Nickel, 2015-02-10 Culture Politics and Governing The Contemporary Ascetics of Knowledge Production is a critical interdisciplinary approach to how the practices that govern the production of knowledge and culture have material consequences for how we experience everyday life *The Discourse of Domination* Ben Agger, 1992 The Discourse of Domination tackles nothing less than the challenge of giving critical theory a new grip on current problems and restoring the left's faith in the possibility of enlightened social change Agger steers a course between orthodox Marxism and orthodox anti Marxism bringing the concepts of ideology dialectic and domination out of the academy and making them into a living medium of political self expression **Human Behavior and Social Environments** Dennis Saleebey, 2001 Using a biopsychosocial perspective this book demonstrates that there are many ways of knowing many methods of inquiry and several perspectives that can guide one's understanding of human behavior The conceptual frameworks upon which this book is based are resilience and meaning making Themes throughout are capacity context and constitution Pedagogical devices to aid the student include chapter overviews case studies and end of chapter questions **Writing Marketing** Stephen Brown, 2005-09-15 Marketing is a very diverse discipline dealing with everything from the costs of globalization to the benefits of money back guarantees However there is one thing that all marketing academics share They are writers They publish or perish Their careers are advanced and their reputations are enhanced by the written word Despite its importance writing is rarely discussed much less written about by marketing scholars It is one of the least understood yet most significant academic competencies It is a competency in need of careful study Writing Marketing is the first such study It offers a detailed reading of five renowned marketing writers ranging from Ted Levitt to Morris Holbrook and draws lessons that can be adopted with profit by everyone else Although it is not a how to book there are no lengthy lists of dos and don'ts Writing Marketing reveals that the rules of good writing are good for nothing Written by Stephen Brown whose own writing skills are much commented upon Writing Marketing is insightful illuminating and iconoclastic It is a must read for every marketing academic irrespective of their methodological inclinations or philosophical preferences Turning Points in Qualitative Research Yvonna S. Denzin, 2004-09-08 This is a book of signposts of key turning points of Gregory Bateson's knots tied in a handkerchief Each article reproduced in this volume edited by leading qualitative methodologists Lincoln and Denzin represents one of these turning points in qualitative research a revolution in the way research is conceptualized and practiced Authority representation legitimation ethics methods presentation even the purpose of qualitative research have all been transformed by these articles and the authors who penned them Bringing together the work of scholars from Haraway to Geertz Mead to Mishler Clifford to Conquergood Laurel Richardson to Miles Richardson the editors are able trace the changes in the discipline over the past five decades A
