Odd Fellows In The Politics Of Religion:

"Odd" Fellows in the Politics of Religion Gary Lease, 2011-04-20 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series Totalitarianism and Political Religions Volume III Han Maier, 2008 *Perspectives on Method and Theory in the Study of Religion* International Association for the History of Religions. Congress, 2000 This volume is the adjunct proceedings on methodology from the XVIIth Congress of the International Association for the History of Religions held in Mexico City in 1995 Taken together the essays present a thorough and coherent perspective on studying religion as an item of human culture Hasidism Incarnate Shaul Magid, 2014-12-10 Hasidism Incarnate contends that much of modern Judaism in the West developed in reaction to Christianity and in defense of Judaism as a unique tradition Ironically enough this occurred even as modern Judaism increasingly dovetailed with Christianity with regard to its ethos aesthetics and attitude toward ritual and faith Shaul Magid argues that the Hasidic movement in Eastern Europe constitutes an alternative modernity one that opens a new window on Jewish theological history Unlike Judaism in German lands Hasidism did not develop under a Christian gaze and had no need to be apologetic of its positions Unburdened by an apologetic agenda at least toward Christianity it offered a particular reading of medieval Jewish Kabbalah filtered through a focus on the charismatic leader that resulted in a religious worldview that has much in common with Christianity It is not that Hasidic masters knew about Christianity rather the basic tenets of Christianity remained present albeit often in veiled form in much kabbalistic teaching that Hasidism took up in its portrayal of the charismatic figure of the zaddik whom it often described in supernatural terms **Rationality and the Study of Religion** Jeppe Sinding Jensen, Luther Martin, 2013-09-13 Does rationality the intellectual bedrock of all science apply to the study of religion Religion arguably the most subjective area of human behaviour has particular challenges associated with its study Attracting crowd healers conjurers the pious and the prophetic alongside comparativists and sceptics it excites opinions and generalizations whilst seldom explicitly staking out the territory for the discussions in which it partakes Increasingly scholars argue that religious study needs to define and critique its own field and to distinguish itself from theology and other non objective disciplines Yet how can rational techniques be applied to beliefs and states of mind regarded by some as beyond the scope of human reason Can these be made empirically testable or comparable and replicable within academic communities Can science explicate religion without reducing it to mere superstition or redefine

its truth in some empirical but meaningful way Featuring contributions from leading international experts including Donald Wiebe Roger Trigg and Michael Pye *Rationality and the Study of Religion* gets under the surface of the religious studies discipline to expose the ideologies beneath Reopening debate in a neglected yet philosophically significant field it questions the role of rationality in religious anthropology natural history and anti scientific theologies with implications not only for supposedly objective disciplines but for our deepest attitudes to personal experience Interesting and important Religion has long been associated with irrationality both by its defenders and its critics and the topic of rationality has been unjustly neglected The book certainly deserves to be widely circulated Greg Alles Western Maryland College *The Twentieth Century* Gregory Baum,1999-01-01 An examination of the impact of major historical events of the 20th century on the interpretation theologians have given of the Christian message Events include the World Wars the Russian Revolution the Great Depression Nazism the Holocaust welfare capitalism and the free market economy There follow reflections from a contemporary perspective on important cultural and religious developments of the 20th century **The Odd Fellow's Quarterly Magazine** ,1843 **The Symbol and Odd Fellows' Magazine** ,1843 *Michel Foucault and Theology* James Bernauer,2017-03-02 Whilst Foucault s work has become a major strand of postmodern theology the wider relevance of his work for theology still remains largely unexamined Foucault both engages the Christian tradition and critically challenges its disciplinary regime Michel Foucault and Theology brings together a selection of essays by leading Foucault scholars on a variety of themes within the history thought and practice of theology Revealing the diverse ways that the work of Michel Foucault 1926 1984 has been employed to rethink theology in terms of power discourse sexuality and the politics of knowledge the authors examine power and sexuality in the church in late antiquity Castelli Clark Schuld raise questions about the relationship between theology and politics Bernauer Leezenberg Caputo consider new challenges to the nature of theological knowledge in terms of Foucault s critical project Flynn Cutrofello Beadoin Pinto and rethink theology in terms of Foucault s work on the history of sexuality Carrette Jordan Mahon This book demonstrates for the first time the influence and growing importance of Foucault s work for contemporary theology **The Ark, and Odd Fellows' Western Magazine** ,1846 **The Odd Fellow's Companion** ,1867 **The Gazette of the Union, Golden Rule, and Odd Fellows' Family Companion** ,1847 **Gazette of the Union, Golden Rule and Odd-fellows' Family Companion** ,1848 *The American Odd Fellow* ,1862 **The Ark, and Odd Fellows' Western Monthly Magazine** ,1845 **The Golden Rule and Odd-fellows Family Companion** ,1846 Intersecting Pathways Marc Aaron Krell,2003 Marc A Krell analyzes the theologies of four twentieth century Jewish thinkers Hans Joachim Schoeps Franz Rosenzweig Richard Rubenstein and Irving Greenberg who have constructed theologies based on their interaction with Christian thought and culture Their work reflects a common attempt to understand the impact of Christian culture on the historical events prior to and following the Holocaust and to reevaluate the relationship between the two religions in light of a history of theological anti Judaism and modern
