remedies which are going to stop them aching And then we apply slices of cucumber or tea bags to those eyes which are tired in a measure to refresh them Look at us we have reached the stage when the eyes are strained and tired Instead of shutting down that strenuous work before we reach that particular stage we allow them to start aching accompanied with headaches Then we place ourselves on the nearest bed with cucumber slices teabags ice packs or anything else to give our eyes a bit of rest By the age of 40 we start finding ourselves confronted with vision problems That is the time we are going to make our rounds of the ophthalmologist and perhaps an eye specialist who is going to tell us that we need corrective spectacles We are either suffering from myopia short sight or hyperopia long sight And then you put on your prescription glasses or perhaps contact lenses And you remember to key in the number of that shop which sells you your glasses on your cell phone because you do not know when you would need another pair and when The fact is that the care of our eyes and vision should have begun much earlier Our eyes are our most precious assets and looking after them could make the crucial difference between good eyesight and a blurred one
