conducted their field work research during the twentieth century were trained in the accepted scientific methods and theories of the time that prescribed observation objectivity and evaluative distance In contradistinction to such prescribed methods regarding the ethnographic work conducted among Native Americans it turns out that the intersubjectively relational work of women both ethnographers and the Indigenous storytellers with whom they worked has produced far more reliably factual historically accurate and tribally specific Indigenous autobiographies than the more scientifically objective approaches of most of the male ethnographers This volume provides a close lens to the work of a number of women ethnographers and Native American women storytellers to elucidate the effectiveness of their relational methods Through a combined rhetorical and literary analysis of these ethnographies we are able to differentiate the products of the women s working relationships By shifting our focus away from the surface level textual reading that largely approaches the texts as factually informative documents literary analysis provides access into the deeper levels of the storytelling that lies beneath the surface of the edited texts Non Native scholars and editors such as Franc Johnson Newcomb Ruth Underhill Nancy Lurie Julie Cruikshank and Noel Bennett and Native storytellers and writers such as Grandma Klah Mar a Chona Mountain Wolf Woman Mrs Angela Sidney Mrs Kitty Smith Mrs Annie Ned and Tiana Bighorse help us to understand that there are ways by which voices and worlds are more and less disclosed for posterity The results vary based upon the range of factors surrounding their production but consistent across each case is the fact that informational accuracy is contingent upon the the degree of mutual respect and collaboration in the women s working relationships And it is in their pioneering intersubjective methodologies that the work of these women deserves far greater attention and approbation The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful

entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

**The Feminist Bookstore Movement** Kristen Hogan, 2016-03-10 From the 1970s through the 1990s more than one hundred feminist bookstores built a transnational network that helped shape some of feminism's most complex conversations Kristen Hogan traces the feminist bookstore movement's rise and eventual fall restoring its radical work to public feminist memory The bookwomen at the heart of this story mostly lesbians and including women of color measured their success not by profit but by developing theories and practices of lesbian antiracism and feminist accountability At bookstores like BookWoman in Austin the Toronto Women's Bookstore and Old Wives Tales in San Francisco and in the essential Feminist Bookstore News bookwomen changed people's lives and the world In retelling their stories Hogan not only shares the movement's tools with contemporary queer antiracist feminist activists and theorists she gives us a vocabulary strategy and legacy for thinking through today's feminisms
