Political Mobilization Of The Venezuelan Peasant

Terry Lynn Karl

Political Mobilization Of The Venezuelan Peasant:

Political Mobilization of the Venezuelan Peasant John Duncan Powell, 1971 In the first part of this pioneering study John Duncan Powell traces the formation of a successful alliance between the peasant masses who sought land reform and a small urban elite which desperately needed a political power base Part II is devoted to an empirical structural functional analysis of the alliance *Political Attitudes in Venezuela* Enrique A. Baloyra, John D. Martz, 2014-06-23 Here is a benchmark study of voter attitudes in a Latin American country This volume is based on extensive survey research conducted during the Venezuelan elections of 1973 The methods employed by Baloyra and Martz to poll an unpollable society successfully challenge previously established paradigms The authors interviewed a representative sample of over 1 500 voters to determine relationships between class status community context religion ideology and partisanship on the one hand and political attitudes and preferences on the other They found that the Venezuelan electorate is defined by a series of contradictory tendencies and they place their conclusions in the context of contemporary political science literature regarding class and party ideology and party and inequality and participation Authoritarianism and Corporatism in Latin America James Malloy, 2010-11-23 Since the mid 1960s it has been apparent that authoritarian regimes are not necessarily doomed to extinction as societies modernize and develop but are potentially viable if unpleasant modes of organizing a society's developmental efforts This realization has spurred new interest among social scientists in the phenomenon of authoritarianism and one of its variants corporatism The sixteen previously unpublished essays in this volume provide a focus for the discussion of authoritarianism and corporatism by clarifying various concepts and by pointing to directions for future research utilizing them The book is organized in four parts a theoretical introduction discussions of authoritarianism corporatism and the state comparative and case studies and conclusions and implications The essays discuss authoritarianism and corporatism in Argentina Bolivia Brazil Chile Colombia the Dominican Republic Mexico Peru Uruguay and Venezuela **Fifty Years of Peasant Wars in Latin America** Leigh Binford, Lesley Gill, Steve Striffler, 2020-01-10 Informed by Eric Wolf's *Peasant Wars of the Twentieth Century* published in 1969 this book examines selected peasant struggles in seven Latin American countries during the last fifty years and suggests the continuing relevance of Wolf's approach The seven case studies are preceded by an Introduction in which the editors assess the continuing relevance of Wolf's political economy The book concludes with Gavin Smith's reflection on reading Eric Wolf as a public intellectual today *Peasants, Politics and Revolution* Joel S. Migdal, 2015-03-08 During the last quarter century peasant participation in politics has increased markedly in parts of Latin America and Asia Why the poor and vulnerable peasant population has chosen to leave the confines of the village for political activity and at times for sustained revolution is the question this book explores The author draws on informal interviews and observation of peasants in Mexico and India and on fifty one community studies of peasants in Asia and Latin America compiled by ethnographers in the last forty years He suggests that

severe economic crises have driven peasants to roles in the larger economy outside the village where they are initially attracted to politics by material incentives Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Agrarian Structure and Political Power Evelyn Huber, Frank R. Safford, 2010-11-23 The troubled history of democracy in Latin America has been the subject of much scholarly commentary This volume breaks new ground by systematically exploring the linkages among the historical legacies of large landholding patterns agrarian class relations and authoritarian versus democratic trajectories in Latin American countries The essays address questions about the importance of large landowners for the national economy the labor needs and labor relations of these landowners attempts of landowners to enlist the support of the state to control labor and the democratic forms of rule in the twentieth century

Parties, Elections, and Political Participation in Latin America Jorge I Dominguez, 2014-02-04 First Published in 1994 This is Volume five of seven of a collection of essays that gathers together scholarly debates from the 1950s to the 1990s on Mexico Central and South America This text looks at topics such as government parties in Latin America the Mexican elections of 1958 political campaigning the scope of the Chilean Party systems the case of Peronism and electoral change amongst others

