce rehospitalizations and ED visits. This goal was accomplished through the successful implementation of the pilot project. Outcome evaluation demonstrated that the project team was able to prevent rehospitalization in all eight patients that enrolled in the program. These results also showed a potential for a significant positive financial impact on the overall healthcare system by reducing utilization rates of EDs and hospitals and costs associated with it.

Encyclopedia of Homelessness David Levinson, 2004-06-21 Click Additional Materials for downloadable samples. This valuable reference provides an excellent overview of a serious world wide problem. As such it is an essential purchase for all libraries. LIBRARY JOURNAL star review. Levinson's remarkable work deserves an award for tackling this complex social problem in such a very thorough and well organized way. Highly Recommended CHOICE. At any given moment about 3 million American women, men and children are homeless. And another 5 million Americans spend over 50% of their incomes on housing, meaning that one missed paycheck, one health crisis or one unpaid utility bill can push them out the door into homelessness. Homelessness is one of the major social problems and personal and family tragedies of the contemporary world. No community, city or nation is immune and the lack of affordable housing and a decline in secure well paying jobs means that the problem will only get worse. The Encyclopedia of Homelessness is the first systematic effort to organize and summarize what we know about this complex topic that impacts not only the homeless but all of society. The Encyclopedia focuses on the current situation in the United States with a comparative sampling of homelessness around the world. Key Themes: Causes, Lifestyle Issues, Health Issues and Services, History, Legal Issues and Advocacy, Government Policies and Programs, Organizations, Research Approaches, Service Systems and Settings, Size and Characteristics of the Homeless Population, Public Perceptions of Homelessness, World Issues and Perspectives, Quick and Easy Regional Comparisons. Additional descriptive articles cover homelessness today in a sample of American cities and a sample of cities and nations of the world, allowing for quick and easy comparisons. The Encyclopedia contains entries on Australia, Brazil, Canada, Cuba, France, Guatemala, Japan, Nigeria, Russia, Sweden, the United Kingdom, Zimbabwe, Tokyo, Calcutta, London and others around the world. The Encyclopedia of Homelessness meets the needs of a broad audience, offering a rich history and the data, views and perspectives of experts from different disciplines and perspectives including Sociologists, Anthropologists, Economists, Historians, Social Policy Analysts and Planners, Program Administrators, Physicians, Social Workers, Lawyers who provide advocacy and services, Journalists, Students of history, social studies and the social sciences in high school through graduate school. Appendices: In addition to the articles, the Encyclopedia provides five carefully researched and compiled appendices that make this the key starting point for the study of homelessness: Homelessness Autobiographical and Fictional, Homelessness in Popular Culture, Film Directory of Street Newspapers, Documentary History, Selection of primary source material, Master Bibliography. Key Features: Two volumes and over 150 entries organized alphabetically. Entries written by an international team of leading authorities in the field. Reader's
