Paper Airplanes Tabitha Forney, 2025-07-30 It's the end of summer 2001 Erin O'Connor has everything she's ever dreamed of good friends a high powered career at a boutique Manhattan firm and a husband she adores They have plans for their life together careers children and maybe even a house in the country But life has other plans Daniel works on the 101st floor of the World Trade Center Erin is drinking margaritas on a beach in Mallorca helping her best friend get over a breakup when she hears a plane has crashed into Daniel's building On a television at the smoky hotel bar she watches his building collapse She makes her way home with the help of a stranger named Alec and once there she haunts Ground Zero nearby hospitals and trauma centers plastering walls and fences with missing person flyers But there's no trace of Daniel After accepting Daniel's death Erin struggles to get her life back on track but makes a series of bad decisions and begins to live her life in a self destructive fog of booze and pills It's not until she hits rock bottom that she realizes it's up to her to decide Was her destiny sealed with Daniel's Or is there life after happily ever after

What Causes Human Behavior Stephen F. Ledoux, 2017-09-27 What experts are saying about What Causes Human Behavior Stephen Ledoux's book is a strong non compromising theoretical and philosophical argument that the answers come from behaviorology the natural science of behavior that the answers do not come from astrology theology etc or from psychology the mentalistic unnatural science of the mind And he supports his argument with examples of effective science based applications of applied behaviorology applied behavior analysis and with analyses of human behavior in everyday life going from simple behaviors to complex verbal behavior with suggestions that behaviorology is crucial to the solutions of the world problems of overpopulation sustainability and global warming But also he's not afraid to make these complex topics more readable by using an occasional contraction an informed expression and even a little humor i.e. he's way cool Richard Malott Ph.D. Professor Western Michigan University Professor Ledoux has written a primer on a newly emerging discipline behaviorology It is the natural science of environment behavior relations and an intellectually challenging subject one that variously intersects with astrology psychology philosophy education and physiology plus other biological and behavioral sciences Ledoux's discussion of explanatory fictions and a variety of other explanatory fallacies alone however is worth the price of admission And there is so much more John Stone Ph.D. Professor East Tennessee State University Johnson City and President Education Consumers Foundation at www.educationconsumers.org
