Vicegerency in Islamic Thought and Scripture Chauki Lazhar,2023-04-28 This book explores the reasons for the creation of humanity on Earth from the perspective of ancient and contemporary Muslim thinkers aiming to lay the outlines of a Qur anic theory of human existential function The author proceeds from the assumption that until now contemporary Islamic scholarship has suffered from the absence of theorisation about a Qur anic conception of human existential function vicegerency lacking a unified philosophical and epistemological frame of reference Challenging common perceptions among contemporary Muslim reformists regarding the human existential function the author examines both classical and contemporary thought as well as conducting a thorough and comprehensive analysis of Qur anic passages that ground the theory of vicegerency within a cosmic scheme Ultimately a new approach for understanding the human existential function from within the Qur anic worldview is proposed For the first time then this book offers an integral induction and categorisation of Qur anic teleological concepts combining them within a coherent framework that reveals the outlines of a vicegerency theory and a Qur anic worldview Suitable for both scholars