History of Political Parties in Twentieth-century Latin America Torcuato Di Tella, 2017-07-05 The general perception of modern Latin American political institutions emphasizes a continuing and random process of disorder and crisis continually out of step with other regions in their progress toward democracy and prosperity In History of Political Parties in Twentieth Century Latin America Torcuato S Di Tella demonstrates that this common view lacks context and comparative nuance and is deeply misleading Looking behind the scenes of modern Latin American history he discerns its broad patterns through close analysis of actual events and comparative sociological perspectives that explain the apparent chaos of the past and point toward the more democratic polity now developing Di Tella argues that although Latin America has peculiarities of its own they must be understood in their contrasts and similarities with both the developed centers and undeveloped peripheries of the world Latin American societies have been prone to mass rebellions from very early on more so than in other regions of the world He analyzes as well such significant exceptions to this pattern as Chile Colombia and to a large extent Brazil Turning to the other side of the social spectrum he shows how the underprivileged classes have tended to support strongman populist movements which have the double character of being aggressive toward the established order but at the same time repressive of public liberties and of more radical groups Di Tella provides here a necessary examination of the concept of populism and divides it into several variants Populism he maintains is by no means disappearing but its variants are instead

undergoing important changes with significant bearing on the region's near term future

History of Political Parties in Twentieth Century Latin America is rich in historical description but also in its broad review of social structures and of the strengths and weaknesses of political institutions Choice commented that this heavily documented volume with an extensive bibliography would prove valuable to researchers and advanced students of Latin America [The History of Venezuela](#) H. Micheal Tarver, 2018-10-25 An indispensable resource for readers interested in Venezuelan history this book analyzes Venezuela's economic crisis through the context of its political and social history For decades the economy of Venezuela has depended on petroleum As a consequence of a reduction in the price of oil Venezuela recently experienced an economic downturn resulting in rampant social spending administrative corruption and external economic forces that collectively led credit rating agencies to declare in November 2017 that Venezuela was in default on its debt payments How did this Latin American nation come to this point The History of Venezuela explores Venezuela's history from its earliest times to the present day demonstrating both the richness of Venezuela and its people and the complexity of its political social and economic problems As with all titles in The Greenwood Histories of the Modern Nations series this chronological narrative examines political economic cultural philosophical and religious continuities in Venezuela's long and rich history providing readers with a concise yet up to date study of the nation The volume highlights the country's wide variety of cultures languages political ideologies and historical figures and landmarks through maps photographs biographies a timeline and a bibliographical essay with suggestions for further reading

Latin American Land Reforms in Theory and Practice Peter Dorner, 1992 Summarizes and synthesizes the land reform programs in Latin America over the past 30 years Considers the political social economic and institutional aspects and the outcomes in light of current and future land reform Paper edition unseen 9 95 Annotation copyrighted by Book News Inc Portland OR

The Paradox of Plenty Terry Lynn Karl, 1997-10-10 The Paradox of Plenty explains why in the midst of two massive oil booms in the 1970s oil exporting governments as different as Venezuela Iran Nigeria Algeria and Indonesia chose common development paths and suffered similarly disappointing outcomes Meticulously documented and theoretically innovative this book illuminates the manifold factors economic political and social that determine the nature of the oil state from the coherence of public bureaucracies to the degree of centralization to patterns of policy making Karl contends that oil countries while seemingly disparate are characterized by similar social classes and patterns of collective action In these countries dependence on petroleum leads to disproportionate fiscal reliance on petrodollars and public spending at the expense of statecraft Oil booms which create the illusion of prosperity and development actually destabilize regimes by reinforcing oil based interests and further weakening state capacity Karl's incisive investigation unites structural and choice based approaches by illuminating how decisions of policymakers are embedded in institutions interacting with domestic and international markets This approach which Karl dubs structured contingency uses a state's leading sector as the starting point for identifying a range of decision making

choices and ends by examining the dynamics of the state itself *The Paradox of Plenty* Terry Lynn Karl,1997-10-10 In these countries dependence on petroleum leads to disproportionate fiscal reliance on petrodollars and public spending at the expense of statecraft **Perception and Misperception in International Politics** Robert Jervis,2017-05-02 Since its

