Women Readers and Writers in Medieval Iberia Montserrat Piera, 2019-08-05 This book is devoted to medieval Iberian women readers and writers Focusing on the stories and texts women heard visually experienced or read and the stories that they rewrote the work explores women's experiences and cultural practices and their efforts to make sense of their place within their familial networks and communities The study is based on two methodological and interpretive threads a new paradigm to represent premodern reading and a study of women's writing or more precisely women's textualities as a process of creating words but also acts social practices emotions and ultimately affectus understood here as the embodiment of the ability to affect and be affected The Marvellous and the Monstrous in the Sculpture of Twelfth-century Europe Kirk Ambrose, 2013 Richly illustrated consideration of the meaning of the carvings of non human beings from centaurs to eagles found in ecclesiastical settings Representations of monsters and the monstrous are common in medieval art and architecture from the grotesques in the borders of illuminated manuscripts to the symbol of the green man widespread in churches and cathedrals These mysterious depictions are frequently interpreted as embodying or mitigating the fears symptomatic of a dark age This book however considers an alternative scenario in what ways did monsters in twelfth century sculpture help audiences envision perhaps even achieve various ambitions Using examples of Romanesque sculpture from across Europe

with a focus on France and northern Portugal the author suggests that medieval representations of monsters could service ideals whether intellectual political religious and social even as they could simultaneously articulate fears he argues that their material presence energizes works of art in paradoxical even contradictory ways In this way Romanesque monsters resist containment within modern interpretive categories and offer testimony to the density and nuance of the medieval imagination KIRK AMBROSE is Associate Professor Chair Department of Art and Art History University of Colorado Boulder

Exploring Literacies Helen de Silva Joyce, Susan Feez, 2016-01-26 This book is a guide to current research and debate in the field of literacies practice and education It provides both an historical and lifespan view of the field as well as an overview of research methodologies with first hand examples from a range of researchers involved in literacy research *Medieval Women and Their Objects* Jennifer Adams, Nancy Bradbury, 2021-03-11 The essays gathered in this volume present multifaceted considerations of the intersection of objects and gender within the cultural contexts of late medieval France and England Some take a material view of objects showing buildings books and pictures as sites of gender negotiation and resistance and as extensions of women s bodies Others reconsider the concept of objectification in the lives of fictional and historical medieval women by

looking closely at their relation to gendered material objects taken literally as women's possessions and as figurative manifestations of their desires. The opening section looks at how medieval authors imagined fictional and legendary women using particular objects in ways that reinforce or challenge gender roles. These women bring objects into the orbit of gender identity, employing and relating to them in a literal sense while also taking advantage of their symbolic meanings. The second section focuses on the use of texts both as objects in their own right and as mechanisms by which other objects are defined. The possessors of objects in these essays lived in the world; their lives documented by historical records yet like their fictional and legendary counterparts they too used objects for instrumental ends and with symbolic resonances. The final section considers the objectification of medieval women's bodies as well as its limits. While this at times seems to allow for a trade in women, authorial attempts to give definitive shapes and boundaries to women's bodies either complicate the gender boundaries they try to contain or reduce gender to an ideological abstraction. This volume contributes to the ongoing effort to calibrate female agency in the late Middle Ages, honoring the groundbreaking work of Carolyn P. Collette.

The Saint John's Bible and Its Tradition Jack Baker, Jeffrey Bilbro, Daniel Train, 2018-10-08. In an age of e-books and screens, it may seem antiquated to create a handwritten illuminated Bible. The Benedictine monks at Saint John's Abbey and University, however, determined to produce such a Bible for the twenty-first century: a Bible that would use traditional methods and materials while engaging contemporary questions and concerns. In an age that largely overlooks the physical form of books, *The Saint John's Bible* foregrounds the importance of a book's tactile and visual qualities. This collection considers how *The Saint John's Bible* fits within the history of the Bible as a book and how its haptic qualities may be particularly important in a digital age. Contributors: David Lyle Jeffrey, Matthew Moser, Jonathan Juifs, Sue Sorensen, Paul Anderson, Gretchen Batcheller, Jane Kelley Rodeheffer.

The Cult of St Thomas Becket in the Plantagenet World, c.1170-c.1220 Paul Webster (Medievalist), Marie-Pierre Gelin, 2016. The extraordinary growth and development of the cult of St Thomas Becket is investigated here with a particular focus on its material culture. Thomas Becket, the archbishop of Canterbury, was cut down in his own cathedral just after Christmas 1170, standing amongst the most renowned royal ministers, churchmen, and saints of the Middle Ages. He inspired the work of medieval writers and artists and remains a compelling subject for historians today. Yet many of the political, religious, and cultural repercussions of his murder and subsequent canonisation remain to be explored in detail. This book examines the development of the cult and the impact of the legacy of Saint Thomas within the Plantagenet orbit of the late twelfth and early thirteenth centuries: the Empire assembled by King Henry II, defended by his son King Richard the Lionheart, and lost by King John. Traditional textual and archival sources such as miracle collections, charters, and royal and papal letters are used in conjunction with the material culture inspired by the cult to emphasise the wide-ranging impact of the murder and of the cult's emergence in the century following the martyrdom. From the archiepiscopal church at Canterbury to writers and religious houses across the Plantagenet lands, to the courts of Henry II, his children, and the bishops

of the Angevin world individuals and communities adapted and responded to one of the most extraordinary religious phenomena of the age Dr Paul Webster is currently Lecturer in Medieval History and Project Manager of the Exploring the Past adult learners progression pathway at Cardiff University Dr Marie Pierre Gelin is a Teaching Fellow in the History Department at University College London Contributors Colette Bowie Elma Brenner Jos Manuel Cerda Anne J Duggan Marie Pierre Gelin Alyce A Jordan Michael Staunton Paul Webster

the cross posed a dilemma for Saint Paul and the early Church fathers Crucifixion was a humiliating form of execution reserved for slaves and criminals How could their messiah and savior have been subjected to such an ignominious death Wrestling with this paradox they reimagined the cross as a triumphant expression of Christ's sacrificial love and miraculous resurrection Over time the symbol's transformation raised myriad doctrinal questions particularly about the crucifix the cross with the figure of Christ and whether it should emphasize Jesus's suffering or his glorification How should Jesus's body be depicted alive or dead naked or dressed Should it be shown at all Jensen's wide-ranging study focuses on the cross in painting and literature the quest for the true cross in Jerusalem and the symbol's role in conflicts from the Crusades to wars of colonial conquest The Cross also reveals how Jews and Muslims viewed the most sacred of all Christian emblems and explains its role in public life in the West today

A Printed Icon in Early Modern Italy Lisa Pon, 2015-03-23 In 1428 a devastating fire destroyed a schoolhouse in the northern Italian city of Forl leaving only a woodcut of the Madonna and Child that had been tacked to the classroom wall The people of Forl carried that print now known as the Madonna of the Fire into their cathedral where two centuries later a new chapel was built to enshrine it In this book Lisa Pon considers a cascade of moments in the Madonna of

the Fire's cultural biography when ink was impressed onto paper at a now unknown date when that sheet was recognized by Forl's people as miraculous when it was enshrined in various tabernacles and chapels in the cathedral when it or one of its copies was and still is carried in procession In doing so Pon offers an experiment in art historical inquiry that spans more than three centuries of making remaking and renewal [The Ashgate Research Companion to Monsters and the Monstrous](#) Asa Simon Mittman, Peter J.
