Protesting Affirmative Action Dennis Deslippe,2012-03 In the process of balancing ideals of race and gender equality with competing notions of colorblindness and meritocracy they even borrowed the language of the civil rights era to make far reaching claims about equality justice and citizenship in their anti affirmative action rhetoric Deslippe traces this conflict through compelling case studies of real people and real jobs He asks what the introduction of affirmative action meant to the careers and livelihoods of Seattle steelworkers New York asbestos handlers St Louis firemen Detroit policemen City University of New York academics and admissions councilors at the University of Washington Law School Through their experiences Deslippe examines the diverse reactions to affirmative action concluding that workers had legitimate grievances against its hiring and promotion practices *Actions of the U.S. Civil Rights Commission Affecting the White Mountain Apache Tribe* United States. Adams,2011-10-17 Seattle was a very different city in 1960 than it is today There were no black bus drivers sales clerks or bank tellers Black children rarely attended the same schools as white children And few black people lived outside of the Central District In 1960 Seattle was effectively a segregated town Energized by the national civil rights movement an interracial group of Seattle residents joined together to form the Seattle chapter of the Congress of Racial Equality CORE Operational from 1961 through 1968 CORE had a brief but powerful effect on Seattle The chapter began by challenging one of the more blatant forms of discrimination in the city local supermarkets Located within the black community and dependent on black customers these supermarkets refused to hire black employees CORE took the supermarkets to task by organizing hundreds of volunteers into shifts of continuous picketers until stores desegregated their staffs From this initial effort CORE in partnership with the NAACP and other groups launched campaigns to increase employment and housing opportunities for black Seattleites and to address racial inequalities in Seattle public schools The members of Seattle CORE were committed to transforming Seattle into a more integrated and just society Seattle was one of more than one hundred cities to support an active CORE chapter Seattle in Black and White tells the local Seattle story about this national movement Authored by four active members of Seattle CORE this book not only recounts the actions of Seattle CORE but through their memories also captures the emotion and intensity of this pivotal and highly charged time in America s history A V Ethel Willis White Book For more information visit <http://seattleinblackandwhite.org> Report and Proceedings of the Investigation of the New York City Police New York (State). These actions including sit ins long before the Greensboro sit ins of 1960 occurred well beyond the borders of the American South and East regions most known as the home of the civil rights movement By considering social justice efforts in western cities and states Black Americans and the Civil Rights Movement in the West convincingly integrates the West into the historical narrative of black Americans struggle for civil rights From Iowa and Minnesota to the Pacific Northwest and from Texas to the Dakotas black westerners initiated a wide array of civil rights activities in the early to late twentieth century Connected to national struggles as much as they were tailored to local situations these efforts predated or prefigured events in the East and South In this collection editors Bruce A Glasrud and Cary D Wintz bring these moments into sharp focus as the contributors note the ways in which the racial and ethnic diversity of the West shaped a specific kind of African American activism Concentrating on the far West the mountain states the desert Southwest the upper Midwest and states both southern and western the contributors examine black westerners responses to racism in its various manifestations whether as school segregation in Dallas job discrimination in Seattle or housing bias in San Francisco Together their essays establish in unprecedented detail how efforts to challenge discrimination impacted and changed the West and ultimately the United States *The National union catalog, 1968-1972 ,1973*
