Reading History In Early Modern England Cambridge Studies In Early Modern British History:

Reading History in Early Modern England D. R. Woolf, 2000 This book focuses on the after life of historical texts in the period between the arrival of printing in England and the early eighteenth century Whereas previous studies of historical writing during this period have focused on their authors and on their style or methodology this work examines the history book from a number of other perspectives The intent is to situate the study of history books within the current literature on the history of the book and the history of print culture After discussing the process whereby the inheritance of the medieval chronicle was broken down into a variety of different historical genres during the sixteenth century the author turns to the questions of how and why history books were read who owned them the borrowing and lending of them their production and printing and methods for marketing and distributing them

The Uses of History in Early Modern England Paulina Kewes, 2006-11-15 Publisher Description

Forgotten Queens in Medieval and Early Modern Europe Valerie Schutte, Estelle Paranque, 2018-10-16 Forgotten Queens in Medieval and Early Modern Europe examines queens dowager and queens consort who have disappeared from history or have been deeply misunderstood in modern historical treatment Divided into eleven chapters this book covers queenship from 1016 to 1800 demonstrating the influence of queens in different aspects of monarchy over eight centuries and furthering our knowledge of the roles and challenges that they faced It also promotes a deeper understanding of the methods of power and patronage for women who were not queens many of which have since become mythologized into what historians have wanted them to be The chronological organisation of the book meanwhile allows the reader to see more clearly how these forgotten queens are related by the power agency and patronage they displayed despite the mythologization to which they have all been subjected Offering a broad geographical coverage and providing a comparison of queenship across a range of disciplines such as religious history art history and literature Forgotten Queens in Medieval and Early Modern Europe is ideal for students and scholars of pre modern queenship and of medieval and early modern history courses more generally

Driver, Sid Ray, 2014-01-10 Every generation reinvents Shakespeare for its own needs imagining through its particular choices and emphases the Shakespeare that it values The man himself was deeply involved in his own kind of historical reimagining This collection of essays examines the playwright s medieval sources and inspiration and how they shaped his works With a foreword by Michael Almereyda director of the Hamlet starring Ethan Hawke and dramaturge Dakin Matthews these thirteen essays analyze the ways in which our modern understanding of medieval life has been influenced by our appreciation of Shakespeare s plays **The Jack Cade Rebellion of 1450** Alexander L. Material History of the Bible, England 1200-1553 Eyal Poleg, 2020-08-13 This study of hundreds of manuscripts and early printed books reveals that the Bible has never been an abstract text This book offers a new history of the Bible in England putting the advent of moveable type print and religious reform in a new perspective Shakespeare's Foreign Worlds Carole Levin, John Watkins, 2012-06-15 In Shakespeare's Foreign Worlds Carole Levin and John Watkins focus on the relationship between the London based professional theater preeminently associated with William Shakespeare and an unprecedented European experience of geographic social and intellectual mobility Shakespeare's plays bear the marks of exile and exploration rural depopulation urban expansion and shifting mercantile and diplomatic configurations He fills his plays with characters testing the limits of personal identity foreigners usurpers outcasts outlaws scolds shrews witches mercenaries and cross dressers Through parallel discussions of Henry VI The Taming of the Shrew and The Merchant of Venice Levin and Watkins argue that Shakespeare's centrality to English national consciousness is inseparable from his creation of the foreign as a category asserting dangerous affinities between England's internal minorities and its competitors within an increasingly fraught European mercantile system As a women's historian Levin is particularly interested in Shakespeare's responses to marginalized sectors of English society As a scholar of English Italian Studies and Medieval Studies Watkins situates Shakespeare in the context of broadly European historical movements Together Levin and Watkins narrate the emergence of the foreign as portable category that might be applied both to strangers from other countries and to native born English men and women such as religious dissidents who resisted conformity to an increasingly narrow sense of English identity Shakespeare's Foreign Worlds will appeal to historians literary scholars theater specialists and anyone interested in Shakespeare and the Elizabethan Age **The Dissolution of the Monasteries** James G. Clark, 2022 The first account of the dissolution of the monasteries for fifty years exploring its profound impact on the people of Tudor England This is a book about people though not ideas and as a detailed account of an extraordinary human drama with a cast of thousands it is an exceptional piece of historical writing Lucy Wooding Times Literary Supplement Shortly before Easter 1540 saw the end of almost a millennium of monastic life in England Until then religious houses had acted as a focus for education literary and artistic expression and even the creation of regional and national identity Their closure carried out in just four years between 1536 and 1540 caused a dislocation of people and a disruption of life not seen in England since the Norman Conquest Drawing on the records of national and regional archives as well as archaeological remains James Clark