original publication in 1976 *Perception and Misperception in International Politics* has become a landmark book in its field hailed by the New York Times as the seminal statement of principles underlying political psychology This new edition includes an extensive preface by the author reflecting on the book s lasting impact and legacy particularly in the application of cognitive psychology to political decision making and brings that analysis up to date by discussing the relevant psychological research over the past forty years Jervis describes the process of perception for example how decision makers learn from history and then explores common forms of misperception such as overestimating one s influence He then tests his ideas through a number of important events in international relations from nineteenth and twentieth century European history *Perception and Misperception in International Politics* is essential for understanding international relations today

Guerrillas and Revolution in Latin America Timothy P. Wickham-Crowley,2018-06-26 In this comparative survey of guerrilla movements in Latin America Timothy Wickham Crowley explores the origins and outcomes of rural insurgencies in nearly a dozen cases since 1956 Focusing on the personal backgrounds of the guerrillas themselves and on national social conditions the author explains why guerrillas emerged strongly in certain countries but not others He considers for example under what circumstances guerrillas acquire military strength and why they do or do not secure substantial support from the peasantry in rural areas **Latin American Politics** Torcuato S. Di Tella,2010-07-22 First published in English in 1990 as

Latin American Politics A Theoretical Framework a translation of Torcuato S Di Tella s original *Sociología de los procesos políticos* this new edition also focuses on the prerequisites for democracy in any society and on the role of the popular classes in social change Di Tella draws on the work of Montesquieu Burke Tocqueville Marx Weber and Durkheim in formulating his explanatory theories These theories are then tested against crucial events in Latin American history from the rebellions of the eighteenth century to the caudillos of the nineteenth century and the militarism of the twentieth century This edition is more attuned to an English speaking audience with a new chapter addressing the historical process in Argentina from the 1930s to 2000 *Latin American Politics* is written in a style easily accessible to the general reader or student while its emphasis on the growth of democracy in Latin America makes it particularly timely **Exploring Revolution** Timothy P.

Wickham-Crowley,2019-07-26 This series of essays on insurgency and revolution focuses on events in Latin America since 1956 The contributors discuss revolutionary theory the nature of social movements and models of social action Topics raised include terror guerilla regimes mobilizing peasants and the vulnerability of regimes to revolution Venezuela Judith

Ewell,1984 A Stanford University Press classic **Politics And Public Policy In Latin America** Steven W

Hughes,Kenneth J Mijeski,2019-05-28 This innovative textbook focuses on the policy approach as a systematic tool for

understanding Latin American political life and then outlines policymaking variations among the Latin American regimes The authors introduce the student to the study of policymaking by examining various theoretical perspectives and then grounding those perspectives in **The International Politics of Natural Resources** Zuhayr Mikdashi, 2019-06-30 An impartial and shrewd observer here takes a close look at the major producers of today's most sought after commodities Mr Mikdashi deals with the ever shifting pattern of cooperation and antagonism between transnational enterprises companies owned by corporations in developed countries and active in more than one nation and their host governments especially those in the developing world Comparing operations in various countries and in various industries he describes how governments and transnationals work together and separately to exploit market opportunities Petroleum copper iron sulfur uranium bauxite and tin these are among the resources he examines He illuminates the policies strategies and relationships of the protagonists under different market and environmental conditions discussing the relations among the governments themselves and the alliances they have formed such as OPEC and CIPEC Finally he offers suggestions for cooperative action that could both serve the needs of the less developed areas and promote international harmony Practical in approach and original in concept the book clarifies complex contemporary problems and points the way toward solving them

Multinational Corporations and the Politics of Dependence Theodore H. Moran, 2014-07-14 This study deals with a topic of increasing concern the relations between multinational corporations and their host countries in the Third World Theodore H Moran describes how a reaction against dependencia a realization that the fate of the nation hinges on the decisions made by uncontrollable outside forces can spur a host country to opt for control of an industry exposing the country to new dangers as well as new opportunities Originally published in 1975 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
