Agriculture of Pennsylvania Pennsylvania. State Board of Agriculture,1890 Containing reports of the State Board of Agriculture the State Agricultural Society the State Dairymen s Association the State Fruit Growers Association and the State College for varies From Sugar Camps to Star Barns Sally Ann McMurry,2001 Rural Pennsylvania s landscapes are evocative richly textured testimonies to the lives and skills of generations of builders architects as well as local builders and craft workers Farmhouses and barns silos and fences even field patterns attest to how residents over the years have had a sense of place that was not only functional but also comfortable and aesthetically appropriate for the time From Sugar Camps to Star Barns tells the story of one such place a landscape that evolved in southwestern Pennsylvania s Somerset County Sally McMurry traces the rural life and landscape of Somerset County as it evolved from the earliest settlement days Eighteenth century residents were a forest people living on sparsely built farmsteads and making free use of the heavily forested landscape The makeshift sugar camp typified their hardscrabble lives In the nineteenth century the people of this area turned to farming Prompted by the market revolution that had come to Somerset County they pursued a highly varied agriculture combining a subsistence base with robust production of commodities shipped to distant cities Their landscape reflected this combination of the local and the cosmopolitan a combination that reached its full expression in the distinctive two story banked farmhouse with double decker porch flanked by a substantial Pennsylvania barn The twentieth century brought a more industrialized agriculture to Somerset County But the shift to profit and loss farming also meant the

accentuation of landscape elements specific to market products The magnificent star barns of this era overshadowed the houses and ancillary structures such as peep houses and silos spoke to the pressures of efficiency and mass production The subsequent rise of coal mining helped to stimulate this trend both by supplying local markets and by creating an incentive for farmers to visually distinguish their landscapes from those of the coal patch towns Illustrated with over 100 photographs maps drawings and diagrams From Sugar Camps to Star Barns demonstrates how much we can learn about the economy and culture of a particular place simply by being attentive to the built landscape **Annual Report of the Pennsylvania**
