Trade, development and environment Great Britain: Parliament: House of Commons: Environmental Audit Committee, 2007-05-23 The Environmental Audit Committee established a sub-committee to explore concerns that Government policy on trade and development was not adequately incorporating the need for sustainable development and environmental protection The series of inquiries have scrutinised DFID the WTO and UK trade policy the Government's response to the United Nations Millennium Ecosystem Assessment This is the final inquiry and it looks at the role of the Foreign and Commonwealth Office in delivering international environmental objectives Although it is not often the lead department it has a role in building international support for policy objectives and it also has direct responsibility with DFID towards the environment in UK Overseas Territories The report looks at FCO policy FCO capacity on the environment international environment strategy setting an example UK Overseas Territories

Department for International Development annual report 2007 Great Britain: Parliament: House of Commons: International Development Committee, 2007-11-15 The Committee's report reviews the Department for International Development's 2007 annual report HCP 514 session 2006-07 ISBN 9780102945195 focusing on issues of efficiency and effectiveness The Committee welcomes the increase in the DFID's budget under the Comprehensive Spending Review Settlement for 2008-11 in line with the target of 0.7 per cent of Gross National Income to be allocated to Official Development Assistance by 2013 However it notes the significant challenge for DFID in using this funding effectively when it is also required to reduce its administrative costs and therefore staff numbers at a time when its focus is shifting increasingly towards fragile states where providing assistance is resource intensive Concerns are raised that DFID continues to emphasise inputs rather than outcomes although DFID's new Public Service Agreement Delivery Agreement and the plans to establish the Independent Advisory Committee on Development Impact should make it easier to identify whether DFID's expenditure is effective in reducing poverty in developing countries Four areas for improvement in DFID's work are

highlighted relating to gender equality climate change governance and agricultural development *Resources in Education*, 1979-04 Catalogue of "A.L.A." Library, 1986 **Public Health** Rob Baggott, 2010-12-09 Incorporating the latest developments from the field this eagerly awaited new edition once again provides an important and comprehensive analysis of the key issues in public health Exploring the underlying political context and policy processes this text is core reading for all those interested in the essentials of this area **Markets** William A. Jackson, 2019-04-18 Defining markets has never been an easy task Despite their importance for economic theory and practice they are hard to pin down as a concept and economists have tended to adopt simplified axiomatic models or rely on piecemeal case studies This book argues that an extended range of theory social as well as economic can provide a better foundation for the portrayal of markets The book first looks at the definition of markets their inadequate treatment in orthodox economic theory and their historical background in the pre capitalist and capitalist eras It then assesses various alternatives to orthodox theory categorised as social cultural structural functional and ethical approaches Among the alternatives considered are institutionalist accounts Marxian views network models performativity arguments field theories Austrian views and ethical notions of fair trade A key finding of the book is that these diverse approaches valuable as they are could present a more effective challenge to orthodoxy if they were less disparate Possibilities are investigated for a more unified theoretical alternative to orthodoxy Unlike most studies of markets this book adopts a fully interdisciplinary viewpoint expressed in accessible non technical language Ideas are brought together from heterodox economics social theory critical realism as well as other social sciences such as sociology anthropology and geography Anybody seeking a broad critical survey of the theoretical analysis of markets will find this book useful and it will be of great interest to economists social scientists students and policy makers
