Titi Livi ab urbe condita liber XXXV Livy, 1917 *Encyclopedia of Literary Translation Into English: A-L* O. Classe, 2000 *Reading History in the Roman Empire* Mario Baumann, Vasileios Liotsakis, 2022-01-19 Although the relationship of Greco Roman historians with their readerships has attracted much scholarly attention classicists principally focus on individual historians while there has been no collective work on the matter The editors of this volume aspire to fill this gap and gather papers which offer an overall view of the Greco Roman readership and of its interaction with ancient historians The authors of this book endeavor to define the physiognomy of the audience of history in the Roman Era both by exploring the narrative arrangement of ancient historical prose and by using sources in which Greco Roman intellectuals address the issue of the readership of history Ancient historians shaped their accounts taking into consideration their readers' tastes and this is evident on many different levels such as the way a historian fashions his authorial image addresses his readers or uses certain compositional strategies to elicit the readers' affective and cognitive responses to his messages The papers of this volume analyze these narrative aspects and contextualize them within their socio-political environment in order to reveal the ways ancient readerships interacted with and affected Greco Roman historical prose Pestilence and the Body Politic in Latin Literature Hunter H. Gardner, 2019-07-11 Scientists, journalists, novelists and filmmakers continue to generate narratives of contagion stories shaped by a tradition of disease discourse that extends to early Greco Roman literature Lucretius, Vergil and Ovid developed important conventions of the western plague narrative as a response to the breakdown of the Roman *res publica* in the mid-first century CE and the reconstitution of stabilized government under the Augustan Principate 31 BCE–14 CE relying on the metaphoric relationship between the human body and the body politic these authors used largely fictive representations of epidemic disease to address the collapse of the social order and suggest remedies for its recovery Theorists such as Susan Sontag and René Girard have observed how the rhetoric of disease frequently signals social, psychological or political pathologies but their observations have rarely been applied to Latin literary practices Pestilence and the Body Politic in Latin Literature explores how the origins and spread of outbreaks described by Roman writers enact a drama in which the concerns of the individual must be weighed against those of the collective staged in an environment signalling both reversion to a pre-historic Golden Age and the devastation characteristic of a post-apocalyptic landscape Such innovations in Latin literature have impacted representations as diverse as Carlo Coppola's paintings of a seventeenth-century outbreak of bubonic plague in Naples and Margaret Atwood's *Maddaddam* Trilogy Understanding why Latin writers developed these tropes for articulating contagious disease and imbuing them with

meaning for the collapse of the Roman body politic allows us to clarify what more recent disease discourses mean both for their creators and for the populations they afflict in contemporary media Livy and Early Rome Gary Forsythe, 1999 Livy's work is of interest to two distinct schools of history and literary criticism and Forsythe argues that this has resulted in some conflicting interpretations about various aspects including Livy's sources and his relationship to his subjects **A**

Compulsion for Antiquity Richard H. Armstrong, 2005 If psychoanalysis is the return of repressed antiquity distorted to be sure by modern desire yet still bearing the telltale traces of the ancient archive then would not our growing distance from the archive of antiquity also imply that we are in the process of losing our grip on psychoanalysis itself as Freud conceived it from Chapter 1 As he developed his striking new science of the mind Sigmund Freud had frequent recourse to ancient culture and the historical disciplines that draw on it **A Compulsion for Antiquity** fully explores how Freud appropriated figures and themes from classical mythology and how the theory and practice of psychoanalysis paralleled contemporary developments in historiography archaeology philology and the history of religions Drawing extensively from Freud's private correspondence and other notes and documents Richard H Armstrong touches on Freud's indebtedness to Sophocles and the Oedipus complex his interest in Moses and the Jewish religion and his travels to Athens and Rome Armstrong shows how Freud turned to the ancient world to deal with the challenges posed by his own scientific ambitions and how these lessons influenced the way he handled psychic evidence and formulated the universal application of what were initially isolated clinical truths Freud's narrative reconstructions of the past also related to his sense of Jewishness linking the historical trajectory of psychoanalysis with contemporary central European Jewish culture Ranging across the breadth of Freud's work **A Compulsion for Antiquity** offers fresh insights into the roots of psychoanalysis and fin de siècle European culture and makes an important contribution to the burgeoning discipline of mnemohistory *Ancient Historiography and Its Contexts*

The Renaissance Battle for Rome Susanna de Beer, 2024 **The Renaissance Battle for Rome** examines a rhetorical battle fought simultaneously between many parties seeking prestige or legitimacy through the legacy of ancient Rome It traces the contours of this battle across Renaissance Europe waged by humanist Latin poets negotiating different claims on behalf of others and themselves in their work