explores the little known lives of the last men and women who lived in England's monasteries before the Reformation Clark challenges received wisdom showing that buildings were not immediately demolished and Henry VIII's subjects were so attached to the religious houses that they kept fixtures and fittings as souvenirs This rich vivid history brings back into focus the prominent place of abbeys priories and friaries in the lives of the English people *The Formation of Clerical And Confessional Identities in Early Modern Europe* Wim Janse, Barbara Pitkin, 2006 This rich volume by an interdisciplinary group of American and European scholars offers an innovative portrait of the complex formation of clerical and confessional identities within the context of the radically changed religious and political situations in sixteenth and seventeenth century Europe

The History of British Women's Writing, 1610-1690 M. Suzuki, 2011-01-19 During the seventeenth century in response to political and social upheavals such as the English Civil Wars women produced writings in both manuscript and print This volume represents recent scholarship that has uncovered new texts as well as introduced new paradigms to further our understanding of women's literary history during this period

Sounding Prose Natascha Veldhorst, 2022-03-01 This book is about the presence of music in novels More specifically it is about music in the early modern novel with an emphasis on seventeenth century musical prose from The Netherlands It is remarkable that up until now the presence of musical elements in prose works from earlier centuries received almost no attention from academic researchers This essay provides a concise and an accessible introduction into the subject It presents an exploration of the role and function of musical elements in seventeenth century Dutch prose fiction and at the same time offers an overview of this compelling and fascinating new musical literary territory

Dissent and Authority in Early Modern Ireland Jane Wong, 2019-07-10 *Dissent and Authority in Early Modern Ireland* The English Problem from Bale to Shakespeare examines the problems that beset the Tudor administration of Ireland through a range of selected 16th century English narratives This book is primarily concerned with the period between 1541 and 1603 This bracket provides a framework that charts early modern Irish history from the constitutional change of the island from lordship to kingdom to the end of the conquest in 1603 The mounting impetus to bring Ireland to a complete conquest during these years has quite naturally led critics to associate England's reform strategies with Irish Otherness The preoccupation with this discourse of difference is also perceived as the Irish Problem a blanket term broadly used to describe just about every aspect of Irishness incompatible with the English imperialist ideologies The term stresses everything that is wrong with the Irish nation Ireland was a problem to be resolved This book takes a different approach towards the Irish Problem Instead of rehashing the English government's complaints of the recalcitrant Irish and the long struggle to impose royal authority in Ireland I posit that the Irish Problem was very much shaped and developed by a larger English Problem namely English dissent within the English government The discussions in this book focus on the ways in which English writers articulated their knowledge and anxieties of the English Problem in sixteenth century literary and historical narratives This book reappraises the limitations of the Irish Problem and argues that

the crown's failure to control dissent within its own ranks was as detrimental to the conquest as the Irish Problem if not more so and finally it attempts to demonstrate how dissent translates into governance and conquest in early modern Ireland

The Oxford Handbook of the Age of Shakespeare R. Malcolm Smuts, 2016-06-30 The Oxford Handbook of the Age of Shakespeare presents a broad sampling of current historical scholarship on the period of Shakespeare's career that will assist and stimulate scholars of his poems and plays Rather than merely attempting to summarize the historical background to Shakespeare individual chapters seek to exemplify a wide variety of perspectives and methodologies currently used in historical research on the early modern period that can inform close analysis of literature Different sections examine political history at both the national and local levels relationships between intellectual culture and the early modern political imagination relevant aspects of religious and social history and facets of the histories of architecture the visual arts and music Topics treated include the emergence of an early modern public sphere and its relationship to drama during Shakespeare's lifetime the role of historical narratives in shaping the period's views on the workings of politics attitudes about the role of emotion in social life cultures of honour and shame and the rituals and literary forms through which they found expression crime and murder and visual expressions of ideas of moral disorder and natural monstrosity in printed images as well as garden architecture

Popular Politics and the English Reformation Ethan H. Shagan, 2003 This book is a study of popular responses to the English Reformation It takes as its subject not the conversion of English subjects to a new religion but rather their political responses to a Reformation perceived as an act of state and hence like all early modern acts of state negotiated between government and people These responses included not only resistance but also significant levels of accommodation co operation and collaboration as people attempted to co opt state power for their own purposes This study argues then that the English Reformation was not done to people it was done with them in a dynamic process of engagement between government and people As such it answers the twenty year old scholarly dilemma of how the English Reformation could have succeeded despite the inherent conservatism of the English people and it presents a genuinely post revisionist account of one of the central events of English history
