Ruby,John A. Brown,1976 *The Chinook Indians* who originally lived at the mouth of the Columbia River in present day Oregon

and Washington were experienced traders long before the arrival of white men to that area. When Captain Robert Gray in the ship *Columbia Rediviva* for which the river was named entered the Columbia in 1792 he found the Chinooks in an important position in the trade system between inland Indians and those of the Northwest Coast. The system was based on a small seashell the dentalium as the principal medium of exchange. The Chinooks traded in such items as sea otter furs, elk skin armor which could withstand arrows, seagoing canoes hollowed from the trunks of giant trees and slaves captured from other tribes. Chinook women held equal status with the men in the trade and in fact the women were preferred as traders by many later ships' captains who often feared and distrusted the Indian men. The Chinooks welcomed white men not only for the new trade goods they brought but also for the new outlets they provided. Chinook goods which reached Vancouver Island and as far north as Alaska. The trade was advantageous for the white men too for British and American ships that carried sea otter furs from the Northwest Coast to China often realized enormous profits. Although the first white men in the trade were seamen, land based traders set up posts on the Columbia not long after American explorers Lewis and Clark blazed the trail from the United States to the Pacific Northwest in 1805. John Jacob Astor's men founded the first successful white trading post at Fort Astoria, the site of today's Astoria, Oregon, and the North West Company and the Hudson's Bay Company soon followed into the territory. As more white men moved into the area the Chinooks began to lose their favored position as middlemen in the trade. Alcohol, new diseases such as smallpox, influenza and venereal disease, intertribal warfare and the growing number of white settlers soon led to the near extinction of the Chinooks. By 1851 when the first treaty was made between them and the United States government they were living in small fragmented bands scattered throughout the territory. Today the Chinook Indians are working to revive their tribal traditions and history and to establish a new tribal economy within the white man's system.

The Voyage of George Vancouver, 1791-1795 W. Kaye Lamb, 2017-05-15

Four of the greatest maritime exploring expeditions were crammed into two decades late in the 18th century: Cook's third voyage, the French expedition commanded by La Perouse, the Malaspina expedition sent out by Spain, and George Vancouver's Voyage of Discovery. All four visited the northwest coast of North America but weather and circumstances prevented Cook from making more than what Beaglehole calls a magnificent, an epoch making reconnaissance. La Perouse only touched the coast in a significant way at Yakutat Bay and Lituya Bay and Malaspina's memorable visits were to Yakutat Bay and Nootka Sound. Vancouver by contrast surveyed the enormous extent of coast from Lower California to Cook Inlet and his meticulous survey literally set out on the map of the world the intricacies of Puget Sound and the western coast of mainland Canada. It was an achievement that places him with his mentor Cook in the first rank of marine surveyors. As a midshipman Vancouver had been with Cook when he discovered the Sandwich Hawaiian Islands in 1778. They attracted his interest and the attention he devoted to the islands, their inhabitants and their political future when he twice later wintered there will surprise many. This is the first annotated edition of Vancouver's journal as he revised it for publication in 1798. The original manuscript has

disappeared but fortunately no fewer than 25 partial or complete logs or journals by other members of the expedition have survived These supplement Vancouver's narrative at many points It has been possible to identify virtually all the host of islands channels and inlets that Vancouver encountered and the provenance of most of the approximately 400 place names he bestowed nine out of ten of which are still in use is indicated Book 1 of a new and annotated edition of *A Voyage of Discovery* London 1798 The main pagination of this and the following three volumes is continuous The voyage to Australia and Tahiti
